SUPPLEMENTARY INFORMATION: On October 27, 2000, notice was published in the **Federal Register** (65 FR 64432) that a request for a scientific research permit to take seven species of baleen whale, 21 species of odontocetes, and four species of pinnipeds had been submitted by the above-named organization. Permit No. 775-1600-00 was issued on March 6, 2001 (66 FR 14135) and subsequently amended ten times for various purposes. Amendment No. 7 of the permit, named Permit No. 775-1600-07 (69 FR 10680; March 8, 2004), and subsequent amendments allowed biopsy sampling of up to 15 right whale calves less than six months old per year. The Permit Holder has requested that the number of right whale calves less than six months old that may be biopsy sampled, including on the Southeastern US calving grounds, be increased to 30 per year to account for inter-annual variation in the number of calves born each year. The purpose of this amendment is consistent with the objectives in the original application related to genetically identifying (via biopsy sampling) northern right whales.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of this application to the Marine Mammal

Commission and its Committee of Scientific Advisors.

Dated: October 27, 2006.
