

2001, the U.S. Environmental Protection Agency (EPA) requested guidance from the FIFRA Scientific Advisory Panel (SAP) about risk mitigation measures, such as the application of surface coatings, for CCA-treated wood (SAP Report No. 2001-12). The SAP Panel made "recommendations regarding the need for additional studies in this area..." because the "weight-of-evidence from available studies indicates that certain coatings can substantially reduce dislodgeable and leachable CCA chemicals." The Panel also recommended that "EPA inform the public of the ability of certain coatings to substantially reduce leachable and dislodgeable CCA chemicals..."

In response to these recommendations, EPA and the Consumer Product Safety Commission (CPSC) staff (Interagency Agreement # CPSC-I-03-1235), conducted studies evaluating the ability of selected coatings to reduce the amount of dislodgeable chemicals on CCA-treated wood surfaces under natural weather conditions for 2 years, August 2003–August, 2005. The data presented are final data from the studies; interim one-year data from the studies were reviewed through a letter peer review process previously.

On November 14–16, 2006, the FIFRA SAP will meet to review and consider the EPA and CPSC staff studies of the impact of surface coatings on the levels of dislodgeable arsenic, chromium, and copper from treated wood. The review will focus on the design and methodology employed in the studies, extrapolation of the results, and areas for future research.

### C. FIFRA SAP Documents and Meeting Minutes

EPA's position paper, charge/questions to FIFRA SAP, FIFRA SAP composition (i.e., members and consultants for this meeting), the meeting agenda and the EPA and CPSC staff studies will be available by early October 2006. In addition, the Agency may provide additional background documents as the materials become available. You may obtain electronic copies of these documents, and certain other related documents that might be available electronically, from the regulations.gov Web site and the FIFRA SAP homepage at <http://www.epa.gov/scipoly/sap>.

The FIFRA SAP will prepare meeting minutes summarizing its recommendations to the Agency in approximately 90 days after the meeting. The meeting minutes will be posted on the FIFRA SAP Web site or may be obtained by contacting the OPP

### Request for Public Comment on Proposed Stipulated Injunction Involving Pesticides and the California Red-legged Frog

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of availability; request for public comment.

**SUMMARY:** EPA is making available for comment a proposed Stipulated Injunction that would affect aspects of the registrations of certain pesticides and establish a series of deadlines for the Agency to make "effects determinations" and initiate consultation, as appropriate, with the U.S. Fish and Wildlife Service for these pesticides in regard to the California red-legged frog, a species listed as threatened under the Endangered Species Act. EPA will evaluate all comments received during the public comment period to determine whether all or part of the proposed Stipulated Injunction warrants reconsideration. This proposed Stipulated Injunction, if entered by the Court, would resolve a lawsuit brought against EPA by the Center for Biological Diversity, on terms also acceptable to intervenors CropLife America, American Forest & Paper Association, Western Plant Health Association, Oregonians for Food and Shelter, and Syngenta Crop Protection, Inc.

**DATES:** Comments must be received on or before September 18, 2006.
