

f. By the Office of Personnel Management in producing descriptive statistics to support the function for which the records are collected and maintained or for related work force studies. While published statistics and studies do not identify individuals, in some instances data elements in a study may be structured so as to allow an individual to be identified by inference.

g. To disclose information to the Office of Management and Budget in reviewing private relief legislation at any stage of the clearance process.

h. To disclose information to officials of the Merit System Protection Board, including the Office of Special Counsel; the Federal Labor Relations Authority and its General Counsel; or the Equal Employment Opportunity Commission when requested in performing official duties.

i. To the Office of Personnel Management (OPM), the Office of Management and Budget (OMB), or the Government Accountability Office (GAO) when the information is required for program evaluation purposes.

j. To a Member of Congress or staff on behalf of and at the requests of the individual who is the subject of the record.

k. To the extent that official personnel records in the custody of GSA are covered within systems of records published by the Office of Personnel Management as Government-wide system, they are considered part of the Government-wide system. Other official personnel records covered by notices published by GSA and considered to be separate systems of records may be transferred to the Office of Personnel Management under official personnel programs and activities as a routine use.

l. To an expert, consultant, or contractor of GSA in the performance of a Federal duty to which the information is relevant.

m. To the National Archives and Records Administration (NARA) for records management purposes.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records and/or system generated inquiries are stored in file cabinets.

RETRIEVABILITY:

The records are filed numerically and/or alphabetically by name.

SAFEGUARDS:

When not in use by an authorized person, the records are stored in locked metal file cabinets or in secured rooms.

RETENTION AND DISPOSAL:

The Office of Human Resources Services disposes of the records as scheduled in the HB, GSA Records Maintenance and Disposition System (OAD P 1820.2A).

SYSTEM MANAGER(S) AND ADDRESS:

Director, Labor Relations Division (CPL), Office of Human Resources Services, 1800 F Street NW, Washington, DC 20405.

NOTIFICATION PROCEDURE:

Current employees may obtain information about whether they are a part of the system by contacting the designated office where the action was processed.

RECORD ACCESS PROCEDURES:

Requests from current employees to review information about themselves should be directed to the designated office where the action was processed. For the identification required, see 41 CFR part 105-64.

PROCEDURE TO CONTEST A RECORD:

GSA rules for reviewing a record, contesting the content, and appealing an initial decision are 41 CFR part 105-64.

RECORD SOURCES:

Officials who manage records pertaining to employees who are union officials or in an exclusively recognized union and employees who have filed a grievance under the negotiated grievance procedure.

Proposed Project

CDC Web site Usability Evaluation—New—National Center for Health Marketing (NCHM), Coordinating Center for Health Information and Services (CoCHIS), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Executive Order 12862 directs agencies that provide significant services directly to the public to survey customers to determine the kind and quality of services they need and their level of satisfaction with existing services. The Centers for Disease Control and Prevention (CDC), National Center for Health Marketing (NCHM), seeks to obtain approval to conduct usability tests of the CDC Web site, <http://www.cdc.gov>, on an ongoing basis. By collecting Web site usability information, CDC will be better able to serve, and respond to, the ever-changing demands of Web site users. These users include individuals (such as patients, educators, students, etc.), interested communities, partners, healthcare providers, and businesses. Survey information will augment current Web content, delivery, and design research which is used to understand the Web user, and more specifically, the CDC user community. Primary objectives are to (1) ensure CDC's Web site meets its customer needs and (2) ensure the Web site meets the wants, preferences, and needs of its target audiences. Findings will help to: (1) Understand the user community and how to better serve Internet users; (2) discover areas requiring improvement in either content or delivery; (3) determine how to align Web offerings with identified user need(s); and (4) explore methods for offering, presenting and delivering information most effectively. There are no costs to respondents other than their time. The total estimated annualized burden hours are 41,041.

ESTIMATED ANNUALIZED BURDEN HOURS

| Survey type | Number of respondents | Frequency of response per respondent | Average burden per response (hrs.) |
|-------------------------|-----------------------|--------------------------------------|------------------------------------|
| In Person Surveys | 7,500 | 1 | 1 |
| Remote Surveys | 67,000 | 1 | 30/60 |
| Screeners Only | 500 | 1 | 5/60 |

Proposed Project

National Coal Workers Autopsy Study (NCWAS) Consent Release and History Form—Renewal—(0920-0021) National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Under the Federal Coal Mine Health and Safety Act of 1977, Public Law 91-173 (amended the Federal Coal Mine and Safety Act of 1969), the Public Health Service has developed a nationwide autopsy program (NCWAS) for underground coal miners. The Consent Release and History Form is primarily used to obtain written authorization from the next-of-kin to perform an autopsy on the deceased miner. Because a basic reason for the post-mortem examination is research (both epidemiological and clinical), a

minimum of essential information is collected regarding the deceased miners, including occupational history and smoking history. The data collected will be used by the staff at NIOSH for research purposes in defining the diagnostic criteria for coal workers' pneumoconiosis (black lung) and pathologic changes and will be correlated with x-ray findings.

It is estimated that only 5 minutes is required for the pathologist to put a statement on the invoice affirming that no other compensation is received for the autopsy. From past experience, it is estimated that 15 minutes is required for the next-of-kin to complete the Consent Release and History Form. Since an autopsy report is routinely completed by a pathologist, the only additional burden is the specific request of abstract of terminal illness and final diagnosis relating to pneumoconiosis. Therefore, only 5 minutes of additional burden is estimated for the autopsy report. There are no costs to respondents other than their time. The total estimated annualized burden hours are 20.9.

ESTIMATED ANNUALIZED BURDEN HOURS

| Respondents | Number of respondents | Number of responses per respondent | Average burden per response (in hrs.) |
|---------------------------|-----------------------|------------------------------------|---------------------------------------|
| Pathologist Invoice | 50 | 1 | 5/60 |
| Pathologist Report | 50 | 1 | 5/60 |
| Next-of-Kin | 50 | 1 | 15/60 |
