

Amendment to Consent Decree in *United States and the State of Minnesota v. Koch Petroleum Group, L.P.* (Civil Action No. 00-CV-2756), which was lodged with the United States District Court for the District of Minnesota on June 23, 2006. Koch recently changed its corporate name and is now known as Flint Hills Resources, LP ("FHR").

The parties are amending the April 25, 2001, Consent Decree in this national, multi-facility Clean Air Act ("Act") enforcement action against FHR pursuant to Section 113(b) of the Clean Air Act ("CAA"), 42 U.S.C. 7413(b) (1983), *amended by*, 42 U.S.C. 7413(b) (Supp. 1991). The original settlement, covering three refineries, was entered by the Court on April 25, 2001, as part of EPA's Petroleum Refinery Initiative. The proposed Amendment allows FHR additional time to conduct studies of various nitrogen oxide ("NO_x") reducing catalysts and to decide on the final NO_x control scheme for the fluidized catalytic cracking unit ("FCCU") at the Pine Bend, Minnesota, facility. Second, the Amendment establishes a process to address any leaks of process fluids into the non-contract, recirculating cooling tower systems as required by the National Emission Standard for Benzene Waste Operations, 40 CFR part 61, subpart FF. Third, and finally, the Amendment exempts two heaters in the FHR system from the application of current or next generation ultra low-NO_x burners, but requires FHR to install specific control technology and accept restrictive emission limits for these two heaters.
