Description of Need: The NPS' legislative mandate is to preserve America's natural and cultural treasures unimpaired for future generations, while also making them available for the enjoyment of the visitor (16 U.S.C. 1). NPS regulations, codified at title 36 Code of Federal Regulations (CFR), are promulgated to allow for the enjoyment and use of the resource by the public while protecting the resource. These forms are intended to gather sufficient information to enable park managers to approve or deny the requested uses of public lands authorized in 36 CFR and, if approved, to provide sufficient information to craft permit terms and conditions sufficient to protect park lands from impairment of the park resources, values and purposes for which the park was created. The uses considered under these information collection applications generally include those which regulate or limit those activities not available to the public at large, such as special events, commercial filming, and grazing in parks where such activity is authorized by law.

The NPS specially invites public comments as to:

a. Whether the collection of information is necessary for the proper performance of the functions of the Service, whether the information will have practical utility.

b. The accuracy of the Service's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

c. The quality, utility, and clarity of the information to be collected; and
d. How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical or other forms of information technology.
