

reports are sent directly to the EPA regional office.

An agency may not conduct, or sponsor, and a person is not required to respond to, a request for collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 53 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of large appliance surface coating facilities.

Estimated Number of Respondents: 72.

Frequency of Response: Initial, Semiannually, On Occasion, Initially.

Estimated Total Annual Hour Burden: 7,659.

Estimated Total Annual Cost: \$8,400 includes no capital/startup costs and \$8,400 annualized O&M costs.

Changes in the Estimates: There is an increase of 1,371 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is due to an expansion of the calculations to include managerial and clerical labor rates. The increase in O&M costs is due to an increase in equipment maintenance costs.

Dated: June 29, 2006.

Title: Exchange Network Grants Progress Report (Renewal).

ICR numbers: EPA ICR No. 2207.02, OMB Control No. 2025-0006.

ICR Status: This ICR is scheduled to expire on July 31, 2006. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, are listed in 40 CFR part 9 and are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable.

Abstract: This notice announces the collection of information related to the U.S. EPA Environmental Information Exchange Network (EIEN) Grant Program. The EPA Office of Environmental Information provides funding to EPA's Exchange Network partners: States, territories, and federally recognized Indian tribes to support the development of the EIEN. The EIEN is an Internet and-standards-based, secure information system that supports the electronic collection, exchange, and integration of data among its partners. Funding for the Grant

Program has been provided through annual congressional appropriations for the EPA.

To enhance the quality and overall public benefit of the Network, EPA proposes to collect information from the EIEN grantees about how they intend to ensure quality in their projects and the environmental outcomes and outputs from their projects. The proposed Quality Assurance Reporting Form is intended to provide a simple means for grant recipients to describe how quality will be addressed throughout their projects. The Quality Assurance Reporting Form is derived from guidelines provided in the EIEN 2006 grant solicitation notice. As a stipulation of their award, grant recipients are to submit the form within ninety days of grant award.

Grantees are currently required to submit semi-annual progress reports as a stipulation of their award. In these reports, grantees outline project goals, activities required to meet these goals, and outputs and outcomes of activities to date. At the request of numerous grantees, we are proposing to offer the Progress Reporting Form as a vehicle for collecting information. This form is easier to complete than an unstructured narrative, it can be used as the semi-annual and final report form and the information returned will be of higher quality and comparable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1.5 hours for the Semi-Annual Report Form per response and 1 hour per Quality Assurance Form per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements that have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: State, Tribal, and Territorial Environmental Offices receiving EIEN grants.

Estimated Number of Respondents: 225.

Frequency of Response: Twice for the Semi-Annual Report Form; Once for the Quality Assurance Form.

Estimated Total Annual Hour Burden: 733.

Estimated Total Annual Cost: \$37,000 includes \$0 annualized capital or O&M costs and \$37,000 annual labor costs.

Changes in the Estimates: There is an increase of 283 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This change is due to an increase in the estimate to complete the Semi-annual Progress Report Form and due to the addition of the Quality Assurance Form.

Dated: June 29, 2006.
