SUPPLEMENTARY INFORMATION:

Title: Importation of Live Swine, Pork, and Pork Products from Chile.

OMB Number: 0579–0235.

Type of Request: Extension of approval of an information collection.

Abstract: The Animal and Plant Health Inspection Service (APHIS) of the United States Department of Agriculture (USDA) is authorized, among other things, to prohibit the importation and interstate movement of animals and animal products to prevent the introduction into and dissemination within the United States of animal diseases and pests. To fulfill this mission, APHIS regulates the importation of animals and animal products into the United States. The regulations are contained in title 9, chapter 1, subchapter D, parts 91 through 99, of the Code of Federal Regulations.

Part 94, § 94.25, allows the importation, subject to certain conditions, of live swine, pork, and pork products from certain regions, including

Chile, that are free of classical swine fever. Among the conditions is a requirement for a certificate that must be completed by Chilean veterinary authorities prior to export. The certificate must identify both the region of export and the region of origin as regions designated in §§ 94.9 and 94.10 as free of classical swine fever at the time the live swine, pork, or pork products were in the regions.

We are asking the Office of Management and Budget (OMB) to approve our use of this information collection activity for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the information collection on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 1 hour per response.

Respondents: Full-time salaried veterinarians employed by the national government of Chile.

Estimated annual number of respondents: 5.

Estimated annual number of responses per respondent: 10.

Estimated annual number of responses: 50.

Estimated total annual burden on respondents: 50 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request

for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 2nd day of November 2006.

W. Ron DeHaven,

Administrator, Animal and Plant Health Inspection Service.

SUPPLEMENTARY INFORMATION:

Title: Importation of Clementines, Mandarins, and Tangerines from Chile.
OMB Number: 0579-0242.

Type of Request: Extension of approval of an information collection.

Abstract: As authorized by the Plant Protection Act (7 U.S.C. 7701 *et seq.*) (PPA), the Secretary of Agriculture may prohibit or restrict the importation, entry, exportation, or movement in interstate commerce of any plant, plant product, biological control organism, noxious weed, means of conveyance, or other article if the Secretary determines that the prohibition or restriction is necessary to prevent a plant pest or noxious weed from being introduced into or disseminated within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS), which administers regulations to implement the PPA.

The regulations in Subpart—Fruits and Vegetables (7 CFR 319.56 through 319.56-8) prohibit or restrict the importation of fruits and vegetables into the United States from certain parts of the world to prevent the introduction and dissemination of plant pests.

Under these regulations, clementines, mandarins, and tangerines from Chile are subject to certain conditions before entering the United States. These requirements include that production sites participating in an export program from Chile to the United States must register with the national plant protection organization (NPPO) of Chile

and be certified as low prevalence production sites. Each consignment of clementines, mandarins, and tangerines must be inspected by APHIS and the NPPO of Chile, and a phytosanitary certificate must be issued before the consignment may leave Chile. In addition, Chile must enter into a trust fund agreement with the United States before beginning any export program.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

- (3) Enhance the quality, utility, and clarity of the information to be collected; and

- (4) Minimize the burden of the information collection on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.249575 hours per response.

Respondents: Growers, shippers, and Chilean health officials.

Estimated annual number of respondents: 19.

Estimated annual number of responses per respondent: 31.

Estimated annual number of responses: 589.

Estimated total annual burden on respondents: 147 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.) All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.
