

assessment rates. We will direct CBP to assess the resulting assessment rates against the entered customs values for the subject merchandise on Raoping Yucun's entries under the relevant order during the POR.

To determine whether the duty assessment rates were *de minimis*, in accordance with the requirement set forth in 19 CFR 351.106(c)(2), we calculated importer-specific *ad valorem* rates. For Raoping Yucun, we aggregated the dumping margins calculated for all U.S. sales to each importer and divided this amount by the entered value of the sales to each importer. Where an importer-specific *ad valorem* rate is *de minimis*, we will order CBP to liquidate appropriate entries without regard to antidumping duties.

Lastly, for the respondents receiving dumping rates based upon AFA, the Department will instruct CBP to liquidate entries according to the AFA *ad valorem* rate. The Department will issue appraisal instructions directly to CBP upon the completion of the final results of this administrative review.

Reimbursement Of Duties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective orders ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing these results and notice in accordance with sections 751(a) and 777(i) of the Act.

Dated: July 5, 2006.

David M. Spooner,
Assistant Secretary for Import Administration.

Taking Marine Mammals Incidental to Specified Activities; Port Sutton Navigation Channel, Tampa Bay, FL

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a proposed modification to a proposed marine mammal incidental take authorization; request for comments.

SUMMARY: NMFS received a request from the U.S. Army Corps of Engineers-Jacksonville District (Corps) for an authorization to take marine mammals, by harassment, incidental to expanding and deepening the Port Sutton Navigation Channel in Tampa Harbor, FL (Port Sutton project). On August 18, 2005, NMFS published a **Federal Register** notice to solicit public comments for the Corps' proposed project and NMFS preliminary determination of issuing an incidental harassment authorization (IHA) to the Corps. Subsequently, the Corps submitted additional information to NMFS on charge weight of the explosives and calculations for impact zones from a similar port construction project that the Corps completed in Miami. Due to the similarity of the geophysical structure and rock substrate between the Port of Miami and Port Sutton, the Corps proposes to modify certain aspects of the proposed project in Port Sutton with the best available scientific information obtained from the Port of Miami project. NMFS is requesting comments on the proposed
