Economic Research Service

Title: Food Security Supplement to the Current Population Survey.

OMB Control Number: 0536-0043.

Summary of Collection: The Food Security Supplement is sponsored by the Economic Research Service (ERS) as a research and evaluation activity authorized under Section 17 of the Food Stamp Act of 1977 as amended. ERS is collaborating with the Food and Nutrition Service (FNS) and the Bureau of Census to continue this program of research and development. The Food Stamp Program (FSP) is currently the primary source of nutrition assistance for low-income Americans enabling households to improve their diet by increasing their food purchasing power. As the nation's primary public program for ensuring food security and alleviating hunger, the Food Stamp Program needs to regularly monitor food security conditions among its target population. This need requires that USDA continue basic data collection, analysis, and evaluation.

Need and Use of the Information: ERS will collect information from the Current Population Survey Food Security Supplement to routinely obtain data from a large, representative national sample in order to develop a measure that can be used to track the prevalence of food insecurity and hunger within the U.S. population, as a whole, and in selected population subgroups, and to continue development and improvement of methods for measuring these conditions. The data collected will partially fulfill the requirements of the Congressionally mandated 10-Year Plan for the National Nutrition Monitoring and Related Research Program.

AGENCY: Commodity Credit Corporation, Farm Service Agency, USDA.

ACTION: Notice.

SUMMARY: The Commodity Credit Corporation (CCC) announces, for the 2006 crops of wheat, corn, and other feed grains, the acceptance of collateral for marketing assistance loans, warehouse receipts issued by a warehouse storing such commodity in outside storage, subject to the conditions outlined in this notice. This notice is intended to ensure adequate availability of storage space at harvest for producers seeking warehouse-stored marketing assistance loans for grain.

DATES: *Effective Date:* July 3, 2006.

FOR FURTHER INFORMATION CONTACT: Howard Froehlich, Warehouse and Inventory Division, Farm Service Agency, United States Department of Agriculture, 1400 Independence Avenue, SW., STOP 0553, Washington, DC 20250-0553, telephone (202) 720-7398, FAX (202) 690-3123, e-mail: Howard.Froehlich@wdc.usda.gov. Persons with disabilities who require alternative means for communication

for regulatory information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

SUPPLEMENTARY INFORMATION:

Background

To be eligible for a Marketing Assistance Loan under the loan provisions of 7 CFR part 1421, an eligible commodity must be stored in approved storage, which is either on-farm storage, or an approved warehouse that meets the CCC standards for approval of warehouses. Further, in accordance with the CCC Charter Act (15 U.S.C. 714 *et seq.*), CCC enters into storage agreements with private grain and rice warehouse operators to provide for the storage of commodities owned by CCC or pledged as security to CCC for marketing assistance loans.

To ease the demands made on approved warehouse space for the 2006 crop, the CCC will accept as collateral for marketing assistance loans for corn, wheat, and other feed grains, warehouse receipts issued by a warehouse that is storing such commodity in outside storage if the warehouse has executed a Uniform Grain and Rice Storage Agreement (UGRSA) with CCC and if the warehouse is either:

1. A Federally-licensed warehouse under the United States Warehouse Act (USWA) and is in compliance with the provisions of its USWA license; or
2. For all other warehouses, the warehouse is in compliance with State laws allowing the outside storage of such commodities.

USWA Emergency Storage Requirements

Warehouse operators requesting emergency storage space under the USWA must:

1. Receive USWA licensing authority approval for the use of emergency storage space;
2. Meet USWA's security, net worth, bonding, and insurance requirements as required for conventional storage space;
3. Provide written justification that a need for emergency storage exists in the local area including the exact location and quantity requested;
4. Meet USWA's requirement that emergency storage space be accessible for examination purposes;
5. Receive USWA approval for the emergency storage space prior to using such space;
6. Maintain a separate inventory record of all grain stored in emergency storage space as well as account for such grain in the Daily Position Record;

7. Agree that all emergency storage space will be deleted from the license no later than March 31, 2007; and

8. Emergency storage is limited to wheat, corn, and other feed grains unless otherwise allowed by the USWA.

Warehouse Operator's Liability

The use of emergency storage space does not relieve warehouse operators of their obligations under the USWA, State licensing authority (as applicable), or the UGRSA. Warehouse operators are responsible for the quantity and quality of grain stored in emergency storage space to the same extent as their liability for conventional storage space.

Signed at Washington, DC, June 23, 2006.

Teresa C. Lasseeter,

Administrator, Farm Service Agency, and Executive Vice-President, Commodity Credit Corporation.
