

for which such person receives active service pay. 10 U.S.C. 12316 further provides that a reservist who is entitled to disability payments due to his or her earlier military service and who performs duty for which he or she is entitled to DoD/USCG compensation may elect to receive for that duty either the disability payments or, if he or she waives such payments, the DoD/USCG compensation for the duty performed.

D. RECORDS TO BE MATCHED:

The systems of records maintained by the respective agencies under the Privacy Act of 1974, as amended, 5 U.S.C. 552a, from which records will be disclosed for the purpose of this computer match are as follows:

1. The DMDC will use the system of records identified as S322.10 DMDC, entitled "Defense Manpower Data Center Data Base," last published June 9, 2004, at 69 FR 31947, as amended on November 16, 2004, 69 FR 67117.

2. The VA will use the system of records identified as "VA Compensation, Pension and Education and Rehabilitation Records—VA (58 VA 21/22)," first published at 41 FR 9294 (March 3, 1976), and last amended at 70 FR 34186 (June 13, 2005), with other amendments as cited therein.

E. DESCRIPTION OF COMPUTER MATCHING PROGRAM:

Annually, VA will submit to DMDC an electronic file of all VA pension and disability compensation beneficiaries as of the end of September. Upon receipt of the electronic file, DMDC will match this file by SSN with a file of days drilled as submitted to DMDC by the military services and the USCG. Upon a SSN match, or a "hit," of both files, DMDC will provide VA the individual's name and other identifying data, to include the number of days drilled, by Fiscal Year, for each matched record.

The hits will be furnished to VA which will be responsible for verifying and determining that the data in the DMDC electronic file is consistent with the VA files and for resolving any discrepancies or inconsistencies on an individual basis. VA will initiate actions to obtain an election by the individual of which pay he or she wishes to receive and will be responsible for making final determinations as to positive identification, eligibility for, or amounts of pension or disability compensation benefits, adjustments thereto, or any recovery of overpayments, or such other action as authorized by law.

The annual electronic file provided by the VA will contain information on approximately 2.9 million pension and disability compensation recipients.

The DMDC computer database file contains information on approximately 832,000 DoD and 8,000 USCG reservists who received pay and allowances for performing authorized duty.

VA will furnish DMDC the name and SSN of all VA pension and disability compensation recipients and DMDC will supply VA the name, SSN, date of birth, and the number of days drilled by fiscal year of each reservist who is identified as a result of the match.

F. INCLUSIVE DATES OF THE MATCHING PROGRAM:

This computer matching program is subject to public comment and review by Congress and the Office of Management and Budget. If the mandatory 30 day period for comment has expired and no comments are received and if no objections are raised by either Congress or the Office of Management and Budget within 40 days of being notified of the proposed match, the computer matching program becomes effective and the respective agencies may begin the exchange at a mutually agreeable time on an annual basis. By agreement between VA and DMDC, the matching program will be in effect for 18 months with an option to renew for 12 additional months unless one of the parties to the agreement advises the other by written request to terminate or modify the agreement.

G. ADDRESS FOR RECEIPT OF PUBLIC COMMENTS OR INQUIRIES:

Director, Defense Privacy Office, 1901 South Bell Street, Suite 920, Arlington, VA 22202-4512. Telephone (703) 607-2943.
