

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Office of Refugee Resettlement; Division of Community Resettlement; Supplement to Community Refugee and Immigration Services

AGENCY: Office of Refugee Resettlement, Division of Community Resettlement, Administration for Children And Families, HHS.

ACTION: Program expansion supplement.

SUMMARY: Notice is hereby given that the Office of Refugee Resettlement, Division of Community Resettlement, will award supplemental funds without competition to Community Refugee and Immigration Services (CRIS). This supplement is being awarded for a project that will deliver comprehensive services to meet the housing, employment and case management needs of the Somali Bantu.

The arrival of more than 200 Somali Bantu refugee secondary migrants into Columbus, Ohio, has severely impacted CRIS' ability to provide employment and other services as well as the capacity of the local homeless shelter system in the community. This supplement will provide assistance with the needs of these refugees to ensure that they have adequate housing and other services to assist in their successful resettlement into this community.

The grantee, Community Refugee and Immigration Services, is the Ohio affiliate of Church World Service and is engaged in the primary resettlement of newly arriving refugees in Franklin County.

These supplemental funds will support 3 months of assistance at a cost of \$116,133 in Federal support.

FOR FURTHER INFORMATION CONTACT: Sue Benjamin, Office of Refugee Resettlement, Division of Community Resettlement, 370 L'Enfant Promenade,

SW., Washington, DC 20447, Phone: 202-401-4851.

Dated: July 14, 2006.

Martha E. Newton,

Director, Office of Refugee Resettlement.

National Institutes of Health

Submission for OMB Review; Comment Request; Educational Needs Assessment of International Drug Abuse Researchers

Summary: Under the provisions of section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Institute on Drug Abuse (NIDA), the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request to review and approve the information collection listed below. This proposed information collection was previously published in the **Federal Register** on March 1, 2006 [Pages 10539-10540] and allowed 60-days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

Proposed Collection: Title: The NIDA International Program Research Training Modules for International Application Needs Assessment Survey. *Type of Information Collection Request:* NEW. *Need and Use of Information Collection:* This is a request for a one-time clearance to undertake an educational needs assessment survey of NIDA's collaborating international drug abuse researchers. The purpose of this survey is to more precisely define the educational needs of the international

drug abuse research community before proceeding with the development of formal distance learning programs. Reviews of distance education programs in the developing world often reveal that systematically organized learning needs assessments are continually absent. (USAID 2001: The Use and Effect of Distance Education in Healthcare: What Do We Know? Operations Research Issue Paper 2). This survey will address that issue.

The survey is based on recommendations received from current international drug abuse researchers and NIDA grantees. It is designed to be brief (2 pages) and succinct, asking respondents to prioritize their educational needs. The questions have been previously tested with persons who speak English as a second language. Total time to complete the survey is less than five minutes. The survey will cover the following elements: (1) Respondent background, including availability of educational technologies, (2) Educational needs, including a ranking of 10 proposed topics in drug abuse education, and (3) Collaborative needs, including an estimate of the value of online tools for research collaboration. The survey will not collect name, address, or other identifying information. *Frequency of Response:* This project will be conducted once. *Affected Public:* International drug abuse researchers who are currently affiliated with or wish to be affiliated with the U.S. drug abuse research community. *Type of Respondents/Drug Abuse Researchers:* physicians, scientists, mental health workers, and scientists-in-training. The reporting burden is as follows: *Estimated Total Annual Number of Responses:* 250; *Estimated Number of Responses per Respondent:* 1; *Average Burden Hours per Response:* 0.09. *Estimated Total Annual Burden Hours Requested:* 22.5. There are no Capital Costs to report. There are no Operating or Maintenance Costs to report. The estimated annualized burden is summarized below.

Drug abuse researcher respondents	Estimated number of respondents	Estimated number of responses per respondent	Average burden hours per response	Estimated total burden hours
Physicians	100	1	0.09	9.0
PhD Scientists	70	1	0.09	6.3
Mental Health/Drug	40	1	0.09	3.6
Abuse Professionals	40	1	0.09	3.6
Scientists-in-Training	40	1	0.09	3.6
Annualized Totals	250	1	0.09	22.5
