SUPPLEMENTARY INFORMATION:

Background

Section 101(a)(5)(A) of the MMPA (16 U.S.C. 1361 *et seq.*) directs NMFS to allow, on request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and regulations are issued. Under the MMPA, the term "taking" means to harass, hunt, capture, or kill or to attempt to harass, hunt, capture or kill marine mammals.

Authorization may be granted for periods up to 5 years if NMFS finds, after notification and opportunity for public comment, that the taking will have a negligible impact on the species or stock(s) of marine mammals and will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses. In addition, NMFS must prescribe regulations that include permissible methods of taking and other means affecting the least practicable adverse impact on the species and its habitat and on the availability of the species for subsistence uses, paying particular attention to rookeries, mating grounds, and areas of similar significance. The regulations must include requirements for monitoring and reporting of such taking.

Regulations governing the taking of California sea lions and Pacific harbor seals, by Level B harassment, incidental to the authorization of fireworks displays within the Sanctuary became effective on July 4, 2006 (71 FR 40928, July 19, 2006), and remain in effect until July 3, 2011. For detailed information

on this action, please refer to that document. These regulations include mitigation, monitoring, and reporting requirements for the incidental taking of marine mammals during the fireworks displays within the Sanctuary boundaries. This will be the first LOA issued pursuant to these regulations.

Authorization

Accordingly, NMFS has issued an LOA to MBNMS authorizing the Level B harassment of marine mammals incidental to the authorization of fireworks display within the Sanctuary. Issuance of this LOA is based on findings, described in the preamble to the final rule (71 FR 40928, July 19, 2006), that the activities described under this LOA will have no more than a negligible impact on marine mammal stocks and will not have an unmitigable adverse impact on the availability of the affected marine mammal stocks for subsistence uses.

Dated: July 19, 2006.
