

Commodity	Parts per million
Vegetable, legume, group 6, except soybean .....	5.0
Vegetable, root and tuber, group 1, except sugar beet ...	0.2
Wasabi, roots .....	0.2
Water spinach, tops .....	0.2
Watercress, upland .....	0.2
Wax jambu .....	0.2
Wheat, bran .....	20
Wheat, grain .....	5.0
Wheat, middlings .....	20
Wheat, shorts .....	20
Yacon, tuber .....	0.2

\* \* \* \* \*

■ 4. Section 180.369 is revised as follows:

**§ 180.369 Difenzoquat; tolerances for residues.**

(a) *General.* Tolerances are established for residues of difenzoquat (1,2-dimethyl-3,5-diphenyl-1H-pyrazolium ion), derived from application of the methyl sulfate salt and calculated as the cation, in or on the following raw agricultural commodities:

Commodity	Parts per million
Barley, bran .....	0.25
Barley, grain .....	0.05
Barley, straw .....	5.0
Cattle, fat .....	0.05
Cattle, meat .....	0.05
Cattle, meat byproducts .....	0.05
Goat, fat .....	0.05
Goat, meat .....	0.05
Goat, meat byproducts .....	0.05
Hog, fat .....	0.05
Hog, meat .....	0.05
Hog, meat byproducts .....	0.05
Horse, fat .....	0.05
Horse, meat .....	0.05
Horse, meat byproducts .....	0.05
Poultry, fat .....	0.05
Poultry, meat .....	0.05
Poultry, meat byproducts .....	0.05
Sheep, fat .....	0.05
Sheep, meat .....	0.05
Sheep, meat byproducts .....	0.05
Wheat, bran .....	0.25
Wheat, grain .....	0.05
Wheat, shorts .....	0.25
Wheat, straw .....	5.0

(b) *Section 18 emergency exemptions.* [Reserved]

(c) *Tolerances with regional registrations.* [Reserved]

(d) *Indirect or inadvertent residues.* [Reserved]

■ 5. In § 180.396, paragraphs (a) and (c) are revised to read as follows:

**§ 180.396 Hexazinone; tolerances for residues.**

(a) *General.* (1) Tolerances are established for the combined residues of

hexazinone (3-cyclohexyl-6-(dimethylamino)-1-methyl-1,3,5-triazine-2,4-(1H,3H)-dione) and its plant metabolites; A [3-(4-hydroxycyclohexyl)-6-(dimethylamino)-1-methyl-1,3,5-triazine-2,4-(1H,3H)-dione], B [3-cyclohexyl-6-(methylamino)-1-methyl-1,3,5-triazine-2,4-(1H,3H)-dione], C [3-(4-hydroxycyclohexyl)-6-(methylamino)-1-methyl-1,3,5-triazine-2,4-(1H,3H)-dione], D [3-cyclohexyl-1-methyl-1,3,5-triazine-2,4,6-(1H,3H,5H)-trione], and E [3-(4-hydroxycyclohexyl)-1-methyl-1,3,5-triazine-2,4,6-(1H,3H,5H)-trione] (calculated as hexazinone) in the following commodities:

Commodity	Parts per million
Alfalfa, forage .....	2.0
Alfalfa, hay .....	8.0
Alfalfa, seed .....	2.0
Blueberry .....	0.6
Grass, forage .....	10.0
Pineapple .....	0.6

(2) Tolerances are established for the combined residues of hexazinone (3-cyclohexyl-6-(dimethylamino)-1-methyl-1,3,5-triazine-2,4-(1H,3H)-dione) and its animal tissue metabolites; B [3-cyclohexyl-6-(methylamino)-1-methyl-1,3,5-triazine-2,4-(1H,3H)-dione], and F [3-cyclohexyl-6-amino-1-methyl-1,3,5-triazine-2,4-(1H,3H)-dione] (calculated as hexazinone) in the following food commodities:

Commodity	Parts per million
Cattle, fat .....	0.1
Cattle, meat .....	0.1
Cattle, meat byproducts .....	0.1
Goat, fat .....	0.1
Goat, meat .....	0.1
Goat, meat byproducts .....	0.1
Hog, fat .....	0.1
Hog, meat .....	0.1
Hog, meat byproducts .....	0.1
Horse, fat .....	0.1
Horse, meat .....	0.1
Horse, meat byproducts .....	0.1
Sheep, fat .....	0.1
Sheep, meat .....	0.1
Sheep, meat byproducts .....	0.1

(3) Tolerances are established for the combined residues of hexazinone (3-cyclohexyl-6-(dimethylamino)-1-methyl-1,3,5-triazine-2,4-(1H,3H)-dione) and its metabolites; B [3-cyclohexyl-6-(methylamino)-1-methyl-1,3,5-triazine-2,4-(1H,3H)-dione], C [3-(4-hydroxycyclohexyl)-6-(methylamino)-1-methyl-1,3,5-triazine-2,4-(1H,3H)-dione], C-2 [3-(3-hydroxycyclohexyl)-6-(methylamino)-1-methyl-1,3,5-triazine-2,4-(1H,3H)-dione] and F (3-cyclohexyl-6-amino-1-methyl-1,3,5-triazine-2,4-

(1H,3H)-dione) (calculated as hexazinone) in milk:

Commodity	Parts per million
Milk .....	0.2

(c) *Tolerances with regional registrations.* Tolerances with regional registration, as defined in § 180.1(n) and which excludes use of hexazinone on sugarcane in Florida, are established for the combined residues of hexazinone (3-cyclohexyl-6-(dimethylamino)-1-methyl-1,3,5-triazine-2,4-(1H,3H)-dione) and its plant metabolites; A [3-(4-hydroxycyclohexyl)-6-(dimethylamino)-1-methyl-1,3,5-triazine-2,4-(1H,3H)-dione], B [3-cyclohexyl-6-(methylamino)-1-methyl-1,3,5-triazine-2,4-(1H,3H)-dione], C [3-(4-hydroxycyclohexyl)-6-(methylamino)-1-methyl-1,3,5-triazine-2,4-(1H,3H)-dione], D [(3-cyclohexyl)-1-methyl-1,3,5-triazine-2,4,6-(1H,3H,5H)-trione], and E [3-(4-hydroxycyclohexyl)-1-methyl-1,3,5-triazine-2,4,6-(1H,3H,5H)-trione] (calculated as hexazinone) in the following commodities:

Commodity	Parts per million
Sugarcane, cane .....	0.6
Sugarcane, molasses .....	4.0

**40 CFR Part 300**

[EPA-HQ-SFUND-2006-0255, EPA-HQ-SFUND-2006-0252, EPA-HQ-SFUND-2006-0247, EPA-HQ-SFUND-2006-0250, EPA-HQ-SFUND-2004-0012; FRL-8223-3]

RIN 2050-AD75

**National Priorities List, Final Rule**

**AGENCY:** Environmental Protection Agency.

**ACTION:** Final rule.

**SUMMARY:** The Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (“CERCLA” or “the Act”), as amended, requires that the National Oil and Hazardous Substances Pollution Contingency Plan (“NCP”) include a list of national priorities among the known releases or threatened releases of hazardous substances, pollutants, or contaminants throughout the United States. The National Priorities List (“NPL”) constitutes this list. The NPL is

intended primarily to guide the Environmental Protection Agency ("EPA" or "the Agency") in determining which sites warrant further investigation. These further investigations will allow EPA to assess the nature and extent of public health and environmental risks associated with the site and to determine what CERCLA-financed remedial action(s), if any, may be appropriate. This rule adds five sites to the General Superfund Section of the NPL.

**DATES:** *Effective Date:* The effective date for this amendment to the NCP is October 27, 2006.

**ADDRESSES:** For addresses for the Headquarters and Regional dockets, as well as further details on what these dockets contain, see section II, "Availability of Information to the Public" in the **SUPPLEMENTARY INFORMATION** portion of this preamble.

**FOR FURTHER INFORMATION CONTACT:** Terry Jeng, phone (703) 603-8852, State, Tribal and Site Identification Branch; Assessment and Remediation Division; Office of Superfund Remediation and Technology Innovation (mail code 5204P); U.S. Environmental Protection Agency; 1200 Pennsylvania Avenue NW.; Washington, DC 20460; or the Superfund Hotline, phone (800) 424-9346 or (703) 412-9810 in the Washington, DC, metropolitan area.

  - 2. Could the Effective Date of This Final Rule Change?
  - 3. What Could Cause a Change in the Effective Date of This Rule?

**I. Background**

**A. What Are CERCLA and SARA?**

In 1980, Congress enacted the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. 9601-9675 ("CERCLA" or "the Act"), in response to the dangers of uncontrolled releases or threatened releases of hazardous substances, and releases or substantial threats of releases into the environment of any pollutant or contaminant that may present an imminent or substantial danger to the public health or welfare. CERCLA was amended on October 17, 1986, by the Superfund Amendments and Reauthorization Act ("SARA"), Public Law 99-499, 100 Stat. 1613 *et seq.*

**B. What Is the NCP?**

To implement CERCLA, EPA promulgated the revised National Oil

and Hazardous Substances Pollution Contingency Plan ("NCP"), 40 CFR part 300, on July 16, 1982 (47 FR 31180), pursuant to CERCLA section 105 and Executive Order 12316 (46 FR 42237, August 20, 1981). The NCP sets guidelines and procedures for responding to releases and threatened releases of hazardous substances, or releases or substantial threats of releases into the environment of any pollutant or contaminant that may present an imminent or substantial danger to the public health or welfare. EPA has revised the NCP on several occasions. The most recent comprehensive revision was on March 8, 1990 (55 FR 8666).

As required under section 105(a)(8)(A) of CERCLA, the NCP also includes "criteria for determining priorities among releases or threatened releases throughout the United States for the purpose of taking remedial action and, to the extent practicable, taking into account the potential urgency of such action, for the purpose of taking removal action." "Removal" actions are defined broadly and include a wide range of actions taken to study, clean up, prevent or otherwise address releases and threatened releases of hazardous substances, pollutants or contaminants (42 U.S.C. 9601(23)).

**C. What Is the National Priorities List (NPL)?**

The NPL is a list of national priorities among the known or threatened releases of hazardous substances, pollutants, or contaminants throughout the United States. The list, which is appendix B of the NCP (40 CFR part 300), was required under section 105(a)(8)(B) of CERCLA, as amended by SARA. Section 105(a)(8)(B) defines the NPL as a list of "releases" and the highest priority "facilities" and requires that the NPL be revised at least annually. The NPL is intended primarily to guide EPA in determining which sites warrant further investigation to assess the nature and extent of public health and environmental risks associated with a release of hazardous substances, pollutants or contaminants. The NPL is only of limited significance, however, as it does not assign liability to any party or to the owner of any specific property. Also, placing a site on the NPL does not mean that any remedial or removal action necessarily need be taken.

For purposes of listing, the NPL includes two sections, one of sites that are generally evaluated and cleaned up by EPA (the "General Superfund Section"), and one of sites that are owned or operated by other Federal agencies (the "Federal Facilities Section"). With respect to sites in the

Federal Facilities Section, these sites are generally being addressed by other Federal agencies. Under Executive Order 12580 (52 FR 2923, January 29, 1987) and CERCLA section 120, each Federal agency is responsible for carrying out most response actions at facilities under its own jurisdiction, custody, or control, although EPA is responsible for preparing a Hazard Ranking System (HRS) score and determining whether the facility is placed on the NPL. EPA's role is less extensive than at other sites.

#### D. How Are Sites Listed on the NPL?

There are three mechanisms for placing sites on the NPL for possible remedial action (see 40 CFR 300.425(c) of the NCP): (1) A site may be included on the NPL if it scores sufficiently high on the Hazard Ranking System ("HRS"), which EPA promulgated as appendix A of the NCP (40 CFR part 300). The HRS serves as a screening tool to evaluate the relative potential of uncontrolled hazardous substances, pollutant or contaminants to pose a threat to human health or the environment. On December 14, 1990 (55 FR 51532), EPA promulgated revisions to the HRS partly in response to CERCLA section 105(c), added by SARA. The revised HRS evaluates four pathways: Ground water, surface water, soil exposure, and air. As a matter of Agency policy, those sites that score 28.50 or greater on the HRS are eligible for the NPL; (2) Pursuant to 42 U.S.C 9605(a)(8)(B), each State may designate a single site as its top priority to be listed on the NPL, without any HRS score. This provision of CERCLA requires that, to the extent practicable, the NPL include one facility designated by each State as the greatest danger to public health, welfare, or the environment among known facilities in the State. This mechanism for listing is set out in the NCP at 40 CFR 300.425(c)(2); (3) The third mechanism for listing, included in the NCP at 40 CFR 300.425(c)(3), allows certain sites to be listed without any HRS score, if all of the following conditions are met:

- The Agency for Toxic Substances and Disease Registry (ATSDR) of the U.S. Public Health Service has issued a health advisory that recommends dissociation of individuals from the release.
- EPA determines that the release poses a significant threat to public health.
- EPA anticipates that it will be more cost-effective to use its remedial authority than to use its removal authority to respond to the release.

EPA promulgated an original NPL of 406 sites on September 8, 1983 (48 FR

40658) and generally has updated it at least annually.

#### E. What Happens to Sites on the NPL?

A site may undergo remedial action financed by the Trust Fund established under CERCLA (commonly referred to as the "Superfund") only after it is placed on the NPL, as provided in the NCP at 40 CFR 300.425(b)(1). ("Remedial actions" are those "consistent with permanent remedy, taken instead of or in addition to removal actions \* \* \*." 42 U.S.C. 9601(24).) However, under 40 CFR 300.425(b)(2) placing a site on the NPL "does not imply that monies will be expended." EPA may pursue other appropriate authorities to respond to the releases, including enforcement action under CERCLA and other laws.

#### F. Does the NPL Define the Boundaries of Sites?

The NPL does not describe releases in precise geographical terms; it would be neither feasible nor consistent with the limited purpose of the NPL (to identify releases that are priorities for further evaluation), for it to do so. Indeed, the precise nature and extent of the site are typically not known at the time of listing.

Although a CERCLA "facility" is broadly defined to include any area where a hazardous substance release has "come to be located" (CERCLA section 101(9)), the listing process itself is not intended to define or reflect the boundaries of such facilities or releases. Of course, HRS data (if the HRS is used to list a site) upon which the NPL placement was based will, to some extent, describe the release(s) at issue. That is, the NPL site would include all releases evaluated as part of that HRS analysis.

When a site is listed, the approach generally used to describe the relevant release(s) is to delineate a geographical area (usually the area within an installation or plant boundaries) and identify the site by reference to that area. However, the NPL site is not necessarily coextensive with the boundaries of the installation or plant, and the boundaries of the installation or plant are not necessarily the "boundaries" of the site. Rather, the site consists of all contaminated areas within the area used to identify the site, as well as any other location where that contamination has come to be located, or from where that contamination came.

In other words, while geographic terms are often used to designate the site (e.g., the "Jones Co. plant site") in terms of the property owned by a particular party, the site, properly understood, is

not limited to that property (e.g., it may extend beyond the property due to contaminant migration), and conversely may not occupy the full extent of the property (e.g., where there are uncontaminated parts of the identified property, they may not be, strictly speaking, part of the "site"). The "site" is thus neither equal to, nor confined by, the boundaries of any specific property that may give the site its name, and the name itself should not be read to imply that this site is coextensive with the entire area within the property boundary of the installation or plant. In addition, the site name is merely used to help identify the geographic location of the contamination, and is not meant to constitute any determination of liability at a site. For example, the name "Jones Co. plant site," does not imply that the Jones company is responsible for the contamination located on the plant site.

EPA regulations provide that the "nature and extent of the problem presented by the release" will be determined by a Remedial Investigation/Feasibility Study (RI/FS) as more information is developed on site contamination (40 CFR 300.5). During the RI/FS process, the release may be found to be larger or smaller than was originally thought, as more is learned about the source(s) and the migration of the contamination. However, the HRS inquiry focuses on an evaluation of the threat posed and therefore the boundaries of the release need not be exactly defined. Moreover, it generally is impossible to discover the full extent of where the contamination "has come to be located" before all necessary studies and remedial work are completed at a site. Indeed, the known boundaries of the contamination can be expected to change over time. Thus, in most cases, it may be impossible to describe the boundaries of a release with absolute certainty.

Further, as noted above, NPL listing does not assign liability to any party or to the owner of any specific property. Thus, if a party does not believe it is liable for releases on discrete parcels of property, it can submit supporting information to the Agency at any time after it receives notice it is a potentially responsible party.

For these reasons, the NPL need not be amended as further research reveals more information about the location of the contamination or release.

#### G. How Are Sites Removed From the NPL?

EPA may delete sites from the NPL where no further response is appropriate under Superfund, as

explained in the NCP at 40 CFR 300.425(e). This section also provides that EPA shall consult with states on proposed deletions and shall consider whether any of the following criteria have been met:

- (i) Responsible parties or other persons have implemented all appropriate response actions required;
- (ii) All appropriate Superfund-financed response has been implemented and no further response action is required; or
- (iii) The remedial investigation has shown the release poses no significant threat to public health or the environment, and taking of remedial measures is not appropriate.

**H. May EPA Delete Portions of Sites From the NPL as They Are Cleaned Up?**

In November 1995, EPA initiated a new policy to delete portions of NPL sites where cleanup is complete (60 FR 55465, November 1, 1995). Total site

cleanup may take many years, while portions of the site may have been cleaned up and available for productive use.

**I. What Is the Construction Completion List (CCL)?**

EPA also has developed an NPL construction completion list ("CCL") to simplify its system of categorizing sites and to better communicate the successful completion of cleanup activities (58 FR 12142, March 2, 1993). Inclusion of a site on the CCL has no legal significance.

Sites qualify for the CCL when: (1) Any necessary physical construction is complete, whether or not final cleanup levels or other requirements have been achieved; (2) EPA has determined that the response action should be limited to measures that do not involve construction (e.g., institutional controls); or (3) the site qualifies for

deletion from the NPL. For the most up-to-date information on the CCL, see EPA's Internet site at <http://www.epa.gov/superfund>.

**II. Availability of Information to the Public**

**A. May I Review the Documents Relevant to This Final Rule?**

Yes, documents relating to the evaluation and scoring of the sites in this final rule are contained in dockets located both at EPA Headquarters and in the Regional offices.

An electronic version of the public docket is available through [www.regulations.gov](http://www.regulations.gov) (see table below for Docket Identification numbers). Although not all Docket materials may be available electronically, you may still access any of the publicly available Docket materials through the Docket facilities identified below in section II D.

Site name	City/state	FDMS docket ID number
ASARCO Taylor Springs, .....	Taylor Springs, IL .....	EPA-HQ-SFUND-2006-0255.
Ringwood Mines/Landfill .....	Ringwood, NJ .....	EPA-HQ-SFUND-2006-0252.
Matteo & Sons, Inc .....	Thorofare, NJ .....	EPA-HQ-SFUND-2006-0247.
Pesticide Warehouse I .....	Arecibo, PR .....	EPA-HQ-SFUND-2004-0012.
Maunabo Area Ground Water Contamination .....	Maunabo, PR .....	EPA-HQ-SFUND-2006-0250.

**B. What Documents Are Available for Review at the Headquarters Docket?**

The Headquarters Docket for this rule contains, for each site, the HRS score sheets, the Documentation Record describing the information used to compute the score, pertinent information regarding statutory requirements or EPA listing policies that affect the site, and a list of documents referenced in the Documentation Record. For sites that received comments during the comment period, the Headquarters Docket also contains a Support Document that includes EPA's responses to comments.

**C. What Documents Are Available for Review at the Regional Dockets?**

The Regional Dockets contain all the information in the Headquarters Docket, plus the actual reference documents containing the data principally relied upon by EPA in calculating or evaluating the HRS score for the sites located in their Region. These reference

documents are available only in the Regional Dockets. For sites that received comments during the comment period, the Regional Docket also contains a Support Document that includes EPA's responses to comments.

**D. How Do I Access the Documents?**

You may view the documents, by appointment only, after the publication of this rule. The hours of operation for the Headquarters Docket are from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding Federal holidays. Please contact the Regional Dockets for hours.

Following is the contact information for the EPA Headquarters: Docket Coordinator, Headquarters; U.S. Environmental Protection Agency; CERCLA Docket Office; 1301 Constitution Avenue; EPA West, Room 3340, Washington, DC 20004, 202/566-1744.

The contact information for the Regional Dockets is as follows:

Dennis Munhall, Region 2 (NJ, NY, PR, VI), U.S. EPA, 290 Broadway, New York, NY 10007-1866; 212/637-4343.  
 Janet Pfundheller, Region 5 (IL, IN, MI, MN, OH, WI), U.S. EPA, Records Center, Superfund Division SRC-7J, Metcalfe Federal Building, 77 West Jackson Boulevard, Chicago, IL 60604; 312/353-5821.

**E. How May I Obtain a Current List of NPL Sites?**

You may obtain a current list of NPL sites via the Internet at <http://www.epa.gov/superfund/> (look under the Superfund sites category) or by contacting the Superfund Docket (see **FOR FURTHER INFORMATION CONTACT** above).

**III. Contents of This Final Rule**

**A. Additions to the NPL**

This final rule adds the following five sites to the NPL, all to the General Superfund Section:

State	Site name	City/county
IL .....	ASARCO Taylor Springs .....	Taylor Springs.

State	Site name	City/county
NJ .....	Ringwood Mines/Landfill .....	Ringwood.
NJ .....	Matteo & Sons, Inc .....	Thorofare.
PR .....	Pesticide Warehouse I .....	Arecibo.
PR .....	Maunabo Area Ground Water Contamination .....	Maunabo.

**B. Restore Site to NPL**

Pursuant to CERCLA § 105(e) and 40 CFR 300.425(e)(3), whenever there has been a significant release of hazardous substances or pollutants or contaminants from a site that has been deleted from the NPL, EPA can restore the site to the NPL without application of the HRS.

EPA is restoring to the NPL the Ringwood Mines/Landfill site in Passaic, New Jersey. This action was proposed on April 19, 2006 (71 FR 20052). The Ringwood Mines/Landfill site was originally added to the NPL on September 1, 1983 and deleted from the NPL on November 2, 1994.

**C. Site Name Change**

The Maunabo Area Ground Water Contamination site in Maunabo, Puerto Rico, was proposed to the NPL under a different name. The former name was Maunabo Urbano Public Wells (see Proposed Rule at 71 FR 20052, April 19, 2006). EPA believes the new name, Maunabo Area Ground Water Contamination, more accurately identifies the site.

**D. What Did EPA Do With the Public Comments It Received?**

EPA reviewed all comments received on the sites in this rule and responses to comments are below.

EPA received comments from Ford Motor Company regarding the restoration of the Ringwood Mines/Landfill site to the NPL. Ford Motor Company did not object to restoring the site to the NPL. Ford, however, did point out what they believed to be some inaccuracies in EPA’s narrative summary. In response, EPA has updated the narrative summary to more accurately reflect the site’s history and current conditions.

In addition, EPA received one comment related to the Maunabo Area Ground Water Contamination site from the Puerto Rico Industrial Development Company (PRIDCO). PRIDCO commented that, although it was not opposed to listing, it should not be considered a PRP for the site, and that the facilities located on PRIDCO property are not sources of the contamination. Further, PRIDCO was only an owner of the land and structures, not an operator of the industries located at the facilities.

In response, this comment has no effect on the score. The identification of PRPs is not part of an HRS evaluation or listing of a site. Listing does not reflect a judgment on the activities of site owners, nor does it assign liability (48 FR 40759, September 8, 1983).

EPA also received a comment that was not directed at any particular site. The comment suggested that this listing is inconsistent with the separation of powers doctrine and listing these sites should only be done by Congress. The Supreme Court has stated that “when Congress confers decisionmaking authority upon agencies [it] must lay down by legislative act an intelligible principle to which the person or body authorized to act is directed to conform.” *Whitman v. American Trucking Ass’ns, Inc.*, 531 U.S. 457, 472 (2001) (internal citation and punctuation omitted). The Court also noted that “[i]n the history of the Court we have found the requisite ‘intelligible principle’ lacking in only two statutes, one of which provided literally no guidance for the exercise of discretion, and the other of which conferred authority to regulate the entire economy on the basis of no more precise a standard than stimulating the economy by assuring ‘fair competition.’” *Id.* at 474. CERCLA section 105(a)(8)(A) provides several considerations for EPA when “determining priorities among releases or threatened releases throughout the United States” and listing decisions are based upon these considerations, under CERCLA section 105(a)(8)(B). Accordingly, EPA may properly make NPL listing determinations.

For the remainder of sites in this rule, EPA received no relevant comments, therefore, EPA is placing them on the NPL at this time. All comments that were received by EPA are contained in the Headquarters Docket and are also listed in EPA’s electronic public Docket and comment system at [www.regulations.gov](http://www.regulations.gov).

**IV. Statutory and Executive Order Reviews**

**A. Executive Order 12866: Regulatory Planning and Review**

**1. What Is Executive Order 12866?**

Under Executive Order 12866, (58 FR 51735 (October 4, 1993)) the Agency

must determine whether a regulatory action is “significant” and therefore subject to Office of Management and Budget (OMB) review and the requirements of the Executive Order. The Order defines “significant regulatory action” as one that is likely to result in a rule that may: (1) Have an annual effect on the economy of \$100 million or more or adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities; (2) create a serious inconsistency or otherwise interfere with an action taken or planned by another agency; (3) materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof; or (4) raise novel legal or policy issues arising out of legal mandates, the President’s priorities, or the principles set forth in the Executive Order.

**2. Is This Final Rule Subject to Executive Order 12866 Review?**

No. The listing of sites on the NPL does not impose any obligations on any entities. The listing does not set standards or a regulatory regime and imposes no liability or costs. Any liability under CERCLA exists irrespective of whether a site is listed. It has been determined that this action is not a “significant regulatory action” under the terms of Executive Order 12866 and is therefore not subject to OMB review.

**B. Paperwork Reduction Act**

**1. What Is the Paperwork Reduction Act?**

According to the Paperwork Reduction Act (PRA), 44 U.S.C. 3501 *et seq.*, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information that requires OMB approval under the PRA, unless it has been approved by OMB and displays a currently valid OMB control number. The OMB control numbers for EPA’s regulations, after initial display in the preamble of the final rules, are listed in 40 CFR part 9.

## 2. Does the Paperwork Reduction Act Apply to This Final Rule?

This action does not impose an information collection burden under the provisions of the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.* EPA has determined that the PRA does not apply because this rule does not contain any information collection requirements that require approval of the OMB.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9.

### C. Regulatory Flexibility Act

#### 1. What Is the Regulatory Flexibility Act?

Pursuant to the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*, as amended by the Small Business Regulatory Enforcement Fairness Act (SBREFA) of 1996) whenever an agency is required to publish a notice of rulemaking for any proposed or final rule, it must prepare and make available for public comment a regulatory flexibility analysis that describes the effect of the rule on small entities (*i.e.*, small businesses, small organizations, and small governmental jurisdictions). However, no regulatory flexibility analysis is required if the head of an agency certifies the rule will not have a significant economic impact on a substantial number of small entities. SBREFA amended the Regulatory Flexibility Act to require Federal agencies to provide a statement of the factual basis for certifying that a rule will not have a significant economic impact on a substantial number of small entities.

## 2. How Has EPA Complied With the Regulatory Flexibility Act?

This rule listing sites on the NPL does not impose any obligations on any group, including small entities. This rule also does not establish standards or requirements that any small entity must meet, and imposes no direct costs on any small entity. Whether an entity, small or otherwise, is liable for response costs for a release of a hazardous substance depends on whether that entity is liable under CERCLA 107(a). Any such liability exists regardless of whether the site is listed on the NPL through this rulemaking. Thus, this rule does not impose any requirements on any small entities. For the foregoing reasons, I certify that this rule will not have a significant economic impact on a substantial number of small entities.

### D. Unfunded Mandates Reform Act

#### 1. What Is the Unfunded Mandates Reform Act (UMRA)?

Title II of the Unfunded Mandates Reform Act of 1995 (UMRA), Public Law 104-4, establishes requirements for Federal Agencies to assess the effects of their regulatory actions on State, local, and tribal governments and the private sector. Under section 202 of the UMRA, EPA generally must prepare a written statement, including a cost-benefit analysis, for proposed and final rules with "Federal mandates" that may result in expenditures by State, local, and tribal governments, in the aggregate, or by the private sector, of \$100 million or more in any one year. Before EPA promulgates a rule where a written statement is needed, section 205 of the UMRA generally requires EPA to identify and consider a reasonable number of regulatory alternatives and adopt the least costly, most cost-effective, or least burdensome alternative that achieves the objectives of the rule. The provisions of section 205 do not apply when they are inconsistent with applicable law. Moreover, section 205 allows EPA to adopt an alternative other than the least costly, most cost-effective, or least burdensome alternative if the Administrator publishes with the final rule an explanation why that alternative was not adopted. Before EPA establishes any regulatory requirements that may significantly or uniquely affect small governments, including tribal governments, it must have developed under section 203 of the UMRA a small government agency plan. The plan must provide for notifying potentially affected small governments, enabling officials of affected small governments to have meaningful and timely input in

the development of EPA regulatory proposals with significant Federal intergovernmental mandates, and informing, educating, and advising small governments on compliance with the regulatory requirements.

#### 2. Does UMRA Apply to This Final Rule?

No, EPA has determined that this rule does not contain a Federal mandate that may result in expenditures of \$100 million or more for State, local, and tribal governments in the aggregate, or by the private sector in any one year. This rule will not impose any Federal intergovernmental mandate because it imposes no enforceable duty upon State, tribal or local governments. Listing a site on the NPL does not itself impose any costs. Listing does not mean that EPA necessarily will undertake remedial action. Nor does listing require any action by a private party or determine liability for response costs. Costs that arise out of site responses result from site-specific decisions regarding what actions to take, not directly from the act of listing a site on the NPL.

For the same reasons, EPA also has determined that this rule contains no regulatory requirements that might significantly or uniquely affect small governments. In addition, as discussed above, the private sector is not expected to incur costs exceeding \$100 million. EPA has fulfilled the requirement for analysis under the Unfunded Mandates Reform Act.

### E. Executive Order 13132: Federalism

#### What Is Executive Order 13132 and Is It Applicable to This Final Rule?

Executive Order 13132, entitled "Federalism" (64 FR 43255, August 10, 1999), requires EPA to develop an accountable process to ensure "meaningful and timely input by State and local officials in the development of regulatory policies that have federalism implications." "Policies that have federalism implications" is defined in the Executive Order to include regulations that have "substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government."

Under section 6 of Executive Order 13132, EPA may not issue a regulation that has federalism implications, that imposes substantial direct compliance costs, and that is not required by statute, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by State and

local governments, or EPA consults with State and local officials early in the process of developing the proposed regulation. EPA also may not issue a regulation that has federalism implications and that preempts State law, unless the Agency consults with State and local officials early in the process of developing the proposed regulation. This final rule does not have federalism implications. It will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132. Thus, the requirements of section 6 of the Executive Order do not apply to this rule.

*F. Executive Order 13175: Consultation and Coordination With Indian Tribal Governments*

1. What Is Executive Order 13175?

Executive Order 13175, entitled "Consultation and Coordination with Indian Tribal Governments" (65 FR 67249, November 6, 2000), requires EPA to develop an accountable process to ensure "meaningful and timely input by tribal officials in the development of regulatory policies that have tribal implications." "Policies that have tribal implications" is defined in the Executive Order to include regulations that have "substantial direct effects on one or more Indian tribes, on the relationship between the Federal government and the Indian tribes, or on the distribution of power and responsibilities between the Federal government and Indian tribes."

2. Does Executive Order 13175 Apply to This Final Rule?

This final rule does not have tribal implications. It will not have substantial direct effects on tribal governments, on the relationship between the Federal government and Indian tribes, or on the distribution of power and responsibilities between the Federal government and Indian tribes, as specified in Executive Order 13175. Thus, Executive Order 13175 does not apply to this final rule.

*G. Executive Order 13045: Protection of Children From Environmental Health and Safety Risks*

1. What Is Executive Order 13045?

Executive Order 13045: "Protection of Children from Environmental Health Risks and Safety Risks" (62 FR 19885, April 23, 1997) applies to any rule that: (1) Is determined to be "economically

significant" as defined under Executive Order 12866, and (2) concerns an environmental health or safety risk that EPA has reason to believe may have a disproportionate effect on children. If the regulatory action meets both criteria, the Agency must evaluate the environmental health or safety effects of the planned rule on children, and explain why the planned regulation is preferable to other potentially effective and reasonably feasible alternatives considered by the Agency.

2. Does Executive Order 13045 Apply to This Final Rule?

This rule is not subject to Executive Order 13045 because it is not an economically significant rule as defined by Executive Order 12866, and because the Agency does not have reason to believe the environmental health or safety risks addressed by this section present a disproportionate risk to children.

*H. Executive Order 13211: Actions That Significantly Affect Energy Supply, Distribution, or Usage*

Is This Rule Subject to Executive Order 13211?

This rule is not a "significant energy action" as defined in Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355, May 22, 2001) because it is not likely to have a significant adverse effect on the supply, distribution, or use of energy.

*I. National Technology Transfer and Advancement Act*

1. What Is the National Technology Transfer and Advancement Act?

Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTAA), Public Law 104-113, section 12(d) (15 U.S.C. 272 note), directs EPA to use voluntary consensus standards in its regulatory activities unless to do so would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., materials specifications, test methods, sampling procedures, and business practices) that are developed or adopted by voluntary consensus standards bodies. The NTTAA directs EPA to provide Congress, through OMB, explanations when the Agency decides not to use available and applicable voluntary consensus standards.

2. Does the National Technology Transfer and Advancement Act Apply to This Final Rule?

No. This rulemaking does not involve technical standards. Therefore, EPA did not consider the use of any voluntary consensus standards.

*J. Congressional Review Act*

1. Has EPA Submitted This Rule to Congress and the General Accounting Office?

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, that includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA has submitted a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A "major rule" cannot take effect until 60 days after it is published in the **Federal Register**. This rule is not a "major rule" as defined by 5 U.S.C. 804(2).

2. Could the Effective Date of This Final Rule Change?

Provisions of the Congressional Review Act (CRA) or section 305 of CERCLA may alter the effective date of this regulation.

Under the CRA, 5 U.S.C. 801(a), before a rule can take effect the Federal agency promulgating the rule must submit a report to each House of the Congress and to the Comptroller General. This report must contain a copy of the rule, a concise general statement relating to the rule (including whether it is a major rule), a copy of the cost-benefit analysis of the rule (if any), the agency's actions relevant to provisions of the Regulatory Flexibility Act (affecting small businesses) and the Unfunded Mandates Reform Act of 1995 (describing unfunded Federal requirements imposed on State and local governments and the private sector), and any other relevant information or requirements and any relevant Executive Orders.

EPA has submitted a report under the CRA for this rule. The rule will take effect, as provided by law, within 30 days of publication of this document, since it is not a major rule. Section 804(2) defines a major rule as any rule that the Administrator of the Office of Information and Regulatory Affairs (OIRA) of the Office of Management and

Budget (OMB) finds has resulted in or is likely to result in: An annual effect on the economy of \$100,000,000 or more; a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic and export markets. NPL listing is not a major rule because, as explained above, the listing, itself, imposes no monetary costs on any person. It establishes no enforceable duties, does not establish that EPA necessarily will undertake remedial action, nor does it require any action by any party or determine its liability for site response costs. Costs that arise out of site responses result from site-by-site decisions about what actions to take, not directly from the act of listing itself. Section 801(a)(3) provides for a delay in the effective date of major rules after this report is submitted.

3. What Could Cause a Change in the Effective Date of This Rule?

Under 5 U.S.C. 801(b)(1) a rule shall not take effect, or continue in effect, if Congress enacts (and the President signs) a joint resolution of disapproval, described under section 802.

Another statutory provision that may affect this rule is CERCLA section 305, which provides for a legislative veto of regulations promulgated under CERCLA. Although *INS v. Chadha*, 462 U.S. 919, 103 S. Ct. 2764 (1983) and *Bd. of Regents of the University of Washington v. EPA*, 86 F.3d 1214, 1222 (D.C. Cir. 1996) cast the validity of the legislative veto into question, EPA has transmitted a copy of this regulation to the Secretary of the Senate and the Clerk of the House of Representatives.

If action by Congress under either the CRA or CERCLA section 305 calls the effective date of this regulation into question, EPA will publish a document of clarification in the **Federal Register**.

**List of Subjects in 40 CFR Part 300**

Environmental protection, Air pollution control, Chemicals, Hazardous

substances, Hazardous waste, Intergovernmental relations, Natural resources, Oil pollution, Penalties, Reporting and recordkeeping requirements, Superfund, Water pollution control, Water supply.

Dated: September 20, 2006.

**Susan Parker Bodine,**

*Assistant Administrator, Office of Solid Waste and Emergency Response.*

■ 40 CFR part 300 is amended as follows:

BILLING CODE 6560-50-P

**FEDERAL COMMUNICATIONS COMMISSION****47 CFR Part 73****[DA 06-1759; MB Docket No. 05-9; RM-11141; RM-11242; MB Docket No. 05-10; RM-11140; RM-11241; RM-11279]****Radio Broadcasting Services; Albany, Arlington, Athena, Diamond Lake, and Eugene, Oregon, Goldendale, Washington, Hermiston, Ione, La Grande, Lebanon, Monument; Paisley, Prairie City, Prineville, and Sisters, The Dalles, and Tualatin, Oregon, Walla Walla, Washington and Weiser, Idaho****AGENCY:** Federal Communications Commission.**ACTION:** Final rule.

**SUMMARY:** In accordance with Section 1.420(j) of the Commission's Rules, this document grants a Settlement Agreement filed by Two Hearts Communications, LLC and SSR Communications, Inc., requesting the allotment of Channel 280C1 at Monument, Oregon, as its first local service and Channel 260C at Prairie City, Oregon, as its first local service. This document also substitutes Channel \*247C1 for Channel \*280C1 at Weiser, Idaho and allots Channel 267C1 at Prineville, Oregon, as its third FM commercial broadcast service. The reference coordinates for Channel 280C1 at Monument are 44-49-09 NL and 119-25-11 WL. The reference coordinates for Channel 260C at Prairie City are 44-17-47 NL and 118-44-22 WL. This site is located 18.5 kilometers (11.5 miles) south of Prairie City. The reference coordinates for Channel \*247C1 at Weiser are 44-20-39 NL and 117-07-14 WL. This site is located 16 kilometers (9.9 miles) northwest of Weiser. The reference coordinates for Channel 267C1 at Prineville are 44-20-48 NL and 120-22-29 WL. This site is located 37.6 kilometers (23.4 miles) east of Prineville. See **SUPPLEMENTARY INFORMATION.**

**DATES:** Effective October 20, 2006.**ADDRESSES:** Federal Communications Commission, 445 Twelfth Street, SW., Washington, DC 20554.**FOR FURTHER INFORMATION CONTACT:** Rolanda F. Smith, Media Bureau, (202) 418-2180.**SUPPLEMENTARY INFORMATION:** This is a summary of the Commission's *Report and Order*, MB Docket Nos. 05-9 and

05-10, adopted August 31, 2006, and released September 5, 2006. The full text of this Commission decision is available for inspection and copying during normal business hours in the Commission's Reference Center 445 Twelfth Street, SW., Washington, DC 20554. The complete text of this decision may also be purchased from the Commission's duplicating contractor, Best Copy and Printing, Inc., 445 12th Street, SW., Room CY-B402, Washington, DC 20554, telephone 1-800-378-3160 or <http://www.BCPIWEB.com>. The Commission will send a copy of this *Report and Order* in a report to be sent to Congress and the Government Accountability Office pursuant to the Congressional Review Act, see 5 U.S.C. 801(a)(1)(A).

Additionally, this document grants a counterproposal filed by Two Hearts Communications, LLC, by substituting Channel 264C2 for Channel 264C3 at Walla Walla, Washington, reallocating Channel 264C2 from Walla Walla, Washington to Athena, Oregon, as the community's first local service and modifying the Station KHSS license to reflect to this change. The reference coordinates for Channel 264C2 at Athena are 45-47-41 NL and 118-10-06 WL. This site is located 25.2 kilometers (15.7 miles) east of Athena. To accommodate the Athena reallocation, this document also substitutes Channel 261A for Channel 263A at Hermiston, Oregon and modifies the Station KQFM license accordingly; substitutes Channel 225C1 for Channel 260C1 at La Grande, Oregon and modifies the Station KWRL license accordingly; substitutes Channel 295C2 for vacant Channel 261C2 at Arlington, Oregon; and allots Channel 258A at Ione, Oregon, as its first local service. Channel 261A can be allotted to Hermiston at Station KQFM's current licensed site, 45-51-57 NL and 119-18-38 WL. This site is located 3.1 kilometers (1.9 miles) northwest of Hermiston. Channel 225C1 can be allotted to La Grande at Station KWRL's current licensed site, 45-12-59 NL and 118-00-00 WL. This site is located 14.3 kilometers (8.9 miles) southeast of La Grande. The reference coordinates for Channel 295C2 at Arlington are 45-33-52 NL and 120-19-00 WL. The site is located 19.9 kilometers (12.3 miles) southwest of Arlington. The reference coordinates for Channel 258A at Ione are 45-30-12 NL and 119-49-36 WL.

This document also dismisses the counterproposal jointly filed by Portland Broadcasting, L.L.C., licensee of Station KXPC-FM, Lebanon, Oregon, Columbia Gorge Broadcasters, Inc., licensee of Station KACI-FM, The Dalles, Oregon, M.S.W.

Communications, LLC, licensee of Station KMSW(FM), The Dalles, Oregon, and Extra Mile Media, Inc., licensee of Station KHPE(FM), Albany, Oregon, requesting the substitution of Channel 250C2 for Channel 249C2 at The Dalles, Oregon, reallocation of Channel 250C2 from The Dalles to Tualatin, Oregon, as the community's first local service and modification of the Station KACI-FM license accordingly; substitution of Channel 300C for Channel 250C at Eugene, Oregon and modification of the Station KNRQ-FM license accordingly; substitution of Channel 279C for Channel 300C at Albany and modification of the Station KHPE license accordingly; substitution of Channel 251A for vacant Channel 299A at Diamond Lake, Oregon; reallocation of Channel 279C from Lebanon to Paisley, Oregon, as the community's first local service and a first local aural broadcast service to 2,287 persons, and modification of the Station KXPC-FM license accordingly; substitution of Channel 272C2 for Channel 224C3 at The Dalles, Oregon and modification of the FM Station KSMW license accordingly; and substitution of Channel 300C2 for Channel 272C2 at Goldendale, Washington and modification of the FM Station KYTT license accordingly.

**List of Subjects in 47 CFR Part 73**

Radio, Radio broadcasting.

■ As stated in the preamble, the Federal Communications Commission amends 47 CFR Part 73 as follows:

**PART 73—RADIO BROADCAST SERVICES**

■ 1. The authority citation for part 73 continues to read as follows:

**Authority:** 47 U.S.C. 154, 303, 334, 336.

**§ 73.202 [Amended]**

■ 2. Section 73.202(b), the Table of FM Allotments under Idaho, is amended by removing Channel \*280C1 and by adding Channel \*247C1 at Weiser.

■ 3. Section 73.202(b), the Table of FM Allotments under Oregon, is amended by removing Channel 261C2 and by adding Channel 295C2 at Arlington; by adding Athena, Channel 264C2; by removing Channel 263A and by adding Channel 261A at Hermiston; by removing Channel 260C1 and by adding Channel 225C1 at La Grande; by adding Monument, Channel 280C1; by adding Prairie City, Channel 260C; and by adding Channel 267C1 at Prineville.

■ 4. Section 73.202(b), the Table of FM Allotments under Washington, is amended by removing Channel 264C3 at Walla Walla.
