C. What Should I Consider as I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. Provide specific examples to illustrate your concerns.
5. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

D. How May I Participate in this Meeting?

You may participate in this meeting by following the instructions in this section. To ensure proper receipt by EPA, it is imperative that you identify docket ID number EPA-HQ-ORD-2006-0384 in the subject line on the first page of your request.

1. *Oral comments.* Requests to present oral comments will be accepted up to September 19, 2006. To the extent that time permits, interested persons who have not pre-registered may be permitted by the Chair of the HSRB to present oral comments at the meeting. Each individual or group wishing to make brief oral comments to the HSRB is strongly advised to submit their request (preferably via e-mail) to the DFO listed under **FOR FURTHER INFORMATION CONTACT** no later than noon, eastern time, September 19, 2006, in order to be included on the meeting agenda and to provide sufficient time for the HSRB Chair and HSRB DFO to review the meeting agenda to provide an appropriate public comment period. The request should identify the name of the individual making the presentation and the organization (if any) the individual will represent. Oral

comments before the HSRB are limited to 5 minutes per individual or organization. Please note that this includes all individuals appearing either as part of, or on behalf of an organization. While it is our intent to hear a full range of oral comments on the science and ethics issues under discussion, it is not our intent to permit organizations to expand these time limitations by having numerous individuals sign up separately to speak on their behalf. If additional time is available, there may be flexibility in time for public comments.

2. *Written comments.* Although you may submit written comments at any time, for the HSRB to have the best opportunity to review and consider your comments as it deliberates on its report, you should submit your comments at least 5 business days prior to the beginning of this teleconference. If you submit comments after this date, those comments will be provided to the Board members, but you should recognize that the Board members may not have adequate time to consider those comments prior to making a decision. Thus, if you plan to submit written comments, the Agency strongly encourages you to submit such comments no later than noon, Eastern Time, September 19, 2006. You should submit your comments using the instructions in Unit 1.C. of this notice. In addition, the Agency also requests that person(s) submitting comments directly to the docket also provide a copy of their comments to the DFO listed under **FOR FURTHER INFORMATION CONTACT**. There is no limit on the length of written comments for consideration by the HSRB.

E. Background

The EPA Human Studies Review Board will be reviewing its draft report from the June 27-30, 2006 HSRB meeting. Background on the June 27-30, 2006 HSRB meeting can be found at **Federal Register** 71 108, 32536 (June 6, 2006) and at the HSRB Web site <http://www.epa.gov/osa/hsrb/>. Lead-Based Paint Activities; State of Hawaii Lead-Based Paint Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; requests for comments and opportunity for public hearing.

SUMMARY: On November 17, 2005, EPA received an application from the State of Hawaii requesting authorization to administer a program in accordance with section 402 of the Toxic Substances Control Act (TSCA). Included in the application was a letter signed by Hawaii's Attorney General stating that the State's Lead-Based Paint Abatement Program is at least as protective of human health and the environment as the Federal program under TSCA section 402. Also included in the letter from the Attorney General of Hawaii is the certification that the laws and regulations of the State of Hawaii provide adequate legal authority to administer and enforce TSCA section 402. The application was followed by a transmittal letter of February 8, 2006, from the Governor of the State of Hawaii requesting program approval. Hawaii certifies that its program meets the requirements for approval of a State program under TSCA section 404 and that Hawaii has the legal authority and ability to implement the appropriate elements necessary to enforce the program. Therefore, pursuant to TSCA section 404, the program is deemed authorized as of the date of submission. If EPA finds that the program does not meet the requirements for approval of a State program, EPA will disapprove the program, at which time a notice will be issued in the **Federal Register** and the Federal program will be established. This notice announces the receipt of Hawaii's application, provides a 45-day public comment period, and an opportunity to request a public hearing on the application.

DATES: Comments on the application must be received on or before October 20, 2006.

ADDRESSES: Submit all written comments and/or requests for a public hearing identified by docket identification (ID) number EPA-HQ-OPPT-2006-0494, by one of the following methods:
