

rolled products, hot-rolled, of a nominal or actual thickness of 4.75 mm or more and of a width which exceeds 150 mm and measures at least twice the thickness, and which are cut-to-length (not in coils). Steel products to be included in the scope of the order are of rectangular, square, circular or other shape and of rectangular or non-rectangular cross-section where such non-rectangular cross-section is achieved subsequent to the rolling process (*i.e.*, products which have been "worked after rolling")—for example, products which have been beveled or rounded at the edges. Steel products that meet the noted physical characteristics that are painted, varnished or coated with plastic or other non-metallic substances are included within this scope. Also, specifically included in the scope of the order are high strength, low alloy ("HSLA") steels. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, titanium, vanadium, and molybdenum. Steel products to be included in this scope, regardless of Harmonized Tariff Schedule of the United States ("HTSUS") definitions, are products in which: (1) Iron predominates, by weight, over each of the other contained elements; (2) the carbon content is two percent or less, by weight; and (3) none of the elements listed below is equal to or exceeds the quantity, by weight, respectively indicated: 1.80 percent of manganese, or 1.50 percent of silicon, or 1.00 percent of copper, or 0.50 percent of aluminum, or 1.25 percent of chromium, or 0.30 percent of cobalt, or 0.40 percent of lead, or 1.25 percent of nickel, or 0.30 percent of tungsten, or 0.10 percent of molybdenum, or 0.10 percent of niobium, or 0.41 percent of titanium, or 0.15 percent of vanadium, or 0.15 percent zirconium. All products that meet the written physical description, and in which the chemistry quantities do not equal or exceed any one of the levels listed above, are within the scope of this order unless otherwise specifically excluded. The following products are specifically excluded from the order: (1) Products clad, plated, or coated with metal, whether or not painted, varnished or coated with plastic or other non-metallic substances; (2) SAE grades (formerly AISI grades) of series 2300 and above; (3) products made to ASTM A710 and A736 or their proprietary equivalents; (4) abrasion-resistant steels (*i.e.*, USS AR 400, USS AR 500); (5) products made to ASTM A202, A225, A514 grade S, A517 grade S, or their proprietary

equivalents; (6) ball bearing steels; (7) tool steels; and (8) silicon manganese steel or silicon electric steel.

The merchandise subject to the order is currently classifiable under the HTSUS under subheadings: 7208.40.3030, 7208.40.3060, 7208.51.0030, 7208.51.0045, 7208.51.0060, 7208.52.0000, 7208.53.0000, 7208.90.0000, 7210.70.3000, 7210.90.9000, 7211.13.0000, 7211.14.0030, 7211.14.0045, 7211.90.0000, 7212.40.1000, 7212.40.5000, 7212.50.0000, 7225.40.3050, 7225.40.7000, 7225.50.6000, 7225.99.0090, 7226.91.5000, 7226.91.7000, 7226.91.8000, 7226.99.0000.

Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise covered by the order is dispositive.

Final Results of Review

As noted above, the Department received no comments concerning the preliminary results; consistent with the preliminary results, we determine that the total net countervailing subsidy rate for DSM is 0.05 percent *ad valorem*, a *de minimis* rate, for the period January 1, 2004, through December 31, 2004. As there have been no changes or comments from the preliminary results we are not attaching a Decision Memorandum to this **Federal Register** notice. For further details of the programs included in this proceeding, see the *Preliminary Results*.

Manufacturer/exporter	Margin (percent)
Dongkuk Steel Mill Co., Ltd. (DSM)	0.05 (de minimis)

Assessment

The Department will issue appropriate assessment instructions directly to U.S. Customs and Border Protection ("CBP") within 15 days of publication of these final results of review. We intend to issue liquidation instructions to CBP for entries or exports made during the period January 1, 2004, through December 31, 2004, without regard to duties.

Cash Deposits Requirements

We will instruct CBP to collect cash deposit of 0.00 percent for DSM and to continue to collect cash deposits for non-reviewed companies at the most recent company-specific rate applicable to the company. Accordingly, the cash deposit rate that will be applied to non-reviewed companies covered by this order will be the rate for that company

established in the investigation or the most recently completed administrative review. See *Notice of Amended Final Determination: Certain Cut-to-Length Carbon-Quality Steel Plate from India and the Republic of Korea; and Notice of Countervailing Duty Orders: Certain Cut-to-Length Carbon-Quality Steel Plate from France, India, Indonesia, Italy, and the Republic of Korea*, 65 FR 6587 (February 10, 2000). The "All Others" rate of 3.26 percent shall apply to all companies not previously reviewed until a review of a company assigned this rate is requested.

This notice also is the only reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation. We are issuing and publishing these results and notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

International Trade Administration

Exporters' Textile Advisory Committee; Notice of Open Meeting

A meeting of the Exporters' Textile Advisory Committee will be held on August 30, 2006 from 8 a.m.-10 a.m. at the MAGIC trade show in Las Vegas, Nevada, room # TBA. When the room number is assigned, it will be published in a future **Federal Register** notice.

The Exporters' Textile Advisory Committee is a national advisory committee that advises Department of Commerce officials on the identification of export barriers, and on market expansion activities. With the elimination of textile quotas under the WTO agreement on textiles and clothing, the Administration is committed to encouraging U.S. textile and apparel firms to export and remain competitive in the global market.

The meeting will be open to the public with a limited number of seats available. For further information or

copies of the minutes, contact Rachel Alarid at (202) 482-5154.

Dated: July 3, 2006.

[I.D. 111505A]

Pacific Fishery Management Council; Notice of Intent; Extension of Public Scoping Period for Intersector Groundfish Allocations

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Extension of public scoping period for an environmental impact statement (EIS); request for comments.

SUMMARY: NMFS and the Pacific Fishery Management Council (Pacific Council) announce their intent to extend the public scoping period for an EIS in accordance with the National Environmental Policy Act of 1969 to analyze proposals to allocate groundfish among various sectors of the non-tribal Pacific Coast groundfish fishery.

DATES: Public scoping meetings will be announced in the **Federal Register** at a later date. Written comments will be accepted at the Pacific Council office through October 27, 2006. The public comment period will be reopened as part of the public comment section under the intersector allocation agenda item at the Pacific Council meeting in Del Mar, CA, the week of November 12, 2006. Additional information on the time and location for this meeting will be provided when the meeting is announced in the **Federal Register**.

ADDRESSES: You may submit comments, on issues and alternatives, identified by 111505A by any of the following methods:

Description of the Proposal

The proposed action with a description of the proposal was published in the **Federal Register** on November 21, 2005 (70 FR 70054).

Preliminary Identification of Environmental Issues

A principal objective of this scoping and public input process is to identify potentially significant impacts to the human environment that should be analyzed in depth in the intersector allocation EIS. Concomitant with identification of those impacts to be analyzed in depth is identification and elimination from detailed study of issues that are not significant or which have been covered in prior environmental reviews. This narrowing is intended to allow greater focus on those impacts that are potentially most significant. Impacts on the following components of the biological and physical environment will be evaluated: (1) Essential fish habitat and ecosystems; (2) protected species listed under the Endangered Species Act and Marine Mammal Protection Act and their habitat; and (3) the fishery management unit, including target and non-target fish stocks. Socioeconomic impacts are also considered in terms of the effect changes will have on the following groups: (1) Those who participate in harvesting the fishery resources and other living marine resources (for commercial, subsistence, or recreational purposes); (2) those who process and market fish and fish products; (3) those who are involved in allied support industries; (4) those who rely on living marine resources in the management area; (5) those who consume fish products; (6) those who benefit from non-consumptive use (e.g., wildlife viewing); (7) those who do not use the resource, but derive benefit from it by virtue of its existence, the option to use it, or the bequest of the resource to future generations; (8) those involved in managing and monitoring fisheries; and (9) fishing communities. Analysis of the effects of the alternatives on these

groups will be presented in a manner that allows the identification of any disproportionate impacts on low income and minority segments of the identified groups, impacts on small entities, and cumulative impacts. Additional comment is sought on other types of impacts that should be considered or specific impacts to which particular attention should be paid within these categories.

Scoping and Public Involvement

Scoping is an early and open process for identifying the scope of notable issues related to proposed alternatives (including status quo and other alternatives identified during the scoping process). A principal objective of the scoping and public input process is to identify a reasonable set of alternatives that, with adequate analysis, sharply define critical issues and provide a clear basis for distinguishing among those alternatives and selecting a preferred alternative. The public scoping process provides the public with the opportunity to comment on the range of alternatives. The scope of the alternatives to be analyzed should be broad enough for the Pacific Council and NMFS to make informed decisions on whether an alternative should be developed and, if so, how it should be designed, and to assess other changes to the fishery management plan and regulations necessary for the implementation of the alternative.

Written comments will be accepted at the Pacific Council office through October 27, 2006 (see **ADDRESSES**). The public comment period will be reopened as part of the public comment section under the intersector allocation environmental impact statement agenda item considered at the Council meeting in Del Mar, California, the week of November 12, 2006. Additional information on the time and location for this meeting will be provided when the meeting is announced in the **Federal Register**. This information will also be posted on the Council Web site (<http://www.pcouncil.org>) (see **ADDRESSES**).
