BILLING CODE 4210-67-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-5037-N-62]

Notice of Submission of Proposed Information Collection to OMB; Real Estate Settlement Procedures Act (RESPA) Disclosures

AGENCY: Office of the Chief Information Officer, HUD.

ACTION: Notice.

SUMMARY: The proposed information collection requirement described below has been submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

The Real Estate Settlement Procedures Act of 1974 (RESPA) requires settlement providers to give homebuyers certain disclosure information at and before settlement, and pursuant to the

servicing of the loan and escrow account. This includes a Special Information Booklet, a Good Faith Estimate, an Initial Servicing Disclosure, the Form HUD-1 or Form HUD-1A, and when applicable an Initial Escrow Account Statement, an Annual Escrow Account Statement, an Escrow Account Disbursement Disclosure, an Affiliated Business Arrangement Disclosure, and a Servicing Transfer Disclosure.

DATES: *Comments Due Date:* October 18, 2006.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB approval Number (2502-0265) and should be sent to: HUD Desk Officer, Office of Management and Budget, New Executive Office Building, Washington, DC 20503; fax: 202-395-6974.

FOR FURTHER INFORMATION CONTACT: Lillian Deitzer, Reports Management Officer, QDAM, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410; e-mail Lillian_L_Deitzer@HUD.gov or telephone (202) 708-2374. This is not a toll-free number. Copies of available documents submitted to OMB may be obtained from Ms. Deitzer or from HUD's Web site at <http://hlannwp031.hud.gov/po/i/icbts/collectionsearch.cfm>.

SUPPLEMENTARY INFORMATION: This notice informs the public that the Department of Housing and Urban Development has submitted to OMB a

request for approval of the information collection described below. This notice is soliciting comments from members of the public and affecting agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

This notice also lists the following information:

Title of Proposal: Real Estate Settlement Procedures Act (RESPA) Disclosures.

OMB Approval Number: 2502-0265.

Form Numbers: HUD-1 and HUD-1A.

Description of the Need for the Information and Its Proposed Use: The Real Estate Settlement Procedures Act of 1974 (RESPA) require settlement providers to give homebuyers certain disclosure information at and before settlement, and pursuant to the servicing of the loan and escrow account.

Frequency of Submission: Annually.

	Number of respondents	Annual responses	×	Hours per response	=	Burden hours
Reporting Burden	20,000	154,646,000		.07		11,238,680

Total Estimated Burden Hours: 11,238,680

Status: Extension of a currently approved collection.

Authority: Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. 35, as amended.

Dated: September 6, 2006.

Lillian L. Deitzer,
*Department Paperwork Reduction Act Officer,
 Office of the Chief Information Officer.*

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Recovery Plan for *Phlox hirsuta* (Yreka Phlox)

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability.

SUMMARY: We, the U.S. Fish and Wildlife Service, announce the availability of the Recovery Plan for *Phlox hirsuta* (Yreka Phlox). This plant is a narrow endemic known only from the vicinity of the City of Yreka, Siskiyou County, California.

ADDRESSES: Printed copies of this recovery plan will be available in 4 to 6 weeks by request from the U.S. Fish and Wildlife Service, Yreka Fish and

Wildlife Office, 1829 South Oregon Street, Yreka, California 96097 (telephone: 530-842-5763). An electronic copy of this recovery plan is now available at: <http://endangered.fws.gov/recovery/index.html#plans>.

FOR FURTHER INFORMATION CONTACT: Nadine R. Kanim, Senior Fish and Wildlife Biologist, (telephone: 530-842-5763), at the Yreka address above (telephone: 530-842-5763).

SUPPLEMENTARY INFORMATION:

Background

Restoring endangered or threatened animals and plants to the point where they are again secure, self-sustaining members of their ecosystems is a primary goal of the Service's endangered species program. To help

guide the recovery effort, the Service is working to prepare recovery plans for most of the listed species native to the United States. Recovery plans describe actions considered necessary for the conservation of the species, establish criteria for downlisting or delisting listed species, and estimate time and cost for implementing the recovery measures needed.

The Endangered Species Act (ESA) requires the development of recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Section 4(f) of the ESA requires that public notice and an opportunity for public review and comment be provided during recovery plan development. The Draft Recovery Plan for *Phlox hirsuta* (Yreka Phlox) was available for public comment from July 19, 2004, through October 18, 2004 (69 FR 43009). Information presented during the public comment period has been considered in the preparation of this final recovery plan, and is summarized in Appendix 8 of the recovery plan.

Phlox hirsuta was listed as endangered in 2000 (65 FR 5268). Critical habitat has not been designated for this species. *Phlox hirsuta* is endemic to serpentine soils, and is known from only five separate locations that are separated by a minimum of 0.55 miles (0.88 kilometers). Distribution of *Phlox hirsuta* within these occurrences ranges from scattered plants to numerous discrete suboccurrences that are found on lands owned and managed by the City of Yreka, the U.S. Forest Service, California Department of Transportation, industrial timber companies, and private landowners.

Phlox hirsuta is threatened by alteration or destruction of habitat resulting from residential development, logging, fire suppression activities, ongoing highway maintenance or construction activities, off-road vehicle use, illegal collection, and vandalism. Other threats include competition with exotic plants, herbicide application, grazing by domestic animals, inadequate existing regulatory mechanisms, and potential extirpation as a result of random events.

The objective of this recovery plan is to provide a framework for the recovery of *Phlox hirsuta* so that protection by the ESA is no longer necessary. This recovery plan establishes criteria necessary to accomplish downlisting and eventually delisting of *Phlox hirsuta*. The criteria for downlisting to threatened status are that: (1) Four occurrences (two of which must be the China Hill and Soap Creek Ridge occurrences) have secure permanent

protection (legally-binding arrangements that ensure management for the benefit of *Phlox hirsuta* in perpetuity), and (2) a *Phlox hirsuta* seed bank and effective propagation techniques have been established. The criteria for delisting are: (1) The reclassification criteria for downlisting have been met, and (2) two additional occurrences have been located and permanently protected, or 10 years of demographic research and/or quantitative monitoring at four protected occurrences has indicated that plant population size has not declined more than 10 percent at any occurrence (total change between year 0 and year 10).

Authority

The authority for this action is section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: July 27, 2006.

Steve Thompson,

Manager, California/Nevada Operations Office, U.S. Fish and Wildlife Service.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Recovery Plan for the Newcomb's Snail *Erinna newcombi*

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability.

SUMMARY: The U.S. Fish and Wildlife Service ("we") announces the availability of a Recovery Plan for the Newcomb's snail (*Erinna newcombi*). This aquatic snail is listed as threatened (65 FR 4162) and is endemic to the Hawaiian Island of Kaua'i.

ADDRESSES: Copies of the Recovery Plan are available by request from the U.S. Fish and Wildlife Service, Pacific Islands Fish and Wildlife Office, 300 Ala Moana Boulevard, Room 3-122, Box 50088, Honolulu, Hawaii 96850 (phone 808/792-9400); and the Hawaii State Library, 478 S. King Street, Honolulu, Hawaii 96813. An electronic copy of the recovery plan is available on the world wide Web at: <http://endangered.fws.gov/recovery/index.html#plans>.

FOR FURTHER INFORMATION CONTACT: Lorena Wada, Invertebrate Program Supervisor, at the above Pacific Islands Fish and Wildlife Office address.

SUPPLEMENTARY INFORMATION:

Background

Restoring endangered or threatened animals and plants to the point where they are again secure, self-sustaining members of their ecosystems is a primary goal of our endangered species program. The Endangered Species Act (16 U.S.C. 1531 *et seq.*) (Act) requires the development of recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Recovery plans help guide the recovery effort by describing actions considered necessary for the conservation of the species, establishing criteria for downlisting or delisting listed species, and estimating time and cost for implementing the measures needed for recovery.

Section 4(f) of the Act requires that public notice and an opportunity for public review and comment be provided during recovery plan development. In fulfillment of this requirement, the Draft Recovery Plan for the Newcomb's Snail (*Erinna newcombi*) was available for public comment from March 24, 2004, through May 24, 2004 (69 FR 13868). Information presented during the public comment period has been considered in the preparation of this recovery plan, and is summarized in the appendix to the recovery plan. We will forward substantive comments regarding recovery plan implementation to appropriate Federal or other entities so that they can take these comments into account during the course of implementing recovery actions.

Newcomb's snail is an aquatic snail known to occur at 10 small locations in streams and springs located in 6 watersheds found in the mountainous interior of the Hawaiian Island of Kaua'i. Newcomb's snail is a type of freshwater snail belonging to the lymnaeid family of snails. Adult Newcomb's snails are approximately 6 millimeters (0.25 inches) long and 3 millimeters (0.12 inches) wide. Three of the six watersheds containing sites where Newcomb's snails occur are privately owned; the remaining sites are located on State of Hawaii lands.

Some of the historical decline of the snail may be attributed to habitat loss and degradation through water diversion and well drilling. In addition, predation by alien species, natural disasters, and habitat alteration are threats that imperil the Newcomb's snail. Presently, Newcomb's snail faces an increased likelihood of extinction from naturally occurring events due to the small number of remaining populations and their limited distribution. Significant habitat destruction through reduction or
