

for the construction and operation of a proposed new Utah Museum of Natural History at the University of Utah.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C), the National Park Service and the University of Utah announce the availability of a Draft Environmental Impact Statement for the Construction and Operation of a Proposed New Utah Museum of Natural History at the University of Utah, Salt Lake County, Utah.

DATES: The University of Utah and the National Park Service will accept comments on the Draft Environmental Impact Statement from the public through September 19, 2006. A public meeting will be held at a time, date, and place to be announced. Public meeting information will be posted on the project Web site (see url below).

ADDRESSES: Information will be available for public review and comment online at <http://www.umnh.utah.edu>, (click on About UMNH, New Building Updates, Environmental Impact Statement), or at Bear West Company, 145 South 400 East, Salt Lake City, Utah 84111, phone 801-355-8816.

FOR FURTHER INFORMATION CONTACT: Ralph Becker, 145 South 400 East, Salt Lake City, Utah 84111, 801-355-8816, e-mail rbecker@bearwest.com.

SUPPLEMENTARY INFORMATION: If you wish to comment, you may submit your comments by any one of several methods. You may mail comments to UMNH EIS, c/o Bear West, 145 South 400 East, Salt Lake City, Utah 84111. You may also comment via e-mail to bcall@bearwest.com. If you do not receive a confirmation that your e-mail message was received, contact us directly by calling Bridger Call at 801-355-8816. Finally, you may hand-deliver comments to Bear West, 145 South 400 East, Salt Lake City, Utah 84111. Our practice is to make comments, including names, home addresses, home phone numbers, and e-mail addresses of respondents, available for public review. Individual respondents may request that we withhold their names and/or home addresses, etc., but if you wish us to consider withholding this information you must state this prominently at the beginning of your comments. In addition, you must present a rationale for withholding this information. This rationale must demonstrate that disclosure would constitute a clearly unwarranted invasion of privacy. Unsupported assertions will not meet this burden. In the absence of

exceptional, documentable circumstances, this information will be released. We will always make submissions from organizations or businesses, and from individuals identifying themselves as representatives of or officials of organizations or businesses, available for public inspection in their entirety.

SUPPLEMENTARY INFORMATION: Between 1987 and the present, New Mexico has satisfied its water delivery obligations to Texas under the Pecos River Compact (Compact) and Amended Decree. In some years, New Mexico has over-delivered water to the state line and in other years it has under-delivered. New Mexico has been able to satisfy its Compact obligations in large part because of its leasing program and the following of irrigated land within the Carlsbad Irrigation District (CID). The leasing program within the CID has operated under an existing short-term miscellaneous purposes contract since 1992, which allows foregone, leased irrigation water to be delivered to the state line on behalf of the NMISC.

The State of New Mexico *ex rel.* the State Engineer, NMISC, Reclamation, the CID, and the Pecos Valley Artesian Conservancy District entered into a Settlement Agreement on March 25, 2003, that resolves litigation, implements a plan to ensure delivery of water to the CID and New Mexico-Texas state line, and settles many water management issues on the Pecos River. An ad hoc committee comprised of water users in the Pecos River Basin was formed to develop a solution for long-term compliance with the Pecos River Compact and Amended Decree, resulting in the Settlement Agreement. In addition, the implementation of the Settlement Agreement is contingent upon fulfilling certain requirements, including the execution of a long-term miscellaneous purposes contract.

On February 28, 2003, Reclamation published a notice in the **Federal Register** (68 FR 9715-9722) stating plans to execute a contract with the CID that would allow the NMISC to lease water allotted for up to 6,000 acres, or other available Carlsbad Project water (Project water), for purposes other than irrigation, i.e., bypassing water, allowing it to be delivered to Texas. These 6,000 acres, plus 164 acres that the NMISC currently owns within the boundaries of the CID, would be

followed under this contract. The Commissioner of Reclamation has granted approval to negotiate and execute a long-term miscellaneous purposes contract, pursuant to authority provided by the Sale of Water for Miscellaneous Purposes Act of February 25, 1920, whereby the NMISC would be limited to using or leasing a maximum of 50,000 acre-feet of Project water per year.

Purpose and Need for Action

The purpose of Reclamation's proposed Federal action is to allow the NMISC to use Project water allotted to land located inside the boundaries of the CID that NMISC owns or leases from other members of the CID, or other Project water that NMISC leases, for purposes other than irrigation, specifically for delivery to Texas. As a member of the CID, the NMISC needs to use Project water for purposes other than irrigation to maintain long-term compliance with the Pecos River Compact and the United States Supreme Court Amended Decree in *Texas v. New Mexico*. The long-term miscellaneous purposes contract would replace a 1999 short-term contract that Reclamation currently has with the CID that allows the NMISC to use Project water for miscellaneous purposes.

Proposed Federal Action

Reclamation's preferred alternative is the execution of a long-term miscellaneous purposes contract and approval of any related third-party contracts. The FEIS assesses the potential effects that the alternative may have on biological, hydrologic, and cultural resources; social and economic settings; and Indian trust assets as well as any potential disproportionate effects on minority or low-income communities (environmental justice). The FEIS also evaluates the effects of the alternatives on the State of New Mexico's ability to meet annual state line delivery obligations associated with the Pecos River Compact and Amended Decree.

The Long-Term Miscellaneous Purposes Contract Draft Environmental Impact Statement (DEIS) was filed with the Environmental Protection Agency on January 12, 2006, and a Notice of Availability for the DEIS was published in the **Federal Register** on that same date. The 60-day review and comment period for the DEIS ended on March 13, 2006. During the comment period, one public meeting was held in Carlsbad, New Mexico. All comments received on the DEIS were carefully reviewed and considered in preparing the FEIS. Where appropriate, revisions were made to the document in response to specific

comments. The comments and responses, together with the final environmental impact statement, will be considered in determining whether or not to implement the proposed action.

No decision will be made on the proposed Federal action until 30 days after release of the FEIS. After the 30-day waiting period, Reclamation will complete a Record of Decision. The Record of Decision will state the action that will be implemented and discuss all factors leading to that decision.

Notice of Preparation of Supplemental Draft Environmental Impact Statement and Supplemental Information Regarding Red River Valley Water Supply Project, North Dakota

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of preparation of a supplemental draft environmental impact statement (SDEIS) and notice of the current status and future activities related to the draft environmental impact statement (DEIS) for the Red River Valley Water Supply Project (Project).

SUMMARY: The Bureau of Reclamation (Reclamation) and State of North Dakota's designee, Garrison Diversion Conservancy District (Garrison Diversion), as joint lead agencies preparing the DEIS, are continuing work under the National Environmental Policy Act on the environmental impact statement (EIS) for the proposed Red River Valley Water Supply Project, located in North Dakota and Minnesota. This notice is being published to provide information related to the current status of the DEIS and preparation of a SDEIS.

DATES: The formal comment period on the DEIS remains open and we will continue to receive and consider relevant public comments as the SDEIS is prepared.

ADDRESSES: Send comments to Signe Snortland, Red River Valley Water Supply Project, Bureau of Reclamation, Dakotas Area Office, P.O. Box 1017, Bismarck, ND 58502, or fax to (701) 250-4326. You may submit e-mail to ssnortland@gp.usbr.gov.

FOR FURTHER INFORMATION CONTACT: Signe Snortland, telephone: (701) 250-4242 extension 3619. You may access the Red River Valley Water Supply Project Web site at <http://www.rrvwsp.com>.

SUPPLEMENTARY INFORMATION:

Reclamation and Garrison Diversion, as joint lead agencies preparing the EIS, believe that new information and/or additional analyses, relevant to environmental concerns and issues raised by (EPA) and the public, regarding potential effects of the Project, indicate a need to prepare a SDEIS consistent with the CEQ regulations (40 CFR 1502.9(a)). This may lead to development of alternatives that would need to be described and included in the SDEIS and be subject to public review and comment.

The notice of intent to prepare the DEIS was published in the **Federal Register** on October 8, 2002 (67 FR 195, 62813). The notice of availability of the DEIS, notice of public hearings, and additional information on the Red River Valley Water Supply Project was published in the **Federal Register** on December 30, 2005 (70 FR 250, 77425-77427). In response to requests by United States Environmental Protection Agency (EPA) and others, Reclamation and Garrison Diversion extended the comment period, through March 30, 2006 (71 FR 34, 8873-8874), then through April 14, 2006 (71 FR 68, 18116), and then announced on April 13, 2006 that the formal comment period would remain open while the SDEIS is being prepared. Availability of the SDEIS will be announced in the **Federal Register** later in 2006. All comments received on the DEIS and the SDEIS will be fully considered and responded to in the final EIS (FEIS). The FEIS is scheduled for release by December 31, 2006.
