[Docket No. RP06-289-001]

Tennessee Gas Pipeline Company; Notice of Compliance Filing

June 29, 2006.

Take notice that on May 30, 2006, Tennessee Gas Pipeline Company (Tennessee) tendered for filing as part of its FERC Gas Tariff, Fifth Revised Volume No. 1, Substitute Third Revised Sheet No. 368, with an effective date of May 1, 2006.

Tennessee states that the filing is being made in compliance with the Commission's order issued April 27, 2006, in this proceeding.

Any person desiring to protest this filing must file in accordance with Rule 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.211). Protests to this filing will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Such protests must be filed in accordance with the provisions of Section 154.210 of the Commission's regulations (18 CFR 154.210). Anyone filing a protest must serve a copy of that document on all the parties to the proceeding.

The Commission encourages electronic submission of protests in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest to

the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail

notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail

FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

[Docket No. PF06-29-000]

Gulfstream Natural Gas System, L.L.C.; Notice of Intent To Prepare an Environmental Assessment for the Proposed Gulfstream Phase IV Expansion Project and Request for Comments on Environmental Issues

June 28, 2006.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of Gulfstream Natural Gas System, L.L.C.'s (Gulfstream) planned Phase IV Expansion Project located in Florida and Alabama. This notice announces the opening of the scoping process we will use to gather input from the public and interested agencies on the projects. Your input will help the Commission staff determine which issues need to be evaluated in the EA. Please note that the scoping period will close on July 31, 2006.

This notice is being sent to affected landowners; Federal, State, and local government representatives and agencies; environmental and public interest groups; Native American tribes; other interested parties in this proceeding; and local libraries and newspapers. We encourage government representatives to notify their constituents of this planned project and encourage them to comment on their areas of concern.

At this time we request that comments be submitted in written form. Further details on how to submit written comments are provided in the public participation section of this notice. For further information and an opportunity to provide comments, you are invited to attend Gulfstream's public open house meetings that are scheduled as follows:

Tuesday, July 11, 2006, 6-8 p.m.:
Hillsborough County Commission

Building, 601 East Kennedy Blvd., 18th Floor, Tampa, FL 33602.

Wednesday, July 12, 2006, 6-8 p.m.: Weedon Island Preserve, Cultural and Natural History Center, 1800 Weedon Drive, St. Petersburg, FL 33702.

Thursday, July 13, 2006, 6-8 p.m.: Manatee Civic Center, Palma Sola Room, One Haben Blvd., Palmetto, FL 34221.

The primary purpose for the open house sessions is to identify potential siting issues so that they could be appropriately addressed. At the open houses, Gulfstream representatives will be available to discuss the various aspects of the project (e.g., land, construction, environmental, design/engineering, and operations) and will meet individually with attendees to outline how pipelines and related facilities are sited, approved, built, and operated. Aerial photography and offshore survey maps showing route alternatives will be made available to encourage comments on the proposed project. Information on the FERC process will also be available.

In addition to the open houses, Gulfstream has established a toll-free phone number (888-GAS-4-FLA), an e-mail address (gulfstream@williams.com), and has developed a project Web site (<http://www.gulfstreamgas.com/phase4.htm>). Information included on the project Web site includes: The route selection process; the regulatory overview, with links to the FERC Web site; construction procedures; pipeline safety; and contact information.

Summary of the Proposed Project

Progress Energy Florida, Inc. (Progress Energy) is scheduled to re-power its Bartow Power Plant. The 472-megawatt (MW) oil-fired plant is scheduled to be re-powered with three combined cycle gas turbines that will generate 1,100 MW of power. Progress Energy has requested, and Gulfstream has agreed to provide 0.155 billion cubic feet per day of firm natural gas transportation service to the Bartow Plant. In order to provide the requested transportation service, it is necessary for Gulfstream to expand its current system, as described below.

Gulfstream is proposing to construct approximately 17.74 miles of 20-inch-diameter offshore pipeline from a proposed underwater hot tap with the existing 36-inch-diameter Gulfstream Pipeline (Line 200) in Hillsborough County waters of Tampa Bay and connecting to the existing Progress Energy Bartow Power Plant (Bartow Plant) on the east shore of St. Petersburg in Pinellas County, Florida. The project would also require the installation of
