BILLING CODE 6712-01-P

FEDERAL RESERVE SYSTEM

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR Part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The application also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States. Additional information on all bank holding companies may be obtained from the National Information Center website at www.ffiec.gov/nic/.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than October 6, 2006.

A. Federal Reserve Bank of Atlanta (Andre Anderson, Vice President) 1000 Peachtree Street, N.E., Atlanta, Georgia 30309:

BILLING CODE 6210-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Training of Latin American Health Care Workers; Cooperative Agreement

AGENCY: Office of the Secretary, Office of Public Health Emergency Preparedness, HHS.

ACTION: Notice.

Funding Opportunity Title: Training of Latin American Health Care Workers through the Gorgas Memorial Institute, Republic of Panamá.

Announcement Type: Single-Source, Cooperative Agreement.

Funding Opportunity Number: Not applicable.

Catalog of Federal Domestic Assistance Number: The Office of Management and Budget (OMB) Catalog of Federal Domestic Assistance (CFDA) number is 93.019.

Authority: The Department of Defense, Emergency Supplemental Appropriations to Address Hurricanes in the Gulf of Mexico, and the Pandemic Influenza Act, 2006, Pub. L. 109-148, 119 Stat. 2680, 2786 (2005); section 2811 of the Public Health Service Act (PHS Act), 42 U.S.C. 300hh-11.

SUMMARY: This project will support the Gorgas Memorial Institute (GMI) to: (a) Develop a regional training center in Panamá and (b) train community health workers and clinicians (physicians, nurses, and auxiliary medical workers) and select public-health professionals from Central and South America, (c) facilitate partnerships (“twinning”) between U.S. universities and their Latin American counterparts to develop human resources for health in Latin America, and (d) harness the energies of U.S. and other non-governmental organizations by partnering with them to advance community health training and program efforts in Latin America. These efforts will contribute to improved and expanded provision of prevention and primary health care, and they will help engage significantly more areas of these countries to prepare for and respond to public health emergencies such as pandemic influenza.

The training efforts of this project will place greater emphasis on the training of nurses and community health workers, rather than physicians, to reap the greatest improvement in expanded coverage and improved access to community, preventive and primary health care in underserved parts of Latin America (*i.e.*, underserved rural and poor urban communities). In addition, as a result, the healthcare work force will be better prepared to respond to public health emergencies such as pandemic influenza. Key to the selection of recipients for this training will be their availability and willingness to commit to providing their health and medical care skills in underserved areas within the region. In addition to all appropriate medical care and health education or communication subjects, training supported by this project will emphasize infectious diseases, epidemiology, disease surveillance and outbreak response, among other subjects so graduates of training programs will be prepared to play contributing roles to any pandemic preparation and response.

SUPPLEMENTARY INFORMATION: While a number of Latin American countries have made significant strides in improving the quality of health care for their citizens, and extending that care into underserved areas, a number of countries and regions still suffer from a shortage of appropriately trained health-care workers and clinicians. Though all levels of medical care (primary, secondary and tertiary) warrant further investment and effort to meet Latin Americans’ present and growing need for medical care, this need is perhaps
