

Radio, and Machine Workers of America (UE), Local 1031, requested administrative reconsideration regarding Alternative Trade Adjustment Assistance. The certification for Trade Adjustment Assistance was signed on May 23, 2006. The Department's Notice of determination was published in the **Federal Register** on June 22, 2006 (71 FR 35952).

The initial investigation determined that the subject worker group possesses skills that are easily transferable.

The subject firm provided new information to show that the workers possess skills that are not easily transferable.

At least five percent of the workforce at the subject firm is at least fifty years of age. Competitive conditions within the industry are adverse.

### Conclusion

After careful review of the additional facts obtained on reconsideration, I conclude that the requirements of Section 246 of the Trade Act of 1974, as amended, have been met for workers at the subject firm.

In accordance with the provisions of the Act, I make the following certification:

"All workers of Dura Art Stone, Inc., Fontana, California, who became totally or partially separated from employment on or after May 3, 2005 through May 23, 2008, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974, and are also eligible to apply for alternative trade adjustment assistance under Section 246 of the Trade Act of 1974."

Signed in Washington, DC, this 9th day of August 2006.

#### **Minnesota Rubber, a Quadion Company, Mason City, IA; Notice of Revised Determination of Alternative Trade Adjustment Assistance on Reconsideration**

By letter dated August 1, 2006, a duly authorized representative of the State of Iowa requested administrative reconsideration regarding Alternative Trade Adjustment Assistance (ATAA). The certification for Trade Adjustment Assistance (TAA) was signed on July 21, 2006. The Notice of determination will soon be published in the **Federal Register**.

Workers' eligibility to apply for ATAA was denied based on the Department's finding in the initial investigation that the workers at Minnesota Rubber, A Quadion Company, Mason City, Iowa (subject firm) possess skills that are easily transferable.

New information provided by the Iowa Workforce Development supports the subject firm's statement that the workers separated from the subject firm are having difficulty finding jobs.

More than five percent of the workforce at the subject firm is at least fifty years of age. Competitive conditions within the industry are adverse.
