

EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: As required by the Clean Air Act, EPA has regulations establishing emission standards and other requirements for various classes of vehicles and engines. These regulations require that compliance be demonstrated prior to EPA granting a "Certificate of Conformity". EPA charges fees for administering this certification program; in 2004 the fees program was expanded to include non-road categories of vehicles and engines, such as several categories of marine engines, locomotives, non-road recreational vehicles, and many non-road compression-ignition and spark-ignition engines. Manufacturers and importers of covered vehicles and engines are required to pay the applicable certification fees prior to their certification applications being reviewed. This ICR estimates the paperwork burden of complying with this fees requirement.

Burden Statement

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 290.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 7.35.

Estimated total annual burden hours: 2,132 hours.

Estimated total annual costs: \$85,541. This includes an estimated burden cost of \$76,840 and an estimated cost of \$8,701 for maintenance and operational costs.

Dated: September 6, 2006.

Janet Cohen,

Acting Director, Compliance and Innovative Strategies Division.
