

information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: These standards apply to owners or operators of dry cleaning facilities that use perchloroethylene (PCE). Owners or operators of such facilities must provide EPA, or the delegated state regulatory authority, with the one-time notifications and reports. The owners or operators must also perform weekly monitoring (or biweekly for the smaller facilities), and must keep records for five years. The notification and reports enable EPA or the delegated state regulatory authority to determine whether the appropriate control technology is installed and properly operated and maintained, and to schedule inspections and/or compliance assistance activities. The responses to this information collection are mandatory under Clean Air Act Section 112 and 40 CFR part 63, subpart M. The responses are not anticipated to be kept confidential due to the nature of the information collected; however, any information submitted to the Agency for which a claim of confidentiality is made will be safeguarded according to the Agency policies set forth in 40 CFR part 2.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 42 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and

requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Perchloroethylene Dry Cleaning Facilities.

Estimated Number of Respondents: 34,240.

Frequency of Response: Annually and Initially.

Estimated Total Annual Hour Burden: 1,537,784 hours.

Estimated Total Annual Costs: \$53,340, includes no annualized capital/startup costs and \$53,340 annualized O&M costs.

Changes in the Estimates: There is no change in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens.

Dated: August 16, 2006.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2006-0452, FRL-8222-7]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NESHAP for Miscellaneous Organic Chemical Manufacturing (Renewal); EPA ICR Number 1969.03, OMB Control Number 2060-0533

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR, which is abstracted below, describes the nature of the information collection and its estimated burden and cost.

DATES: Additional comments may be submitted on or before October 25, 2006.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2006-0452, to (1) EPA online using www.regulations.gov (our preferred method), by e-mail to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental

Protection Agency, Enforcement and Compliance Docket and Information Center (ECDIC), 2201 T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) OMB by mail to: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

Note: The EPA Docket Center suffered damage due to flooding during the last week of June 2006. The Docket Center is continuing to operate. However, during the cleanup, there will be temporary changes to Docket Center telephone numbers, addresses, and hours of operation for people who wish to visit the Public Reading Room to view documents. Consult EPA's **Federal Register** notice at 71 FR 38147 (July 5, 2006) or the EPA Web site at <http://www.epa.gov/epahome/dockets.htm> for current information on docket status, locations and telephone numbers.

FOR FURTHER INFORMATION CONTACT:

Marcia B. Mia of the Office of Compliance at 202-564-7042 (phone) or 202-564-0050 (fax), or via e-mail to: mia.marcia@epa.gov; or by mail to Mail Code 2223A, 1200 Pennsylvania Avenue, NW., Washington, DC 20460.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On June 21, 2006 (71 FR 35652), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under Docket ID Number EPA-HQ-OECA-2006-0452, which is available for online viewing at www.regulations.gov, or in person viewing at the Enforcement and Compliance Docket and Information Center (ECDIC) in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Avenue, NW., Washington, DC. The EPA/DC Public Reading Room is open from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is 202-566-1744, and the telephone number for the Enforcement and Compliance Docket and Information Center (ECDIC) is 202-566-1972.

Use EPA's electronic docket and comment system at www.regulations.gov, to submit or view public comments, to access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then

key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at www.regulations.gov as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to www.regulations.gov.

Title: NESHP for Miscellaneous Organic Chemical Manufacturing (Renewal).

ICR numbers: EPA ICR Number 1969.03, OMB Control Number 2060-0533.

ICR Status: This ICR is scheduled to expire on October 31, 2006. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHP) for the regulations published at 40 CFR part 63, subpart FFFF, were proposed on April 4, 2002, and promulgated on November 10, 2003. These regulations apply to new and existing facilities that manufacture a miscellaneous organic chemical and are located at, or are part of, major sources of hazardous air pollutant (HAP) emissions. New facilities include those that commenced construction or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 63 subpart FFFF.

In general, all NESHP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining

compliance, and are required of all affected facilities subject to NESHP.

Any owner/operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least five years following the date of such measurements, maintenance reports, and records. All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the United States Environmental Protection Agency (EPA) regional office.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 254 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: New and existing facilities that manufacture a miscellaneous organic chemical and are located at, or are part of, major sources of hazardous air pollutant (HAP) emissions.

Estimated Number of Respondents: 257.

Frequency of Response: One-time, semiannually, and on occasion.

Estimated Total Annual Hour Burden: 416,830.

Estimated Total Annual Cost: \$6,132,909, includes \$670,256 annualized capital/startup costs and \$5,462,653 O&M costs.

Changes in the Estimates: There is an increase of 399,085 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. The increase in burden from the most recently approved ICR is primarily due to the fact that this is the first ICR prepared after the compliance date. In the previous ICR, annual burden hours and costs associated with one-time activities were phased in over the course of the three-year period. In this ICR, existing sources have been phased into compliance and are subject to on-

going requirements, and new sources are subject to various one-time activities. Additionally, some burden hours from the previous ICR were deleted because it was not consistent with the concept of burden.

Dated: September 12, 2006.
