Background

ADs are legally enforceable rules that apply to products (aircraft, aircraft engines, propellers, and appliances). ADs are issued when we find that an unsafe condition exists in a product, and the unsafe condition is likely to exist or develop in other products of the same design type design. All final rule ADs are offered to the public by: (1) Publishing in the **Federal Register** at <http://www.gpoaccess.gov/fr/advanced.html>; (2) accessing the FAA's Web site at: <http://www.faa.gov/aircraft/safety/alerts/>; and (3) mailing to all registered owners and operators of the affected product.

Emergency ADs (EAD) are issued when an unsafe condition exists that requires immediate corrective action. These types of ADs are mailed or faxed to all registered owners and operators of the affected product. After we mail or fax the EAD, it is published as a final
