V. Application Review Information

1. **Selection Criteria:** The selection criteria for this competition are in 34 CFR 366.27.

2. **Review and Selection Process:** An additional factor we consider in selecting an application for an award is comments regarding the application, if any, by the State Independent Living Council in the State or territory in which the applicant is located.

VI. Award Administration Information

1. **Award Notices:** If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may also notify you informally.

If your application is not evaluated or not selected for funding, we notify you.

2. **Administrative and National Policy Requirements:** We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. **Reporting:** At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as specified by the Secretary in 34 CFR 75.118.

4. **Performance Measures:** The Government Performance and Results Act of 1993 (GPRA) directs Federal departments and agencies to improve the effectiveness of their programs by engaging in strategic planning, setting outcome-related goals for programs, and measuring program results against those goals.

The goal of the Centers for Independent Living program is to promote and practice the independent living philosophy of consumer control of the center regarding decisionmaking, service delivery, management, and establishment of the policy and direction of the center; self-help and self-advocacy; development of peer relationships and peer role models; and the equal access of individuals with significant disabilities to society and to all services, programs, activities, resources, and facilities, whether public or private and regardless of the funding source.

In order to measure the success of one component of meeting this goal, each grantee is required to track the number of individuals who leave nursing homes and other institutions for community-based housing due to independent living services provided by the center. In annual performance reports, centers are required to provide information on the number of individuals requesting this service and the number of individuals who successfully relocated from institutionalized to community-based living.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

Office of Energy Efficiency and Renewable Energy

Federal Energy Management Program; Standard for Premium Energy Efficient Electric Motors for Federal Acquisition

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy (DOE).

ACTION: Notice of final determination.

SUMMARY: The Energy Policy Act of 2005 (EPAct 2005) requires that in the case of electric motors of 1 to 500 horsepower, Federal agencies shall select and purchase only premium efficient motors that meet a specification designated by the Secretary of Energy (Secretary). DOE today designates the specifications developed by the Federal Energy Management Program (FEMP) under Executive Order 13123 as the specification for premium efficient motors for purposes of Federal purchasing. The specifications in today's final standard are identical to those in a temporary standard published for public comment on February 14, 2006. This final standard is consistent with standards recommended by the National Electrical Manufacturers Association (NEMA), the Consortium for Energy Efficiency (CEE) and other energy efficiency groups.

DATES: The effective date of this notice is August 18, 2006.

FOR FURTHER INFORMATION CONTACT:

Shelley Launey, U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, Federal Energy Management Program (FEMP), EE-2L, 1000 Independence Avenue, SW., Washington, DC 20585-0121, (202) 586-1573, e-mail: Shelley.Launey@ee.doe.gov, or Chris Calamita, U.S. Department of Energy, Office of General Counsel, GC-72, 1000 Independence Avenue, SW., Washington, DC 20585-0103, (202) 586-9507, e-mail: Christopher.Calamita@hq.doe.gov.

SUPPLEMENTARY INFORMATION:

I. Background

Generally, section 104 of EPAct 2005 (Pub. L. 109-58; August 8, 2005) amends Part 3 of Title V of the National Energy Conservation Policy Act (NECPA) (codified at 42 U.S.C. 8251 *et seq.*) to require that Federal agencies procure only ENERGY STAR qualified products or FEMP-designated products. Section 104 also sets forth procurement requirements for specific products, including electric motors of 1 to 500 horsepower. Prior to enactment of EPAct 2005, similar provisions for energy-efficient Federal purchasing were established under Executive Order 13123, 64 FR 30849, 30851 (June 8, 1999). With respect to motors, in response to Executive Order 13123, FEMP worked with NEMA and CEE to establish efficiency criteria for low-voltage electric motors as a voluntary standard for Federal procurements.

Part of Title V of NECPA, as amended by section 104 of EPAct 2005 (42 U.S.C. 8259(b)) requires that in the case of electric motors of 1 to 500 horsepower, Federal agencies shall purchase only premium efficient motors that meet a specification¹ designated by the Secretary no later than 120 days after the date of enactment; EPAct 2005 was enacted on August 8, 2005. DOE published a temporary standard for premium efficient motors for purposes of Federal procurement for public comment on February 14, 2006 (71 FR 7749). On February 28, 2006, the **Federal Register** corrected two erroneous values in Table 1 that it unintentionally included in the temporary standard notice (71 FR 10097).

After consultation with NEMA and representatives of energy efficiency organizations participating in the CEE Motors Committee, and after careful evaluation of the public comments, DOE today designates as a standard for premium energy efficient motors rated from 1 to 500 HP for purposes of Federal procurement, the efficiency levels as set forth in Tables 1 and 2 included in this notice.

II. Response to Comments on Temporary Standard

DOE received one written comment from the Defense Logistics Agency (DLA) in response to the February notice. The DLA requested that the motor specification apply only to

¹ Although section 104 states that "agencies shall select only premium efficient motors that meet a standard designated by the Secretary," we note that section 104 establishes a procurement standard based on efficiency specifications for electric motors.
