Total Annual Burden: 1040 hours.

General Description of Collection:

With certain exceptions, Section 24 of the FDI Act (12 U.S.C. 1831a) limits the direct equity investments of state chartered banks to equity investments that are permissible for national banks. In addition, the statute prohibits an insured state bank from directly engaging as principal in any activity that is not permissible for a national bank or indirectly through a subsidiary in an activity that is not permissible for a subsidiary of a national bank unless the bank meets its minimum capital requirements and the FDIC determines that the activity does not pose a significant risk to the deposit insurance fund. The FDIC can make such a determination for exception by regulation or by an order. 12 CFR 362 is the FDIC's implementing regulation for Section 24. It details the activities that insured state banks or their subsidiaries may engage in, under certain criteria and conditions, and identifies the information that banks must furnish to the FDIC in order to obtain the FDIC's approval or nonobjection.

Affected Public: Insured state nonmember banks.

Estimated Number of Respondents: 5,250.

Estimated Time per Response: 0.5 hours.

Total Annual Burden: 2,625 hours.

General Description of Collection: The Bank Protection Act of 1968 (12 U.S.C. 1881-1884) requires each Federal supervisory agency to promulgate rules establishing minimum standards for security devices and procedures to discourage financial crime and to assist in the identification of persons who commit such crimes. To avoid the necessity of constantly updating a technology-based regulation, the FDIC takes a flexible approach to implementing this statute. It requires each insured nonmember bank to designate a security officer who will administer a written security program. The security program shall: (1) Establish procedures for opening and closing for business and for safekeeping valuables; (2) establish procedures that will assist in identifying persons committing crimes against the bank; (3) provide for initial and periodic training of employees in their responsibilities under the security program; and (4) provide for selecting, testing, operating and maintaining security devices as prescribed in the regulation. In addition, the FDIC requires the security officer to report at least annually to the bank's board of directors on the effectiveness of the security program.
