broad-based index options. In addition, the Commission believes, as it has noted in other contexts, that the requirement in Phlx Rule 1009A(d) that an index option be settled based on the opening prices of the index's component securities, rather than on closing prices, could help to reduce the potential impact of expiring index options on the market for the index's component securities.[20]

The Commission finds good cause for approving the proposed rule change, as amended, prior to the 30th day after the date of publication of the notice of filing in the **Federal Register**. The Exchange has requested accelerated approval of the proposed rule change. The proposal implements listing and maintenance standards and position and exercise limits for broad-based index options substantially identical to those recently approved for the International Securities Exchange, Inc., the American Stock Exchange LLC and the CBOE.[21] The Commission does not believe that the Exchange's proposal raises any novel regulatory issues. Therefore, the Commission finds good cause, consistent with Section 19(b)(2) of the Act,[22] to approve the proposed rule change, as amended, on an accelerated basis.

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,[23] that the proposed rule change (SR–Phlx–2006–17), as amended, is hereby approved on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[24]

Nancy M. Morris,

Secretary.
