Continuation of Antidumping Duty Orders on Certain Circular Welded Carbon Steel Pipes and Tubes from Taiwan, and Circular Welded Non-Alloy Steel Pipe from Taiwan

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the Department of Commerce (the Department) and the International Trade Commission (ITC) that revocation of the antidumping duty orders on certain circular welded carbon steel pipes and tubes from Taiwan, and circular welded non-alloy steel pipe from Taiwan, would likely lead to continuation or recurrence of dumping, the Department is publishing notice of continuation of these antidumping duty orders.

EFFECTIVE DATE: August 14, 2006

CONTACT INFORMATION: Martha Douthit or Dana Mermelstein, AD/CVD Operations, Office 6, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone:(202) 482-5050 or (202) 482-1391, respectively.

SUPPLEMENTARY INFORMATION:**Scope of the Orders****Certain Circular Welded Carbon Steel Pipes and Tubes from Taiwan - (A-583-008)**

Imports covered by this antidumping duty order are shipments of certain circular welded carbon steel pipes and tubes. The Department defines such merchandise as welded carbon steel pipes and tubes of circular cross section, with walls not thinner than 0.065 inch and 0.375 inch or more but not over 4 1/2 inches in outside diameter. These products are commonly referred to as "standard pipe" and are produced to various American Society for Testing Materials Specifications, most notably A-53, A-120, or A-135. Standard pipe is currently classified under Harmonized Tariff Schedule of the United States (HTSUS) item numbers 7306.30.5025, 7306.30.5032, 7306.30.5040, and 7306.30.5055. Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the merchandise under this antidumping duty order is dispositive.

Circular Welded Non-Alloy Steel Pipe from Taiwan- (A-583-814)

The products covered by this order are: (1) Circular welded non-alloy steel pipes and tubes, of circular cross-section over 114.3 millimeters (4.5 inches), but not over 406.4 millimeters (16 inches) in outside diameter, with a wall thickness of 1.65 millimeters (0.065 inches) or more, regardless of surface finish (black, galvanized, or painted), or end finish (plain end, bevelled end, threaded, or threaded and coupled); and (2) circular welded non-alloy steel pipes and tubes, of circular cross-section less than 406.4 millimeters (16 inches), with a wall thickness of less than 1.65 millimeters (0.065 inches), regardless of surface finish (black, galvanized, or painted) or end finish (plain end, bevelled end, threaded, or threaded and coupled). These pipes and tubes are generally known as standard pipes and tubes and are intended for the low pressure conveyance of water, steam, natural gas, air, and other liquids and gases in plumbing and heating systems, air conditioning units, automatic sprinkler systems, and other related uses, and generally meet ASTM A-53 specifications. Standard pipe may also be used for light load-bearing applications, such as for fence tubing, and as structural pipe tubing used for framing and support members for construction or load-bearing purposes in the construction, shipbuilding, trucking, farm equipment, and related industries. Unfinished conduit pipe is also included in these orders. All carbon steel pipes and tubes within the physical description outlined above are included within the scope of this order, except line pipe, oil country tubular goods, boiler tubing, mechanical tubing, pipe and tube hollows for redraws, finished scaffolding, and finished conduit. Standard pipe that is dual or triple certified/stenciled that enters the U.S. as line pipe of a kind used for oil and gas pipelines is also not included in this order. Imports of the products covered by this order are currently classifiable under the following Harmonized Tariff Schedule (HTS) subheadings: 7306.30.10.00, 7306.30.50.25, 7306.30.50.32, 7306.30.50.40, 7306.30.50.55, 7306.30.50.85, 7306.30.50.90. Although the HTS subheadings are provided for convenience and customs purposes, our written description of the scope of these proceedings is dispositive.
