Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping occurred and the subsequent assessment of double antidumping duties.

National Fire Protection Association (NFPA) Proposes To Revise Codes and Standards

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice.

SUMMARY: The National Fire Protection Association (NFPA) proposes to revise some of its safety codes and standards and requests proposals from the public to amend existing or begin the process of developing new NFPA safety codes and standards. The purpose of this request is to increase public participation in the system used by NFPA to develop its codes and standards. The publication of this notice of request for proposals by the National Institute of Standards and Technology (NIST) on behalf of NFPA is being undertaken as a public service; NIST does not necessarily endorse, approve, or recommend any of the standards referenced in the notice.

The NFPA process provides ample opportunity for public participation in the development of its codes and standards. All NFPA codes and standards are revised and updated every three to five years in Revision Cycles that begin twice each year and that takes approximately two years to complete. Each Revision Cycle proceeds according to a published schedule that includes final dates for all major events in the process. The process contains five basic steps that are followed both for developing new documents as well as revising existing documents. These steps are: Calling for Proposals; Publishing the Proposals in the Report on Proposals; Calling for Comments on the Committee's disposition of the proposals and these Comments are published in the Report on Comments; having a Technical Report Session at the NFPA Annual Meeting; and finally, the Standards Council Consideration and Issuance of documents.

Note: Under new rules effective Fall 2005, anyone wishing to make Amending Motions on the Technical Committee Reports (ROP and ROC) must signal their intention by submitting a Notice of Intent to Make a Motion by the Deadline stated in the ROC.
