Regardless of how written comments are submitted, please note that names and addresses of all respondents will become part of the public record. It is the practice of the NPS to make all comments, including names and addresses of respondents who provide that information, available for public review following the conclusion of the NEPA process. Individuals may request that the NPS withhold their name and/or address from public disclosure. If you wish to do so, you must state this

prominently at the beginning of your letter or written response. For those commentators who wish to use the PEPC Web site, such a request can be made by checking the box "keep my contact information private". NPS will honor all such requests to the extent allowable by law, but you should be aware that NPS may still be required to disclose your name and address pursuant to the Freedom of Information Act.

*Decision Process:* Following the release of the Draft EIS/GMP, all public and agency comments received will be carefully considered in preparing the final document. The final plan and EIS is anticipated to be completed during winter 2006-07 and its availability will be similarly announced in the **Federal Register** and via local and regional press media. Not sooner than 30 days following the release of the Final EIS/GMP a Record of Decision would be prepared.

Completion of the Final EIS/GMP does not guarantee funds and staff for implementing the approved plan. The NPS recognizes that this is along-term plan, and, in the framework of the plan, park managers would take incremental steps to reach park management goals and objectives. While some of the actions can be accomplished with little or no funding, some actions would require more detailed implementation plans, site specific environmental analysis and/or cultural compliance, and additional funds. The park would actively seek alternative sources of funding, but there is no guarantee that all the components of the plan would be implemented.

As a delegated EIS, the official responsible for the final decision is the Regional Director, Pacific West Region; subsequently the official with responsibility for implementing the approved plan would be the Superintendent, Olympic National Park.

Dated: April 11, 2006.

*Acting Regional Director, Pacific West Region.*
