

NRDC, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft environmental impact statement stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Comments received, including the names and addresses of those who comment, will be considered part of the public record on this proposal and will be available for public inspection.

AGENCY: Natural Resources Conservation Service, Department of Agriculture.

ACTION: Notice; correction.

SUMMARY: The Natural Resources Conservation Service (NRCS) published in the *Federal Register* notice of October 24, 2006, (71 FR 62246) a document with an incorrect URL. The incorrect URL is located in the **SUMMARY** section on page 62247. This notice corrects the previously published document.

The Department of Agriculture (USDA), NRC seeks comments on the proposed revision of the "Natural Resources Conservation Service Conservation Programs Manual—Part 513: Resource Conservation and Development (RC&D) Program." USDA asks for comments from RC&D Council members and individuals from tribal, State, and local governments and organizations involved in either natural resource conservation or community development groups. These comments will assist USDA in policy development and implementation of the RC&D Program. This manual is used by NRCS, other USDA staff members, RC&D Council members, and others that either develop RC&D applications or participate in the RC&D Program.

This revision of the manual reflects changes in the NRCS organizational structure, incorporates new area planning requirements, provides guidelines for the RC&D Program Operations Information Tracking System, and incorporates additional exhibits to increase clarity. It is available for download at http://policy.nrcs.usda.gov/scripts/lpsii.dll/NB/NB_390_7_1_a.pdf.

SUPPLEMENTARY INFORMATION: The "Conservation Programs Manual: Part 513—RC&D Program" is a document used by NRCS, other USDA staff members, RC&D Council members, and others that either develop RC&D applications or participate in the RC&D Program. The purpose of this document is to provide policy guidance for the RC&D Program, not to establish regulatory requirements. The RC&D Program was authorized to encourage and improve the capability of State and local units of government and local nonprofit organizations in rural areas to plan, develop, and implement programs for resource conservation and development. Through the establishment of RC&D areas, the program establishes or improves coordination systems in communities, and builds community leadership skills to effectively use Federal, State, and local programs for the communities' benefit. Current program objectives focus on improvements achieved through natural resources conservation and community development. Such activities lead to sustainable communities, prudent land use, and the sound management and conservation of natural resources.

Assistance is provided, as authorized by the Secretary of Agriculture, to designated RC&D areas through their organized RC&D Councils (comprised of local affected officials and civic leaders). RC&D Councils, in association with local, State, and Federal governments and other non-profit organizations, initiate and lead the planning and implementation of their

locally developed RC&D area plans. Councils also obtain assistance from other local, State, and Federal agencies, private organizations, and foundations.

(Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).
