

3 would include the same river treatment as with Alternative 2, reconfiguring and upgrading a 9-hole golf course on the east side of the river, and eliminating all golf course bridges. Alternative 4 would install bank protection (rip rap) and grade controls (rock weirs) that "lock" the river in its current alignment and elevation, incorporate bioengineering with native riparian vegetation, include selection of treatment areas to stabilize the river and minimize erosion, and leave the existing 18-hole golf course unchanged.

Potential Federal involvement may include the approval of the proposed action and partial funding of the river restoration component of the proposed action.

Additional Information

The environmental review will be conducted pursuant to NEPA, CEQA, TRPA's Compact and Chapter 5 of the TRPA Code of Ordinances, the Federal and state Endangered Species Acts, and other applicable laws, to analyze the potential environmental impacts of implementing a range of feasible alternatives. Public input on the range of alternatives proposed for detailed consideration will be sought through the public scoping process.

The EIS/EIS/EIR will assess potential impacts to any Indian Trust Assets (ITAs). Input about concerns or issues related to ITAs is requested from potentially affected Federally-recognized Indian Tribes and individual Indians.

Our practice is to make comments, including names, home addresses, home phone numbers, and e-mail addresses of respondents, available for public review. Individual respondents may request that we withhold their names and/or home addresses, etc., but if you wish us to consider withholding this information you must state this prominently at the beginning of your comments. In addition, you must present a rationale for withholding this information. This rationale must demonstrate that disclosure would constitute a clearly unwarranted invasion of privacy. Unsupported assertions will not meet this burden. In the absence of exceptional, documentable circumstances, this information will be released. We will always make submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

Dated: August 29, 2006.

Michael Nepstad,

Acting Regional Environmental Officer, Mid-Pacific Region.
