National Oil and Hazardous Substance Pollution Contingency Plan; National Priorities List

AGENCY: Environmental Protection Agency.

ACTION: Notice of Intent to Delete the Army Materials Technology Laboratory Superfund Site from the National Priorities List.

SUMMARY: The Environmental Protection Agency (EPA), Region 1 announces its intent to delete the Army Materials Technology Laboratory Superfund Site (Site) located in Watertown, Massachusetts, from the National Priorities List (NPL) and requests public comment on this proposed action. The NPL, promulgated pursuant to Section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is found at Appendix B of 40 CFR part 300 of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). The EPA and the Commonwealth of Massachusetts, through the Department of Environmental Protection, have determined that all appropriate response actions under CERCLA—other than operation and maintenance and five-year reviews—have been completed. However, this deletion does not preclude future actions under Superfund.

In the "Rules and Regulations" section of today's **Federal Register**, EPA is publishing a direct final notice of deletion of the Army Materials

Technology Laboratory Superfund Site without prior notice of intent to delete because we view this as a non-controversial revision and anticipate no adverse comment(s). EPA has explained our reasons for this deletion in the preamble to the direct final deletion. If EPA receives no adverse comment(s) on this notice of intent to delete or the direct final notice of deletion, EPA will not take further action on this notice of intent to delete. If EPA receives adverse comment(s), EPA will withdraw the direct final notice of deletion and it will not take effect. EPA will address all public comments in a subsequent final deletion notice based on this notice of intent to delete as appropriate. EPA will not institute a second comment period on this notice of intent to delete. Any parties interested in commenting must do so at this time. For additional information, see the direct final notice of deletion located in the Rules section of this **Federal Register**.

RIN 0938-AN42

Medicare Program; Limitation on Recoupment of Provider and Supplier Overpayments

AGENCY: Centers for Medicare & Medicaid Services (CMS), HHS.

ACTION: Proposed rule.

SUMMARY: This proposed rule would implement a new provision of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 that prohibits recouping Medicare overpayments when an appeal is received from a provider or supplier until a decision is rendered by a Qualified Independent Contractor (QIC). The QIC is the second level of appeal in the Medicare claims appeal process. This provision changes how interest is to be paid to a provider or supplier whose overpayment is reversed at subsequent administrative or judicial levels of appeal. This proposed rule defines the overpayments to which the limitation applies, how the limitation works in concert with the appeals process, and the change in our obligation to pay interest to a provider or supplier whose appeal is successful at levels above the QIC.
