

Participants in the industry-sponsored workshops on safe handling and release of sea turtles that were held in Orlando, FL (April 8, 2005) and New Orleans, LA (June 27, 2005) will be issued a workshop certificate in December 2006 that will be valid for three years. Grandfathered permit holders must include a copy of this certificate when renewing limited access shark and limited access swordfish permits each year. Failure to provide a valid workshop certificate may result in a permit denial.

The Safe Handling, Release, and Identification Workshops are designed to teach longline and gillnet fishermen the required techniques for the safe handling and release of entangled and/or hooked protected species, such as sea turtles, marine mammals, and smalltooth sawfish. Identification of protected species will also be taught at these workshops in an effort to improve reporting. Additionally, individuals attending these workshops will gain a better understanding of the requirements for participating in these fisheries. The overall goal for these workshops is to provide participants the skills needed to reduce the mortality of protected species, which may prevent additional regulations on these fisheries in the future.
