

remain on the mailing list, you will be taken off the mailing list.

Availability of Additional Information

Additional information about the project is available from the Commission's Office of External Affairs at 1-866-208 FERC (3372) or on the FERC Web site (<http://www.ferc.gov>). Using the eLibrary link, select General Search from the eLibrary menu, enter the selected date range and Docket Number (*i.e.*, PF06-32-000), and follow the instructions. Searches may also be done using the phrase "Sentinel Expansion" in the Text Search field. For assistance with access to eLibrary, the helpline can be reached at 1-866-208-3676, TTY (202) 502-8659, or at FERCOnlineSupport@ferc.gov. The eLibrary link on the FERC Web site also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.

In addition, the FERC now offers a free service called eSubscription that allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. To register for this service, go to <http://www.ferc.gov/esubscribenow.htm>.

Public meetings or site visits will be posted on the Commission's calendar located at <http://www.ferc.gov/EventCalendar/EventsList.aspx> along with other related information. Finally, Transco has established a Web site for its project at <http://www.williams.com/sentinel>. The site includes a project overview, contact information, regulatory overview, and construction procedures. Transco will continue to update its Web site with information about the project. You can also request additional information by calling Transco directly, toll-free at 1-866-455-9103.

Magalie R. Salas,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP06-452-000]

Trunkline Gas Company, LLC; Notice of Intent To Prepare an Environmental Assessment for the Proposed Field Zone Expansion Project and Request for Comments on Environmental Issues

October 24, 2006.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of constructing and operating Trunkline Gas Company LLC's (Trunkline) proposed Field Zone Expansion Project.

The Field Zone Expansion Project would include the abandonment, removal, relocation, installation, modification, construction and operation of natural gas pipeline facilities in Texas, Louisiana and Illinois to increase the capacity of Trunkline's existing pipeline system and allow for the flow of natural gas from expanding gas production in Texas to delivery points in Louisiana. Specifically, Trunkline is seeking authority to undertake the following activities:

Texas and Louisiana

- Construct the 45-mile-long 36-inch-diameter NTX Line 100-2 Loop natural gas pipeline and associated facilities from the Gate Valve 43 in Jasper County, Texas to the Longville Meter Station in Beauregard Parish, Louisiana, running through Jasper and Newton Counties, Texas and Beauregard Parish, Louisiana.

Texas

- Construct a metering station in Hardin County, Texas;
- Construct a metering station in either Hardin or Jasper Counties, Texas;
- Construct a metering station in Liberty County, Texas; and
- Replace by abandonment a 6,350-horsepower (hp) gas-turbine centrifugal compressor unit with a new 10,350-hp electric motor-driven compressor unit for a total of 10,350-hp of compression at the Kountze Compressor Station in Hardin County, Texas.

Louisiana

- Construct approximately 13.5 miles of 36-inch-diameter natural gas pipeline, known as the Henry Hub Lateral and associated facilities in Vermilion Parish, Louisiana;

- Construct two bi-directional metering stations in Vermilion Parish, Louisiana;
- Relocate two 3,000-hp compressor units from the Centerville Compressor Station to the Kaplan Compressor Station in Vermilion Parish, Louisiana; and

- Install a 10,350-hp compressor unit at the Longview Compressor Station in Beauregard Parish, Louisiana.

Illinois

- Remove a 3,000-hp compressor unit at the Joppa Compressor Station in Massac County, Illinois; modify it and uprate to 5,100-hp, and then re-install it at the Kaplan Compressor Station in Louisiana.

A map depicting Trunkline's proposed facilities is provided in Appendix 1.¹

Construction of these facilities would require the temporary use of approximately 800 acres of land. Operation of these facilities would require the permanent use of approximately 300 acres of land. Approximately 500 acres of land would not be permanently affected by operation of these facilities and would be restored and/or allowed to revert to their previous use.

If you are a landowner receiving this notice, you may be contacted by a Trunkline representative about the acquisition of an easement to support this project. Trunkline would seek to negotiate a mutually acceptable agreement for any easement; however, if the project is approved by the Commission, this approval conveys with it the right of eminent domain. If easement negotiations between you and Trunkline fail, it would have the authority to initiate condemnation proceedings.

A fact sheet prepared by the Commission entitled "An Interstate Natural Gas Facility on my Land? What do I need to know?" should have been attached to the project notice provided to landowners by Trunkline. This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings. This fact sheet is also available online at <http://www.ferc.gov>.

The Environmental Assessment Process

The National Environmental Policy Act (NEPA) requires the Commission to

¹ The appendices referenced in this notice will not be printed in the **Federal Register**. Copies are available on the Commission's Web site (excluding maps) at <http://www.ferc.gov> or from the Commission's Public Reference Room—(202) 502-8371.

consider the environmental impacts of a proposed project whenever it considers the issuance of a Certificate of Public Convenience and Necessity as has been requested by Trunkline. NEPA also requires the Commission to undertake a process to identify and address concerns the public may have about proposed projects. This process is commonly referred to as "scoping". The main goal of the "scoping" process is to identify public concerns and then address them in the environmental assessment. By this Notice of Intent, the Commission requests public comments on environmental issues that should be addressed in the environmental assessment.

The Commission's staff will prepare an environmental assessment that will discuss the potential environmental impacts resulting from the proposed project under the following general headings:

- Geology and Soils.
- Water Resources and Wetlands.
- Fisheries, Vegetation and Wildlife.
- Threatened and Endangered

Species.

- Air Quality and Noise.
- Land Use.
- Cultural Resources.
- Pipeline safety and reliability.

The Commission's staff will also evaluate possible alternatives to the proposed project or portions of the project and make recommendations on how to lessen or avoid impacts to the identified environmental resources.

Upon completion of the staff's environmental assessment and depending on the issues identified and/or comments received during the "scoping" process, the EA may be published and mailed to Federal, State and local government agencies; elected officials; environmental and public interest groups; affected landowners; other interested parties; local libraries and newspapers; and the Commission's official service list for this proceeding. A 30-day comment period would be allotted for review of the EA if it is published. Staff would consider all comments submitted concerning the EA before making their recommendations to the Commission.

To ensure your comments are considered, please carefully follow the instructions in the public participation section of this notice.

Federal, state, or local agencies wishing to participate in the development of the environmental assessment may request "cooperating agency" status. Cooperating agencies are encouraged to participate in the scoping process and provide us with written comments concerning the proposed

project. Cooperating agencies are also welcome to suggest format and content changes that will make it easier for them to adopt the EA; however, we will decide what modifications will be adopted in light of our production constraints. Agencies wanting to participate as a cooperating agency should send a letter describing the extent to which they would like to be involved in the development of this EA. Please submit these letters as indicated in the public participation section of this notice.

Public Participation

You can make a difference by providing us with your specific comments or concerns about the proposed project. By becoming a commentator, your comments and concerns will be addressed in the EA and considered by the Commission. The more specific your comments, the more useful they will be. Generally, comments are submitted regarding the potential environmental effects, reasonable alternatives and measures to avoid or lessen environmental impact.

This notice and request for environmental comments is being sent to affected landowners; Federal, State and local government representatives and agencies; environmental and public interest groups; other interested parties in this proceeding; and local libraries and newspapers. We encourage government representatives to notify their constituents of this notice and to encourage their comments concerning this proposed project.

To ensure that your comments are properly recorded, please mail them to our office on or before November 27, 2006. When filing comments please:

- Send an original and two copies of your letter to: Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First St., NE., Room 1A, Washington, DC 20426.
- Label one copy of your comments to the attention of Gas Branch 2, DG2E; and Reference Docket No. CP06-452-000 on the original and both copies.

Please note that the Commission encourages the electronic filing of comments. To file electronic comments online please see the instructions² on the Commission's Web site at <http://www.ferc.gov>. When filing electronic comments, prepare your submission in the same manner as you would if filing on paper and save it to a file on your hard drive. Please note before you can file electronic comments with the

Commission you will need to create a free online account.

Environmental Mailing List

An effort has been made to send this notice to all individuals, organizations, and government entities that might be interested in and/or potentially affected by the proposed project. This includes all landowners who are potential right-of-way grantors, landowners whose property may be used temporarily for project purposes, and landowners with homes within distances defined in the Commission's regulations of certain aboveground facilities.

If you would like to remain on the environmental mailing list for this proposed project, please return the Mailing List Retention Form found in Appendix 2. If you do not comment on this project or return this form, you will be taken off of the staff's environmental mailing list.

Becoming an Intervenor

In addition to involvement in the EA scoping process, you may want to become an official party to the proceeding, an "intervenor". To become an intervenor you must file a motion to intervene according to Rule 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.214). Intervenor has the right to seek rehearing of the Commission's decision. Motions to Intervene should be electronically submitted using the Commission's eFiling system at <http://www.ferc.gov>. Persons without Internet access should send an original and 14 copies of their motion to the Secretary of the Commission at the address indicated previously. Persons filing Motions to Intervene on or before the comment deadline indicated above must send a copy of the motion to the Applicant. All filings, including late interventions, submitted after the comment deadline must be served on the Applicant and all other intervenors identified on the Commission's service list for this proceeding. Persons on the service list with e-mail addresses may be served electronically; others must be served a hard copy of the filing.

Affected landowners and parties with environmental concerns may be granted intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which would not be adequately represented by any other parties. You do not need intervenor status to have your environmental comments considered.

Availability of Additional Information

Additional information about the project is available from the

² 18 CFR 385.2001(a)(1)(iii).

Commission's Office of External Affairs at 1-866-208 FERC (3372) or through the Commission's "eLibrary" which can be found online at <http://www.ferc.gov>. For assistance with the Commission's "eLibrary", the helpline can be reached at 1-866-208-3676, TTY (202) 502-8659, or at FERCOnlineSupport@ferc.gov.

In addition, the FERC now offers a free service called eSubscription that allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. To register for this service, go to <http://www.ferc.gov/esubscribenow.htm>.

If applicable, public meetings or site visits associated with this proposed project will be posted on the Commission's calendar which can be found online at <http://www.ferc.gov/EventCalendar/EventsList.aspx>.

Magalie R. Salas,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Notice of Application for Amendment of License and Soliciting Comments, Motions To Intervene, and Protests

October 18, 2006.

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection:

a. *Application Type*: Amendment of license to change project design and capacity.

b. *Project No.*: 11437-016.

c. *Date Filed*: September 26, 2006.

d. *Applicant*: Hydro Matrix Partnership, Ltd.

e. *Name of Project*: Jordan Dam Hydroelectric Project.

f. *Location*: The project is located at the U.S. Army Corps of Engineers' Jordan Dam on the Haw River in Chatham County, North Carolina.

g. *Filed Pursuant to*: Federal Power Act, 16 U.S.C. 791a-825r.

h. *Applicant Contact*: James B. Price, Hydro Matrix Partnership, Ltd., P.O. Box 5550, Aiken, S.C. 29804. Tel: (803) 642-2749. Also, Mayo Hydropower, LLC, 5400 Downing Street, Dover, FL 33527. Tel: (813) 659-1007.

i. *FERC Contact*: Any questions on this notice should be addressed to Vedula Sarma at (202) 502-6190 or vedula.sarma@ferc.gov.

j. *Deadline for filing comments and/or motions*: November 17, 2006.

k. *Description of Filing*: Hydro Matrix Partnership, Ltd. proposes to install two large turbines instead of currently authorized 80 small turbines and generators. The proposal would change the authorized installed capacity from 8 megawatts (MW) to 4 MW, and the Project's hydraulic capacity would decrease from 2,320 cubic feet per second (cfs) to 1,200 cfs.

l. *Locations of Applications*: A copy of the application is available for inspection and reproduction at the Commission in the Public Reference Room, located at 888 First Street, NE., Room 2A, Washington, DC 20426, or by calling (202) 502-8371. This filing may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via e-mail of new filings and issuances related to this or other pending projects. For assistance, call toll-free 1-866-208-3676 or e-mail FERCOnlineSupport@ferc.gov. For TTY, call (202) 502-8659. A copy is also available for inspection and reproduction at the address in item (h) above.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. *Comments, Protests, or Motions to Intervene*: Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

o. *Filing and Service of Responsive Documents*: Any filings must bear in all capital letters the title "COMMENTS", "RECOMMENDATIONS FOR TERMS AND CONDITIONS", "PROTEST", OR "MOTION TO INTERVENE", as applicable, and the Project Number of the particular application to which the

filing refers. All documents (original and eight copies) should be filed with: Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

p. *Agency Comments*: Federal, State, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

q. Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site at <http://www.ferc.gov> under the "e-Filing" link.

Magalie R. Salas,
Secretary.
