SUPPLEMENTARY INFORMATION:

A. Need For and Use of the Information Collection

Section 10(j) of the Federal Home Loan Bank Act (Bank Act) (12 U.S.C. 1430(j)), requires the Finance Board to promulgate regulations under which each of the 12 Federal Home Loan Banks (Banks) must establish an Affordable Housing Program to make subsidized advances to members engaged in lending for long term, low- and moderate-income, owner-occupied and affordable rental housing at subsidized interest rates. *See* 12 U.S.C. 1430(j). Section 10(j) also establishes the standards and requirements for making subsidized AHP advances to Bank members. Part 951 of the Finance Board regulations implements the statutory requirements and authorizes the Banks to make AHP funding decisions. *See* 12 CFR part 951.

On August 9, 2006, the Board of Directors of the Finance Board moved the AHP data requirements from part 951 into its Data Reporting Manual (DRM). *See* Resolution Number 2006-13 (available electronically in the Finance Board's FOIA Reading Room: <http://www.fhfb.gov/Default.aspx?Page=59&ListCategory=9#9>). The Banks use AHP data collection contained in the DRM to determine whether an AHP applicant satisfies the statutory and regulatory requirements to receive subsidized advances or direct subsidies under the AHP. The Finance Board uses the information to ensure that Bank funding decisions, and the use of the funds awarded, are consistent with statutory and regulatory requirements.

The OMB control number for the information collection is 3069-0006. The OMB clearance for the information collection expires on July 31, 2007. The likely respondents include Bank members and applicants for AHP funding.

B. Burden Estimate

In April 2005, the Finance Board provided notice in the **Federal Register** concerning the burden for the seven different facets of the AHP information collection—AHP applications, AHP

modification requests, AHP monitoring agreements, AHP recapture agreements, homeownership assistance program applications, verifications of statutory and regulatory compliance at the time of subsidy disbursement, and Bank Advisory Council Reports and recommendations on AHP Implementation Plans. *See* 70 FR 21411 (April 26, 2005). The 60-day comment period closed on June 27, 2005. The Finance Board received one comment, which supported establishment of consistent data reporting requirements for the AHP.

Following publication of the notice, the Finance Board moved the AHP data requirements from part 951 into its DRM and adopted a final rule amending the AHP regulation by removing prescriptive requirements, clarifying certain operational requirements, providing additional discretionary authority in certain areas, removing certain authorities, and otherwise streamlining and reorganizing the regulation. That final rule is published elsewhere in this issue of the **Federal Register**. These actions have affected the burden estimates for the information collection. The estimate for the total hour burden for applicant and member respondents for all 7 facets of the AHP information collection is 72,113 hours, reflecting an increase of 9,075 hours. The revised burden estimates are discussed below:

1. AHP Applications

The Finance Board estimates a total annual average of 2,050 applicants for AHP funding, with 1 response per applicant, and a 24 hour average processing time for each application. The estimate for the total annual hour burden for AHP applications is 49,200 hours (2,050 applicants × 1 application × 24 hours).

2. AHP Modification Requests

The Finance Board estimates a total annual average of 150 modification requests, with 1 response per requestor, and a 2.5 hour average processing time for each request. The estimate for the total annual hour burden for AHP modification requests is 375 hours (150 requestors × 1 request × 2.5 hours).

3. AHP Monitoring Agreements

The Finance Board estimates a total annual average of 825 AHP monitoring agreements, with 1 agreement per respondent. The estimate for the average hours to implement each AHP monitoring agreement and prepare and review required reports and certifications is 4.5 hours. The estimate for the total annual hour burden for

AHP monitoring agreements is 3,713 hours (825 respondents × 1 agreement × 4.5 hours).

4. AHP Recapture Agreements

The Finance Board estimates a total annual average of 825 AHP recapture agreements, with 1 agreement per respondent. The estimate for the average hours to prepare and implement an AHP recapture agreement is 1 hour. The estimate for the total annual hour burden for AHP recapture agreements is 825 hours (825 respondents × 1 agreement × 1 hour).

5. Homeownership Assistance Program Applications

The Finance Board estimates a total annual average of 8,000 homeownership assistance program applications, with 1 application per respondent, and a 2 hour average processing time for each application. The number of homeownership applications has increased from 2,400 to 8,000 due to demand for downpayment/closing cost assistance by households residing in the United States. The estimate for the total annual hour burden for homeownership assistance program applications is 16,000 hours (8,000 respondents × 1 application × 2 hours).

6. Verification of Statutory and Regulatory Compliance Submissions

The Finance Board estimates a total annual average of 2,000 submissions to verify compliance with statutory and regulatory requirements with 1 submission per respondent. The estimate for the average hours to review database records for completeness and accuracy prior to submission and validation is 1 hour. The estimate for the total annual hour burden for verification of compliance submissions is 2,000 hours (2,000 respondents × 1 submission × 1 hour).

7. Bank Advisory Council Reports and Recommendations on AHP Implementation Plan

Member and applicant respondents incur no costs because the Bank Advisory Councils prepare and the Banks and Finance Board review Advisory Council reports and recommendations.

C. Comment Request

Written comments are requested on: (1) Whether the collection of information is necessary for the proper performance of Finance Board functions, including whether the information has practical utility; (2) the accuracy of the Finance Board estimates of the burdens of the collection of

information; (3) ways to enhance the quality, utility and clarity of the information collected; and (4) ways to minimize the burden of the collection of information on applicants and housing associates, including through the use of automated collection techniques or other forms of information technology. Comments may be submitted to OMB in writing at the address listed above.

Dated: September 29, 2006.
