SUPPLEMENTARY INFORMATION

I. *Background:* The Office of Workers' Compensation Programs (OWCP) administers the Federal Employees' Compensation Act (FECA) 5 U.S.C. 8101 and Section 8104a of the FECA provides vocational rehabilitation services to eligible injured workers to facilitate their return to work. The costs of providing these vocational rehabilitation services are from the Employees' Compensation Fund. Annual appropriations language currently in Public Law 109-289 provides OWCP with the legal authority to use the amounts from the Fund to reimburse private sector employers for a portion of the salary of reemployed disabled Federal workers they have hired through OWCP's assisted reemployment program. The information collected on Form CA-2231 provides OWCP with the necessary remittance information for the employer, documents the hours of work, certifies the payment of wages to the claimant for which reimbursement is sought, and summarizes the nature and costs of the wage reimbursement program for a prompt decision by OWCP. This information collection is currently approved for use through June 30, 2007.

II. *Review Focus:* The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- enhance the quality, utility and clarity of the information to be collected; and
- minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

SUPPLEMENTARY INFORMATION: *Proposed Project:* "Career Advancement Survey of Federal Employees"

As part of its purpose, MSPB is responsible for conducting studies of the Federal civil service to ensure that all Federal government agencies follow merit systems practices and avoid prohibited personnel practices. To support this research agenda, MSPB periodically conducts surveys of samples of Federal employees. To obtain insight into the current perspectives, MSPB requests approval to conduct additional surveys over the next three years.

The content of these surveys will focus on the career progression strategies utilized by Federal employees. In particular, we will examine if advancement techniques vary between groups of employees and evaluate the outcomes associated with each approach. We also plan to identify perceptions held by employees regarding discrimination and strategies that may have been used to overcome this potential barrier. In addition to the primary survey which is designed to cover all employees, we may also design a limited number of more narrowly focused surveys, which address issues unique to subpopulations of Federal employees (e.g., people with disabilities).

Burden Statement: The annual public reporting and record keeping burden for this collection of information is estimated to average 0.5 hours per respondent.

Respondents/Affected Entities: Participants are selected via stratified random sampling to facilitate a representative sample of Federal employees.

Estimated Number of Respondents: 46,000.

Frequency of Response: Once.

Estimated Total Annual Hour Burden: 23,000.
