SUPPLEMENTARY INFORMATION:

I. Abstract

NOAA proposes to collect socioeconomic data from commercial fishermen in the Gulf of Mexico shrimp fishery who hold a permit for shrimp fishing in federal waters (U.S. Exclusive Economic Zone). Information about revenues, variable and fixed costs, capital investment and other socioeconomic information will be collected. This data complements other data already collected and is needed to conduct socioeconomic analyses that will improve the management of the shrimp fishery and to satisfy legal requirements. The data will be used to assess how fishermen will be impacted and respond to federal regulation likely to be considered by fishery managers. In addition, this data will be used to determine how fishing communities will be impacted by proposed fishing regulations.

II. Method of Collection

The information will be collected either through face-to-face interviews or by mail.

SUMMARY: The Olympic Coast National Marine Sanctuary (OCNMS or sanctuary) is seeking applicants for the following vacant seats on its Sanctuary Advisory Council (council): Education and Commercial Fishing. Applicants are chosen based upon their particular expertise and experience in relation to the seat for which they are applying; community and professional affiliations; philosophy regarding the protection and management of marine resources; and possibly the length of residence in the area affected by the sanctuary. Applicants who are chosen as members should expect to service 3-year terms, pursuant to the council's Charter
DATES: Applications are due by December 15, 2006.

ADDRESSES: Application kits may be obtained from Andrew Palmer, Olympic Coast National Marine Sanctuary, 115 East Railroad Ave., Suite 301, Port Angeles, WA 98362. Completed applications should be sent to the same address.

FOR FURTHER INFORMATION CONTACT:

Andrew Palmer, Olympic Coast National Marine Sanctuary, 115 East Railroad Ave., Suite 301, Port Angeles, WA 98362, Phone (350) 457-6622, ext. 15, e-mail andrew.palmer@noaa.gov.

SUPPLEMENTARY INFORMATION: Sanctuary Advisory Council members and alternates serve three-year terms. The Advisory Council meets bi-monthly in public sessions in communities in and around the Olympic Coast National Marine Sanctuary. The Olympic Coast National Marine Sanctuary Advisory Council was established in December 1998 to assure continued public participation in the management of the sanctuary. Serving in a volunteer capacity, the advisory council's 15 voting members represent a variety of local user groups, as well as the general public. In addition, five Federal Government agencies and one federally funded program serve as non-voting, ex officio members. Since its establishment, the advisory council has played a vital role in advising the sanctuary and NOAA on critical issues. In addition to providing advice on management issues facing the Sanctuary, the Council members serve as a communication bridge between constituents and the Sanctuary staff.

SUPPLEMENTARY INFORMATION: On August 08, 2005, notice was published in the *Federal Register* (70 FR 45701) that a request for a scientific research permit to take shortnose sturgeon had been submitted by the New York State Department of Environmental Conservation (NYSDEC). The requested permit has been issued under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

In order to evaluate seasonal movement of shortnose sturgeon in Haverstraw and Newburgh Bays of the Hudson river, the NYSDEC is authorized annually to capture a maximum of 500 adult and juvenile shortnose sturgeon with gill nets, and to measure, weigh, scan for tags, insert passive integrated transponder tags and Carlin tags (if untagged) and then release.

Issuance of this permit, as required by the ESA, was based on a finding that such permit (1) was applied for in good faith, (2) will not operate to the disadvantage of the endangered species which is the subject of this permit, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.
