

issues addressed in this proceeding, see the *Preliminary Results*.

The final dumping margin is as follows:

CORROSION-RESISTANT CARBON STEEL FLAT PRODUCTS FROM JAPAN

Producer/manufacturer/ exporter	Dumping Margin (percent)
Nippon Steel	36.41

Assessment

The Department will determine, and U.S. Customs and Border Protection (“CBP”) shall assess, antidumping duties on all appropriate entries, pursuant to 19 CFR 351.212(b). We will direct CBP to assess the dumping rate listed above against all subject merchandise manufactured or exported by Nippon Steel, and entered or withdrawn from warehouse for consumption during the POR. The Department will issue appropriate assessment instructions directly to CBP within 15 days of publication of these final results of review.

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of the subject merchandise from Japan entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this administrative review, as provided by section 751(a)(1) of the Act: (1) The cash deposit rate for Nippon Steel will be 36.41 percent; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original LTFV investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will be 36.41 percent, the “All Others” rate established in the LTFV investigation. See *AD Orders from Japan*, 58 FR 44163.

Notification to Importers

This notice also serves as final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary’s

presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective orders (APOs) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby

requested. Failure to comply with the regulations and terms of an APO is a violation that is subject to sanction.

This administrative review and notice are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

SUPPLEMENTARY INFORMATION:

Case History

The *Preliminary Results* in this administrative review were published on March 6, 2005. Since the *Preliminary Results*, the following events have occurred:

On April, 10, 2006, Raoping Yucun submitted surrogate value information.

On April 14, 2006, Raoping Yucun submitted its case brief. On April 19, 2006, the Department rejected Raoping Yucun’s case brief because it contained new factual information. On April 21, 2006, Raoping Yucun submitted a revised case brief. On May 16, 2006, the Department rejected Raoping Yucun’s revised case brief because it failed to remove all new factual information. On May 17, 2006, Raoping Yucun submitted a second revised case brief.

Scope Of The Order

The products covered by this order are certain preserved mushrooms, whether imported whole, sliced, diced, or as stems and pieces. The certain preserved mushrooms covered under this order are the species *Agaricus bisporus* and *Agaricus bitorquis*.

“Certain Preserved Mushrooms” refer to mushrooms that have been prepared or preserved by cleaning, blanching, and sometimes slicing or cutting. These mushrooms are then packed and heated in containers including, but not limited to, cans or glass jars in a suitable liquid medium, including, but not limited to, water, brine, butter or butter sauce. Certain preserved mushrooms may be imported whole, sliced, diced, or as stems and pieces. Included within the scope of this order are “brined” mushrooms, which are presalted and packed in a heavy salt solution to provisionally preserve them for further processing.

Excluded from the scope of this order are the following: (1) All other species of mushroom, including straw mushrooms; (2) all fresh and chilled mushrooms, including “refrigerated” or “quick blanched mushrooms”; (3) dried mushrooms; (4) frozen mushrooms; and (5) “marinated,” “acidified,” or “pickled” mushrooms, which are prepared or preserved by means of

Certain Preserved Mushrooms from the People's Republic of China: Final Results and Final Partial Rescission of the Sixth Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On March 10, 2005, the Department of Commerce (the “Department”) published in the *Federal Register* the preliminary results of the administrative review of the antidumping duty order on certain preserved mushrooms from the People’s Republic of China (“PRC”). See *Certain Preserved Mushrooms from the People’s Republic of China: Partial Rescission and Preliminary Results of the Sixth Administrative Review*, 70 FR 11183 (March 6, 2006) (“Preliminary Results”). We provided interested parties an opportunity to comment on the *Preliminary Results*. Based upon our analysis of the comments and

information received, we made changes to certain surrogate value calculation which affect the dumping margin calculation for Raoping Yucun Canned Foods Factory (“Raoping Yucun”) in these final results. We find that certain manufacturers/exporters sold subject merchandise at less than normal value during the period of review (“POR”).

vinegar or acetic acid, but may contain oil or other additives.¹

The merchandise subject to this order is classifiable under subheadings: 2003.10.0127, 2003.10.0131, 2003.10.0137, 2003.10.0143, 2003.10.0147, 2003.10.0153 and 0711.51.0000 of the Harmonized Tariff Schedule of the United States ("HTSUS"). Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this order is dispositive.

Rescission Of Review

In the *Preliminary Results*, we preliminarily rescinded the review with respect to Green Fresh Foods (Zhangzhou) Co., Ltd. ("Green Fresh"), which reported that it did not sell merchandise subject to the antidumping duty order during the POR. See *Preliminary Results*, 70 FR at 11184. Since the issuance of the *Preliminary Results*, no party has placed evidence on the record demonstrating that Green Fresh exported subject merchandise during the POR. Therefore, in accordance with 19 CFR 351.213(d)(3) and consistent with the Department's practice, we are rescinding this administrative review with respect to Green Fresh.

Analysis Of Comments Received

All issues raised in Raoping Yucun's case brief are listed in the Appendix to this notice and are addressed in the Issues and Decision Memorandum, which is hereby adopted by this notice. Parties can find a complete discussion of the issues raised in this administrative review, and the corresponding recommendations in this public memorandum, which is on file in the Central Records Unit ("CRU"), room B-099 of the main Department building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly on the internet at <http://ia.ita.doc.gov/>. The paper copy and electronic version of the Issues and Decision Memorandum are identical in content.

¹ On June 19, 2000, the Department affirmed that "marinated," "acidified," or "pickled" mushrooms containing less than 0.5 percent acetic acid are within the scope of the antidumping duty order. See "Recommendation Memorandum-Final Ruling of Request by Tak Fat, et al. for Exclusion of Certain Marinated, Acidified Mushrooms from the Scope of the Antidumping Duty Order on Certain Preserved Mushrooms from the People's Republic of China," dated June 19, 2000. On February 9, 2005, this decision was upheld by the United States Court of Appeals for the Federal Circuit. See *Tak Fat v. United States*, 39C F.3d 1378 (Fed. Cir. 2005).

Changes Since The Preliminary Results

Based on the comments received from the interested parties, we have made changes to certain surrogate value calculations that affect the margin calculation for Raoping Yucun. For a discussion of these changes, see the Issues and Decision Memorandum, at Comments 1 and 5.

Facts Available

In the *Preliminary Results*, we based the dumping margins for Primera Harvest (Xiangfan) Incorporated ("PHX"), Gerber Food (Yunnan) Co., Ltd. ("Gerber") and Guangxi Yulin Oriental Food Co., Ltd. ("Guangxi Yulin") on total adverse facts available ("AFA") for their sales of subject merchandise pursuant to sections 776(a) and 776(b) of the Tariff Act of 1930, as amended (the "Act"). See *Preliminary Results*, 70 FR at 11938-39.

We continue to apply total AFA to PHX because PHX withdrew from the instant administrative review, which significantly impeded our ability to conduct this review with respect to PHX. We continue to apply total AFA to Gerber and Guangxi Yulin because they did not respond to the Department's antidumping duty questionnaires, which significantly impeded our ability to conduct this review with respect to Gerber and Guangxi Yulin. Lastly, we continue to find that PHX, Gerber and Guangxi Yulin did not establish entitlement to a separate rate and thus are a part of the PRC-wide entity in this review. Because they failed to provide requested information, we continue to find that it is appropriate to apply facts available to PHX, Gerber and Guangxi Yulin in accordance with sections 776(a)(2)(A), (B), and (C) of the Act.

In addition, we continue to find, in accordance with section 776(b) of the Act, that AFA is appropriate. For these final results, we continue to find that as AFA, the PRC-wide entity rate of 198.63 is appropriate.

A complete explanation of the selection, corroboration, and application of AFA can be found in the *Preliminary Results*. See *Preliminary Results*, 70 FR at 11186. The Department has not received comments with regard to our selection and application of AFA. Nothing has changed since the *Preliminary Results* that would affect the Department's selection, corroboration, and application of AFA for the above-referenced companies in this review. Accordingly, for the final results, we continue to apply AFA as noted above.

Final Results Of Review

The weighted-average dumping margin for the POR is as follows:

Manufacturer/exporter	Margin (percent)
Raoping Yucun	113.84
PRC-Wide Entity ²	198.63

²Which includes PHX, Gerber and Guangxi Yulin.

Cash Deposit Requirements

The following deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of certain preserved mushrooms from the PRC entered, or withdrawn from warehouse, for consumption on or after the publication date of this notice, as provided for by section 751(a)(1) of the Act: (1) The cash deposit rates for the reviewed companies named above will be the rates for those firms established in the final results of this administrative review; (2) for any previously reviewed or investigated PRC or non-PRC exporter, not covered in this review, with a separate rate, the cash deposit rate will be the company-specific rate established in the most recent segment of those proceedings; (3) for all other PRC exporters, the cash deposit rates will be the PRC-wide rates established in the final results of this review; and (4) the cash deposit rate for any non-PRC exporter of subject merchandise from the PRC who does not have its own rate will be the rate applicable to the PRC exporter that supplied the non-PRC exporter. These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

The PRC-Wide Cash Deposit Rates

The current PRC-wide cash deposit rate is 198.63 percent. This deposit requirement shall remain in effect until publication of the final results of the next administrative review.

Assessment Rates

The Department will issue appraisement instructions directly to U.S. Customs and Border Protection ("CBP") within 15 days of publication of the final results of this administrative review. In accordance with 19 CFR 351.212(b)(1), we have calculated importer-specific assessment rates for merchandise subject to this review. For Raoping Yucun, we divided the total dumping margins of its reviewed sales by the total entered value of its reviewed sales for each applicable importer to calculate *ad valorem*

assessment rates. We will direct CBP to assess the resulting assessment rates against the entered customs values for the subject merchandise on Raoping Yucun's entries under the relevant order during the POR.

To determine whether the duty assessment rates were *de minimis*, in accordance with the requirement set forth in 19 CFR 351.106(c)(2), we calculated importer-specific *ad valorem* rates. For Raoping Yucun, we aggregated the dumping margins calculated for all U.S. sales to each importer and divided this amount by the entered value of the sales to each importer. Where an importer-specific *ad valorem* rate is *de minimis*, we will order CBP to liquidate appropriate entries without regard to antidumping duties.

Lastly, for the respondents receiving dumping rates based upon AFA, the Department will instruct CBP to liquidate entries according to the AFA *ad valorem* rate. The Department will issue appraisement instructions directly to CBP upon the completion of the final results of this administrative review.

Reimbursement Of Duties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective orders ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing these results and notice in accordance with sections 751(a) and 777(i) of the Act.

Dated: July 5, 2006.

[I.D. 061406A]

Taking Marine Mammals Incidental to Specified Activities; Port Sutton Navigation Channel, Tampa Bay, FL

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a proposed modification to a proposed marine mammal incidental take authorization; request for comments.

SUMMARY: NMFS received a request from the U.S. Army Corps of Engineers-Jacksonville District (Corps) for an authorization to take marine mammals, by harassment, incidental to expanding and deepening the Port Sutton Navigation Channel in Tampa Harbor, FL (Port Sutton project). On August 18, 2005, NMFS published a **Federal Register** notice to solicit public comments for the Corps' proposed project and NMFS preliminary determination of issuing an incidental harassment authorization (IHA) to the Corps. Subsequently, the Corps submitted additional information to NMFS on charge weight of the explosives and calculations for impact zones from a similar port construction project that the Corps completed in Miami. Due to the similarity of the geophysical structure and rock substrate between the Port of Miami and Port Sutton, the Corps proposes to modify certain aspects of the proposed project in Port Sutton with the best available scientific information obtained from the Port of Miami project. NMFS is requesting comments on the proposed
