SUPPLEMENTARY INFORMATION:

Title of Collection: Evaluation of the Historically Black Colleges and Universities Undergraduate Program.

OMB Control No.: 3145-New.

Abstract: The National Science Foundation (NSF) funded a program, called Historically Black Colleges and Universities Undergraduate Program (HBCU-UP), designed to help institutions strengthen the quality of their undergraduate STEM programs. The Urban Institute is conducting an evaluation of the HBCU-UP program. Using a mixed-methods approach, UI researchers will conduct an evaluation over three years to study the effectiveness of the program. The evaluation will include both process and summative components. The process component will document how different models within the Program are being implemented, thus helping evaluators to link strategies to outcomes, identify crucial components of different models, and contribute to the construction of general theories to guide future initiatives to increase the diversity of the STEM workforce. The summative component of the evaluation will focus on the extent to which the Program has produced outcomes that meet stated goals for students, faculty and institutions. The process evaluation will rely mainly on qualitative data collected during case study site visits and interviews; the summative evaluation will rely primarily on data collected through a survey of graduates.

Respondents: Graduates of undergraduate programs to STEM at Historically Black Colleges and Universities awarded an HBCU-UP grant from NSF.

Estimated Number of Annual Respondents: 5,000 (total).

Burden on the Public: 1,250 hours.

Dated: July 6, 2006.

OFFICE OF MANAGEMENT AND BUDGET

Public Availability of Fiscal Year 2005 Agency Inventories Under the Federal Activities Inventory Reform Act

AGENCY: Office of Management and Budget, Executive Office of the President.

ACTION: Notice of public availability of agency inventory of activities that are not inherently governmental and of activities that are inherently governmental.

SUMMARY: The Federal Activities Inventory Reform (FAIR) Act, Public Law 105-270, requires agencies to develop inventories each year of activities performed by their employees that are not inherently governmental—i.e., inventories of commercial activities. The FAIR Act further requires OMB to review the inventories in consultation with the agencies and publish a notice of public availability in the **Federal Register** after the consultation process is completed. In accordance with the FAIR Act, OMB is publishing this notice to announce the availability of inventories from the agencies listed below. These inventories identify both commercial activities and activities that are inherently governmental.

Interested parties who disagree with an agency's initial judgment may challenge the inclusion or the omission of an activity on the list of activities that are not inherently governmental within 30 working days and, if not satisfied with this review, may appeal to a higher level within the agency.

This is the second release of inventories for FY 2005. A notice of the first release of FY 2005 inventories was published in the **Federal Register** on March 14, 2006. See 71 FR 13188-13190. As indicated in OMB's March 2006 notice, the FY 2005 inventory prepared by the Department of Labor (DOL) was released in connection with the first notice of public availability. However, following the initial release of its inventory, DOL made a determination to reclassify certain activities. DOL is making the revisions to its inventory available pursuant to this notice. Since these reclassifications were not made in response to a challenge or appeal, they are considered to be an initial judgment of the agency.
