Notice of Rescission of Countervailing Duty Administrative Review: Certain Hot-Rolled Carbon Steel Flat Products from India

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On March 28, 2006, the Department of Commerce (“the Department”) published a notice of intent to rescind the administrative review of the countervailing duty order on certain hot-rolled carbon steel flat products from India. The review covers Essar Steel, Ltd. (“Essar”). The period of review (“POR”) is January 1, 2005, through December 31, 2005. The Department received no comments concerning the intent to rescind; therefore, we are rescinding the administrative review. We have found that, during the POR, Essar made no shipments of subject merchandise to the United States during the POR.

EFFECTIVE DATE: July 18, 2006.

FOR FURTHER INFORMATION CONTACT: Preeti Tolani, AD/CVD Operations, Office 3, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Ave., NW, Washington, DC 20230; telephone: (202) 482-0395.

SUPPLEMENTARY INFORMATION:

Background

On March 28, 2006, the Department published a notice of intent to rescind the administrative review of the countervailing duty order on certain hot-rolled carbon steel flat products from India. See *Notice of Intent to Rescind Countervailing Duty Administrative Review: Certain Hot-Rolled Carbon Steel Flat Products from India*, 71 FR 15379 (March 28, 2006) (“*Intent to Rescind*”). On April 20, 2006, the Department published a correction to the notice of intent to rescind. See *Notice of Correction to Notice of Intent to Rescind Countervailing Duty Administrative Review: Certain Hot-Rolled Carbon Steel Flat Products from India*, 71 FR 20390 (April 20, 2006). We invited interested parties to comment on the *Intent to Rescind*. We received no comments.

Scope of Review

The merchandise subject to this order is certain hot-rolled flat-rolled carbon-quality steel products of a rectangular shape, of a width of 0.5 inch or greater, neither clad, plated, nor coated with metal and whether or not painted, varnished, or coated with plastics or other non-metallic substances, in coils (whether or not in successively superimposed layers), regardless of thickness, and in straight lengths, of a thickness of less than 4.75 mm and of a width measuring at least 10 times the thickness. Universal mill plate (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width

exceeding 150 mm, but not exceeding 1250 mm, and of a thickness of not less than 4 mm, not in coils and without patterns in relief) of a thickness not less than 4.0 mm is not included within the scope of this order.

Specifically included in the scope of this order are vacuum-degassed, fully stabilized (commonly referred to as interstitial-free (“IF”)) steels, high-strength low-alloy (“HSLA”) steels, and the substrate for motor lamination steels. IF steels are recognized as low-carbon steels with micro-alloying levels of elements such as titanium or niobium (also commonly referred to as columbium), or both, added to stabilize carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, vanadium, and molybdenum. The substrate for motor lamination steels contains micro-alloying levels of elements such as silicon and aluminum.

Steel products included in the scope of this order, regardless of definitions in the Harmonized Tariff Schedule of the United States (“HTSUS”), are products in which: i) Iron predominates, by weight, over each of the other contained elements; ii) the carbon content is 2 percent or less, by weight; and iii) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

1.80 percent of manganese, or
2.25 percent of silicon, or
1.00 percent of copper, or
0.50 percent of aluminum, or
1.25 percent of chromium, or
0.30 percent of cobalt, or
0.40 percent of lead, or

1.25 percent of nickel, or
0.30 percent of tungsten, or
0.10 percent of molybdenum, or
0.10 percent of niobium, or
0.15 percent of vanadium, or
0.15 percent of zirconium.

All products that meet the physical and chemical description provided above are within the scope of this order unless otherwise excluded. The following products, by way of example, are outside or specifically excluded from the scope of this order:

- Alloy hot-rolled steel products in which at least one of the chemical elements exceeds those listed above (including, e.g., ASTM specifications A543, A387, A514, A517, A506).
- SAE/AISI grades of series 2300 and higher.
- Ball bearings steels, as defined in the HTSUS.
- Tool steels, as defined in the HTSUS.
- Silico-manganese (as defined in the HTSUS) or silicon electrical steel with a silicon level exceeding 2.25 percent.
- ASTM specifications A710 and A736.
- USS Abrasion-resistant steels (USS AR 400, USS AR 500).
- All products (proprietary or otherwise) based on an alloy ASTM specification (sample specifications: ASTM A506, A507).
- Non-rectangular shapes, not in coils, which are the result of having been processed by cutting or stamping and which have assumed the character of articles or products classified outside chapter 72 of the HTSUS.

The merchandise subject to this order is currently classifiable in the HTSUS at subheadings: 7208.10.15.00, 7208.10.30.00, 7208.10.60.00, 7208.25.30.00, 7208.25.60.00, 7208.26.00.30, 7208.26.00.60, 7208.27.00.30, 7208.27.00.60, 7208.36.00.30, 7208.36.00.60, 7208.37.00.30, 7208.37.00.60, 7208.38.00.15, 7208.38.00.30, 7208.38.00.90, 7208.39.00.15, 7208.39.00.30, 7208.39.00.90, 7208.40.60.30, 7208.40.60.60, 7208.53.00.00, 7208.54.00.00, 7208.90.00.00, 7211.14.00.90, 7211.19.15.00, 7211.19.20.00, 7211.19.30.00, 7211.19.45.00, 7211.19.60.00, 7211.19.75.30, 7211.19.75.60, and 7211.19.75.90. Certain hot-rolled flat-rolled carbon-quality steel covered by this order, including: vacuum-degassed fully stabilized; high-strength low-alloy; and the substrate for motor lamination steel may also enter under the following tariff

numbers: 7225.11.00.00, 7225.19.00.00, 7225.30.30.50, 7225.30.70.00, 7225.40.70.00, 7225.99.00.90, 7226.11.10.00, 7226.11.90.30, 7226.11.90.60, 7226.19.10.00, 7226.19.90.00, 7226.91.50.00, 7226.91.70.00, 7226.91.80.00, and 7226.99.00.00. Subject merchandise may also enter under 7210.70.30.00, 7210.90.90.00, 7211.14.00.30, 7212.40.10.00, 7212.40.50.00, and 7212.50.00.00. Although the HTSUS subheadings are provided for convenience and customs purposes, the Department's written description of the merchandise subject to this order is dispositive.

Rescission of Administrative Review

On February 16, 2006, Essar asserted that it had made no shipments of subject merchandise during the POR and requested that the Department rescind the review. The petitioner did not comment on Essar's claim of no shipments. On February 27, 2006, the Department conducted a customs query to ascertain whether there were any entries of the subject merchandise from Essar during the POR; the query showed that there were none. See the March 15, 2006, Memorandum to the File from the Team regarding Customs Query, the public version of which is on file in the Central Records Unit ("CRU"). Thus, the Department was able to confirm that Essar had no entries of subject merchandise during the POR.

Pursuant to 19 CFR 351.213(d)(3), the Department may rescind an administrative review if the Secretary concludes that during the POR, there were no entries, exports, or sales of the subject merchandise, as the case may be. See *Certain Hot-Rolled Lead and Bismuth Carbon Steel Products From Germany: Notice of Termination of Countervailing Duty Administrative Review*, 64 FR 44489 (August 16, 1999), and *Final Results and Partial Rescission of Countervailing Duty Administrative Review: Stainless Steel Sheet and Strip From the Republic of Korea*, 68 FR 13267 (March 19, 2003). Therefore, because Essar had no entries of subject merchandise during the POR, consistent with the regulation and our practice, we determine to rescind this review.

Cash Deposit Requirements

We will instruct CBP to continue to collect cash deposits for Essar at the rate set forth in the most recently completed administrative review.

This notice also serves as a reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the disposition of proprietary information

disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This administrative review and this notice are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: July 11, 2006.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.
