INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-860 (Review)]

Tin- and Chromium-Coated Steel Sheet From Japan**Determination**

On the basis of the record¹ developed in the subject five-year review, the United States International Trade Commission (Commission) determines, pursuant to section 751(c) of the Tariff Act of 1930 (19 U.S.C. 1675(c)) (the Act), that revocation of the antidumping duty order on tin- and chromium-coated steel sheet from Japan would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Background

The Commission instituted this review on July 1, 2005 (70 FR 38210) and determined on October 4, 2005 that it would conduct a full review (70 FR 60110, October 14, 2005). Notice of the scheduling of the Commission's review and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** on December 8, 2005 (70 FR 73027). The hearing was held in Washington, DC, on April 27, 2006, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determination in this review to the Secretary of Commerce on June 26, 2006. The views of the Commission are contained in USITC Publication 3860 (June 2006), entitled *Tin- and Chromium-Coated Steel Sheet from Japan: Investigation No. 731-TA-860 (Review)*.

By order of the Commission.

¹ The record is defined in sec. 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).
