

The purpose of the project is agricultural irrigation water management. The proposed plan consists of a pump station and pipeline that will allow transfer of water from the Red River to Red Bayou thus providing a dependable source of irrigation water to farmers in the project area. Associated land treatment measures will increase the efficiency of existing irrigation systems, reduce erosion and sedimentation rates, improve water quality and provide incidental opportunities to improve wildlife and fisheries habitat.

The Notice of Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, state, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data collected during the environmental assessment are on file and may be reviewed by contacting Donald W. Gohmert.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.

Donald W. Gohmert,
State Conservationist.

Notice of Proposed Changes to the Natural Resources Conservation Service's National Handbook of Conservation Practices

AGENCY: Natural Resources Conservation Service (NRCS), USDA.

ACTION: Notice of availability of proposed changes in the NRCS National Handbook of Conservation Practices for public review and comment.

SUMMARY: Notice is hereby given of the intention of NRCS to issue a series of new or revised conservation practice standards in its National Handbook of Conservation Practices. These standards include: "Stream Habitat Improvement and Management (Code 395)," "Fish Passage (Code 396)," and "Fishpond Management (Code 399)." NRCS State Conservationists who choose to adopt these practices for use within their States will incorporate them into Section IV of their respective electronic Field Office Technical Guides (eFOTG). These practices may be used in conservation systems that treat highly erodible land or on land determined to be wetland.

DATES: Effective Dates: Comments will be received for a 30-day period commencing with this date of publication. After consideration of all comments, final versions of these new or revised conservation practice standards will be adopted after the close
