

broad-based index options. In addition, the Commission believes, as it has noted in other contexts, that the requirement in Phlx Rule 1009A(d) that an index option be settled based on the opening prices of the index's component securities, rather than on closing prices, could help to reduce the potential impact of expiring index options on the market for the index's component securities.²⁰

The Commission finds good cause for approving the proposed rule change, as amended, prior to the 30th day after the date of publication of the notice of filing in the **Federal Register**. The Exchange has requested accelerated approval of the proposed rule change. The proposal implements listing and maintenance standards and position and exercise limits for broad-based index options substantially identical to those recently approved for the International Securities Exchange, Inc., the American Stock Exchange LLC and the CBOE.²¹ The Commission does not believe that the Exchange's proposal raises any novel regulatory issues. Therefore, the Commission finds good cause, consistent with Section 19(b)(2) of the Act,²² to approve the proposed rule change, as amended, on an accelerated basis.

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,²³ that the proposed rule change (SR-Phlx-2006-17), as amended, is hereby approved on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.²⁴

Nancy M. Morris,

Secretary.

Culturally Significant Objects Imported for Exhibition Determinations: "Enduring Myth: The Tragedy of Hippolytos & Phaidra"

Summary: Notice is hereby given of the following determinations: Pursuant to the authority vested in me by the Act of October 19, 1965 (79 Stat. 985; 22 U.S.C. 2459), Executive Order 12047 of March 27, 1978, the Foreign Affairs Reform and Restructuring Act of 1998 (112 Stat. 2681, *et seq.*; 22 U.S.C. 6501 note, *et seq.*), Delegation of Authority No. 234 of October 1, 1999, Delegation of Authority No. 236 of October 19, 1999, as amended, and Delegation of Authority No. 257 of April 15, 2003 [68 FR 19875], I hereby determine that the object to be included in the exhibition "Enduring Myth: The Tragedy of Hippolytos & Phaidra," imported from abroad for temporary exhibition within the United States, is of cultural significance. The object is imported pursuant to a loan agreement with the foreign owner or custodian. I also determine that the exhibition or display

of the object at The J. Paul Getty Museum, Malibu, California, from on or about August 24, 2006, until on or about December 4, 2006, and at possible additional venues yet to be determined, is in the national interest. Public Notice of these Determinations is ordered to be published in the **Federal Register**.

For Further Information Contact: For further information, including a list of the exhibit objects, contact Richard Lahne, Attorney-Adviser, Office of the Legal Adviser, U.S. Department of State (telephone: 202/453-8058). The address is U.S. Department of State, SA-44, 301 4th Street, SW., Room 700, Washington, DC 20547-0001.

Dated: July 14, 2006.

C. Miller Crouch,

Principal Deputy Assistant Secretary for Educational and Cultural Affairs, Department of State.

BILLING CODE 4710-05-P

DEPARTMENT OF STATE

[Public Notice 5470]

United States Climate Change Technology Program

The United States Climate Change Technology Program requests expert review of the Working Group III contribution ("Climate Change 2007: Mitigation of Climate Change") to the Intergovernmental Panel on Climate Change Fourth Assessment Report.

The Intergovernmental Panel on Climate Change (IPCC) was established by the United Nations Environment Programme (UNEP) and the World Meteorological Organization (WMO) in 1988. In accordance with its mandate and as reaffirmed in various decisions by the Panel, the major activity of the IPCC is to prepare comprehensive and up-to-date assessments of policy-relevant scientific, technical, and socio-economic information relevant for understanding the scientific basis of climate change, potential impacts, and options for mitigation and adaptation. The First Assessment Report was completed in 1990, the Second Assessment Report in 1995, and the Third Assessment Report in 2001. Three working group volumes and a synthesis report comprise the Fourth Assessment Report, with all to be finalized in 2007. Working Group I assesses the scientific aspects of the climate system and climate change; Working Group II assesses the vulnerability of socio-economic and natural systems to climate change, potential negative and positive consequences, and options for

adapting to it; and Working Group III assesses options for limiting greenhouse gas emissions and otherwise mitigating climate change. These assessments are based upon the peer-reviewed literature and are characterized by an extensive and open review process involving both scientific/technical experts and governments before being accepted by the IPCC.

The IPCC Secretariat has informed the U.S. Department of State that the second-order draft of the Working Group III contribution to the Fourth Assessment Report is available for Expert and Government Review. The Climate Change Technology Program (CCTP) office is coordinating collection of U.S. expert comments and the review of these collations by panels of Federal scientists and program managers to develop a consolidated U.S. Government submission. Instructions on how to format comments are available at <http://www.climatechange.gov/library/ipcc/wg3-4ar-review.htm>, as is the document itself and other supporting materials.

If you choose to submit comments for potential inclusion or consideration as part of the U.S. Government review, please do not send the same set of comments to the IPCC WGIII Technical Support Unit. Properly formatted comments should be sent to wg3-4AR-USGreview@climatechange.gov by close of business, Wednesday, 23 August 2006 to be considered for inclusion in the U.S. Government collation. Include "IPCC WGIII" and reviewer surname in the e-mail subject title to facilitate processing.

For further information, please contact Michael Curtis, U.S. Climate Change Technology Program, U.S. Department of Energy, Office of Policy and International Affairs, 1000 Independence Ave., SW., Washington, DC 20585 (CCTPinfo@climatechange.gov).

Dated: July 17, 2006.

Trigg Talley,

Office Director, Acting, Office of Global Change, Bureau of Oceans and International Environmental and Scientific Affairs, Department of State.
