Title: Reporting and Recordkeeping Requirements under EPA's Hospitals for a Healthy Environment (H2E) Program.

ICR Numbers: EPA ICR Number 2088.02, OMB Control Number 2070-0166.

ICR Status: This is a request to renew an existing approved collection. This ICR is scheduled to expire on July 31, 2006. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The Hospitals for a Healthy Environment (H2E) program is a voluntary partnership program jointly administered by the Environmental Protection Agency, the American Hospital Association, the American Nurses Association, and Health Care Without Harm that helps hospitals enhance work place safety, reduce waste and waste disposal costs, and become better environmental stewards and neighbors. The program is based on a 1998 Memorandum of Understanding signed by AHA and EPA to provide health care professionals with the tools and information necessary to reduce mercury waste, reduce the overall volume of waste, and identify pollution prevention opportunities.

The H2E program has two elements, the Partners for Change program and the Champions for Change program. The Partners for Change program recognizes health care facilities that pledge support to the H2E mission and develop goals for reducing waste and mercury in their own facilities. The Champions for Change program recognizes organizations that encourage and aid health care facilities to participate as H2E Partners, provide on-going promotional or technical assistance information, or make changes that support the goals of the H2E program in their own institutions. An organization's decision to participate in the H2E program is completely voluntary. This information collection addresses
