SUMMARY: Notice is hereby given of the following hearing of the U.S.-China Economic and Security Review Commission.

Name: Larry M. Wortzel, Chairman of the U.S.-China Economic and Security Review Commission.

The Commission is mandated by Congress to investigate, assess, evaluate and report to Congress annually on the U.S.-China economic and security relationship. The mandate specifically charges the Commission to investigate the “qualitative and quantitative nature of the transfer of United States production activities to the People’s Republic of China, including the relocation of high technology, manufacturing, and research and development facilities, the impact of such transfers on United States national security, the adequacy of United States export control laws, and the effect of such transfers on United States economic security and employment.” Pursuant to this mandate, the Commission will hold a public hearing in Dearborn, Michigan on July 17, 2006.

Background

This event is the fifth in a series of public hearings the Commission will hold during its 2006 report cycle to collect input from leading experts in academia, business, industry,

government and the public on the impact of the economic and national security implications of the U.S. growing bilateral trade and economic relationship with China. The July 17 hearing is being conducted to obtain commentary about issues connected to the impact of Chinese manufacturing on U.S. auto and auto parts industries from representatives of labor and trade associations, industry auto parts manufacturers and auto assemblers. Information on upcoming hearings, as well as transcripts of past Commission hearings, can be obtained from the USCC Web site <http://www.uscc.gov>.

This hearing will address “Impact of Chinese Manufacturing on U.S. Auto and Auto Parts Industries” and will be Co-chaired by Commissioners George Becker and Daniel Blumenthal.

Purpose of Hearing

The hearing is designed to assist the Commission in fulfilling its mandate by examining the likely effects on the U.S. industry of China’s rapid build-up in automotive production and the resulting global overcapacity. The hearing will also highlight how such factors negatively or positively affect U.S. companies, investors, and workers.

Copies of the hearing agenda will be made available on the Commission’s Web site <http://www.uscc.gov>.
