C. What Should I Consider as I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

- a. Explain your views as clearly as possible.
- b. Describe any assumptions that you used.
- c. Provide copies of any technical information and/or data you used that support your views.
- d. Provide specific examples to illustrate your concerns.
- e. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

D. How May I Participate in This Meeting?

You may participate in this meeting by following the instructions in this section. To ensure proper receipt by EPA, it is imperative that you identify docket ID number EPA-HQ-ORD-2006-0798 in the subject line on the first page of your request.

a. *Oral comments.* Requests to present oral comments will be accepted up to October 10, 2006. To the extent that time permits, interested persons who have not pre-registered may be permitted by the Chair of the HSRB to present oral comments at the meeting. Each individual or group wishing to make brief oral comments to the HSRB is strongly advised to submit their request (preferably via e-mail) to the DFO listed under **FOR FURTHER INFORMATION CONTACT** no later than noon, eastern time, October 10, 2006, in order to be included on the meeting agenda and to provide sufficient time for the HSRB Chair and HSRB DFO to review the agenda to provide an appropriate public comment period. The request should identify the name of the individual making the presentation, the organization (if any) the individual will represent, and any requirements for audiovisual equipment (e.g., overhead projector, LCD projector, chalkboard). Oral comments before the HSRB are limited to 5 minutes per individual or organization. Please note that this limit applies to the cumulative time used by all individuals appearing either as part of, or on behalf of an organization. While it is our intent to hear a full range of oral comments on the science and ethics issues under discussion, it is not our intent to permit organizations to expand these time limitations by having numerous individuals sign up separately to speak on their behalf. If additional time is available, there may be flexibility in time for public comments. Each speaker should bring 25 copies of his or her comments and presentation slides for distribution to the HSRB at the meeting.

b. *Written comments.* Although you may submit written comments at any time, for the HSRB to have the best opportunity to review and consider your comments as it deliberates on its report, you should submit your comments at least 5 business days prior to the beginning of the meeting. If you submit comments after this date, those comments will be provided to the Board members, but you should recognize that the Board members may not have adequate time to consider those comments prior to making a decision. Thus, if you plan to submit written

comments, the Agency strongly encourages you to submit such comments no later than noon, eastern time, October 10, 2006. You should submit your comments using the instructions in Unit I.C. of this notice. In addition, the Agency also requests that person(s) submitting comments directly to the docket also provide a copy of their comments to the DFO listed under **FOR FURTHER INFORMATION CONTACT**. There is no limit on the length of written comments for consideration by the HSRB.

E. Background

EPA will be presenting for HSRB review the results of a completed human toxicity study, evaluating the allergic contact dermatitis response in individuals with known sensitivity to hexavalent chromium to repeated exposure to a wood treatment solution containing hexavalent chromium. In addition, the Board will be asked to review two revised research protocols to evaluate the efficacy of new formulations of the repellent, IR3535, against ticks and mosquitoes and to advise on a draft guidance document explaining to the public how to submit proposed and completed human research to EPA for review by the HSRB. Finally, at the Board's request, EPA will present the statutory and regulatory procedures that EPA and its federal advisory committees are required to follow when handling materials claimed to be confidential business information (CBI) under FIFRA or other laws. The HSRB intends to discuss how it would like to operate in the event that EPA requests the Board to review materials containing CBI.

Dated: September 22, 2006.

Science Advisor.
