

habitats occupied by the California red-legged frog, and in adjoining buffer zones. The injunctive relief, vacatur, and setting aside of EPA's authorizations would terminate for a particular use of a pesticide upon the completion of EPA's ESA section 7(a)(2) consultation obligations (including a "no effect" determination) for the particular use of the pesticide. The Stipulated Injunction would also require EPA to develop and distribute a brochure regarding the California red-legged frog, frogs generally and environmental contaminants, and certain aspects of the Stipulated Injunction.

Beginning today, EPA is opening a 15-day comment period on the proposed Stipulated Injunction. EPA will use the comments to determine whether all or part of the proposed Stipulated Injunction warrants reconsideration. If EPA determines that any part of the proposed Stipulated Injunction merits reconsideration, EPA will provide the plaintiff with a written request for further negotiations and the proposed Stipulated Injunction shall not be entered with the Court unless the parties can reach agreement on needed changes. If EPA determines that the proposed Stipulated Injunction does not need to be reconsidered, the terms of the proposed Stipulated Injunction shall become effective upon entry by the United States District Court for the Northern District of California. Once the Stipulated Injunction is entered by the U.S. District Court, EPA will post on its Web site at [www.epa.gov/pesticides](http://www.epa.gov/pesticides) a notice indicating the Stipulated Injunction has been so entered.
