

7. Interactive Session #2, 6/19/06.

An estimated 3,000 persons will have engaged in one or more of these events. An online survey of participants will be conducted after the final event is completed in June 2006. The survey will give these individuals an opportunity to provide feedback on the activities of the PNL professional development program. The evaluation will yield information on what participants learned through the program, their current partnering activity, and their future interest in and need for learning about partnering. Information gathered will help IMLS and CPB to identify potential areas for improvement in PNL professional development activities, determine the level of need/interest for this resource within the key stakeholder groups, and assess the contribution of the professional development resources to meeting local needs and the IMLS and CPB missions.

Agency: Institute of Museum and Library Services.

Title: Partnership for a Nation of Learners (PNL) Evaluation.

OMB Number: Agency Number: 3137.

Frequency: One time Affected Public: Personnel of museums, museum organizations, libraries, library organizations, and public broadcasting outlets.

Number of Respondents: 2400.

Estimated Time per Respondent: 10 minutes.

Total Burden Hours: 400.

Total Annualized capital/startup costs: 0.

Total Annual costs: 0.

FOR FURTHER INFORMATION CONTACT:

Karen Motylewski, Evaluation Officer, Institute of Museum and Library Services, 1800 M Street, NW., 9th Floor, Washington, DC. Telephone: 202-653-4686; fax 202-653-8625; e-mail: kmotylewski@imls.gov.

Dated: July 17, 2006.

Rebecca Danvers,

Director, Office of Research and Technology.

BILLING CODE 7036-01-M

NUCLEAR REGULATORY COMMISSION**Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request**

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. *Type of submission, new, revision, or extension:* Extension.

2. *The title of the information collection:* NRC Form 590, Application/Permit for Use of the Two White Flint (TWFN) Auditorium.

3. *The form number if applicable:* NRC Form 590.

4. *How often the collection is required:* Each time public use of the auditorium is requested.

5. *Who will be required or asked to report:* Members of the public requesting use of the NRC Auditorium.

6. *An estimate of the number of annual responses:* 5.

7. *The estimated number of annual respondents:* 5.

8. *An estimate of the total number of hours needed annually to complete the requirement or request:* 1.25 hours (15 minutes per request).

9. *An indication of whether section 3507(d), Public Law 104-13 applies:* N/A.

10. *Abstract:* In accordance with the Public Buildings Act of 1959, an agreement was reached between the Maryland-National Capital Park and Planning Commission (MPPC), the General Services Administration (GSA), and the Nuclear Regulatory Commission that the NRC auditorium will be made available for public use. Public users of the auditorium will be required to complete NRC Form 590, Application/Permit for Use of Two White Flint North (TWFN) Auditorium. The information is needed to allow for administrative and security review and scheduling, and to make a determination that there are no anticipated problems with the requester prior to utilization of the facility.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed

below by August 21, 2006. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.

John A. Asalone, Office of Information and Regulatory Affairs (3150-0181), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be e-mailed to John_A._Asalone@omb.eop.gov or submitted by telephone at (202) 395-4650.

The NRC Clearance Officer is Brenda Jo. Shelton, 301-415-7233.

Dated at Rockville, Maryland, this 13th day of July, 2006.

For the Nuclear Regulatory Commission.

Brenda Jo. Shelton,

NRC Clearance Officer, Office of Information Services.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION**Advisory Committee on Nuclear Waste; Renewal Notice**

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: This notice is to announce the renewal of the Advisory Committee on Nuclear Waste (ACNW) for a period of two years.

SUPPLEMENTARY INFORMATION: The U.S. Nuclear Regulatory Commission (NRC) has determined that the renewal of the charter for the Advisory Committee on Nuclear Waste for the two year period commencing on July 14, 2006, is in the public interest, in connection with duties imposed on the Commission by law. This action is being taken in accordance with the Federal Advisory Committee Act, after consultation with the Committee Management Secretariat, General Services Administration.

The purpose of the Advisory Committee on Nuclear Waste is to report to and advise the Nuclear Regulatory Commission (NRC) on nuclear waste management. The bases of ACNW reviews include 10 CFR parts 20, 40, 50, 60, 61, 63, 70, 71 and 72, and other applicable regulations and legislative mandates. In performing its work, the Committee will examine and report on those areas of concern referred to it by the Commission and may undertake studies and activities on its own initiative, as appropriate. Emphasis will be on protecting the public health and safety in the disposal of nuclear waste and the handling and processing of

nuclear materials. The Committee will undertake studies and activities related to nuclear materials and waste management such as transportation, waste determinations, reprocessing, storage and disposal facilities, in situ leaching mining, mill tailings, enrichment facilities, health effects, decommissioning, materials safety, application of risk-informed, performance-based regulations, and evaluation of licensing documents, rules and regulatory guidance. The Committee will interact with representatives of the public, NRC, Advisory Committee on Reactor Safeguards, other Federal agencies, State and local agencies, Indian Tribes, and private, international, and other organizations as appropriate to fulfill its responsibilities.

FOR FURTHER INFORMATION CONTACT: John T. Larkins, Executive Director of the Committee, U.S. Nuclear Regulatory Commission, Washington, DC 20555, telephone (301) 415-7360.

Dated: July 14, 2006.

Andrew L. Bates,

Federal Advisory Committee, Management Officer.

NUCLEAR REGULATORY COMMISSION

Technical Specification Improvement for Combustion Engineering Plants to Risk-Inform Requirements Regarding Conditions Leading to Exigent Plant Shutdown Using the Consolidated Line Item Improvement Process

AGENCY: Nuclear Regulatory Commission.

ACTION: Request for comment.

SUMMARY: Notice is hereby given that the staff of the Nuclear Regulatory Commission (NRC) has prepared a model safety evaluation (SE) relating to changes in Combustion Engineering (CE) plant conditions leading to exigent plant shutdown in technical specifications (TS). The NRC staff has also prepared a model no-significant-hazards-consideration (NSHC) determination relating to this matter and a model license amendment request (LAR). The purpose of these models is to permit the NRC to efficiently process amendments that propose to adopt technical specifications changes, designated as TSTF-426, related to Topical Report WCAP-16125-NP, Revision 0 (Rev 0), September 2003 (previously CE NPSD-1208, Rev. 0), "Justification for the Risk Informed

Modifications to Selected Technical Specifications for Conditions Leading to Exigent Plant Shutdown," which was approved by an NRC SE dated July 9, 2004. Licensees of CE nuclear power reactors to which the models apply could then request amendments, confirming the applicability of the SE and NSHC determination to their reactors. The NRC staff is requesting comment on the model SE and model NSHC determination prior to announcing their availability for referencing in license amendment applications.

DATES: The comment period expires August 21, 2006. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date.

ADDRESSES: Comments may be submitted either electronically or via U.S. mail. Submit written comments to Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, Mail Stop: T-6 D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Hand deliver comments to: 11545 Rockville Pike, Rockville, Maryland, between 7:45 a.m. and 4:15 p.m. on Federal workdays. Copies of comments received may be examined at the NRC's Public Document Room, 11555 Rockville Pike (Room O-1F21), Rockville, Maryland. Comments may be submitted by electronic mail to CLIIP@nrc.gov.

FOR FURTHER INFORMATION CONTACT: T.R. Tjader, Mail Stop: O-12H2, Division of Inspection & Regional Support, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone 301-415-1187.

SUPPLEMENTARY INFORMATION:

Background

Regulatory Issue Summary 2000-06, "Consolidated Line Item Improvement Process for Adopting Standard Technical Specifications Changes for Power Reactors," was issued on March 20, 2000. The consolidated line item improvement process (CLIIP) is intended to improve the efficiency of NRC licensing processes, by processing proposed changes to the standard technical specifications (STS) in a manner that supports subsequent license amendment applications. The CLIIP includes an opportunity for the public to comment on proposed changes to the STS after a preliminary assessment by the NRC staff and finding

that the change will likely be offered for adoption by licensees. This notice solicits comment on a proposed change to the STS that allows changes in CE plant conditions leading to exigent plant shutdown in technical specifications (TS), if risk is assessed and managed. The CLIIP directs the NRC staff to evaluate any comments received for a proposed change to the STS and to either reconsider the change or announce the availability of the change for adoption by licensees. Licensees opting to apply for this TS change are responsible for reviewing the staff's evaluation, referencing the applicable technical justifications, and providing any necessary plant-specific information. Each amendment application made in response to the notice of availability will be processed and noticed in accordance with applicable NRC rules and procedures.

This notice involves the changes in CE plant conditions leading to exigent plant shutdown in TS, if risk is assessed and managed. The change was proposed in Topical Report WCAP-16125-NP Rev 0, September 2003 (previously CE NPSD-1208, Rev 0), "Justification for the Risk Informed Modifications to Selected Technical Specifications for Conditions Leading to Exigent Plant Shutdown," which was approved by an NRC SE dated July 9, 2004. This change was proposed for incorporation into the STS by the owners groups participants in the Technical Specification Task Force (TSTF) and is designated TSTF-426, Rev 0. TSTF-426, Rev 0, can be viewed on the NRC's web page at <http://www.nrc.gov/reactors/operating/licensing/techspecs.html>.

Applicability

This proposal to modify TS requirements by the adoption of TSTF-426, Rev 0, is applicable to all licensees of CE plants who commit to WCAP-16446-NP, Rev 0, "Actions to Preclude Entry into LCO 3.0.3 Implementation Guidance (PA-RMCS-0196)," June 2005.

To efficiently process the incoming license amendment applications, the staff requests that each licensee applying for the changes proposed in TSTF-426 include Bases for the proposed TS consistent with the Bases proposed in TSTF-426. The CLIIP does not prevent licensees from requesting an alternative approach or proposing the changes without the requested Bases. However, deviations from the approach recommended in this notice may require additional review by the NRC staff and may increase the time and resources needed for the review. Significant variations from the approach, or
