II. Background

The Toxic Substances Control Act (TSCA), 15 U.S.C. 2609 section 10(g), authorizes EPA and other Federal agencies to establish and coordinate a system for exchange among Federal, state, and local authorities of research and development results respecting toxic chemical substances and mixtures, including a system to facilitate and promote the development of standard data format and analysis and consistent testing procedures. Through FOSTTA, the CIMP focuses on EPA’s chemical program and works to develop a more coordinated effort involving Federal, state, and tribal agencies. P2 promotes the prevention ethic across society, helping to integrate P2 into mainstream environmental activities at the Federal level and among the states and tribes. TAP concentrates on chemical and prevention issues that are most relevant to the tribes, including lead control and abatement, tribal traditional/subsistence life ways, and hazard communications and outreach. FOSTTA’s vision is to focus on major policy-level issues of importance to states and tribes, recruit more senior state and tribal leaders, increase outreach to all 50 states and some 560 Federally recognized tribes, and vigorously seek ways to engage the states and tribes in ongoing substantive discussions on complex and oftentimes controversial environmental issues.

The Environmental Council of the States (ECOS), in partnership with the National Tribal Environmental Council (NTEC) and EPA’s Office of Pollution Prevention and Toxics (OPPT), are co-sponsoring the meetings. As part of a cooperative agreement, ECOS and NTEC facilitate ongoing efforts of the state and tribal leaders and OPPT to increase understanding and improve collaboration on toxic chemicals and

pollution prevention issues, and to continue a dialogue on how federal environmental programs can best be implemented among the states, tribes, and EPA.

III. How Can I Request to Participate in this Meeting?

You may submit a request to participate in this meeting to the technical person listed under **FOR FURTHER INFORMATION CONTACT**. Do not submit any information in your request that is considered CBI. Requests to participate in the meeting, identified by docket ID number EPA–HQ–OPPT–2006–0929, must be received on or before December 7, 2006.

IV. The Meeting

In the interest of time and efficiency, the meetings are structured to provide maximum opportunity for state, tribal, and EPA participants to discuss items on the predetermined agenda. At the discretion of the chair, an effort will be made to accommodate participation by observers attending the proceedings. The FOSTTA representatives and EPA will discuss collaboration on all environmental protection and pollution prevention issues. The states and the tribes identified the following tentative agenda items:

1. Summary of selected presentations to be made at the Conference on Characterizing Chemicals in Commerce: Using Data on High Production Volume (HPV) Chemicals, which is taking place December 12–14, 2006; see <http://www.NEWMOA.org/hpv> for more information.
2. P2 Program Assessment Rating Tool (PART) Review.
3. P2 integration across EPA.
4. Prioritization of OPPTS work activities under the OPPTS Tribal Strategy.

Draft Toxicological Reviews of Cyanobacterial Toxins: Anatoxin-a, Cylindrospermopsin and Microcystins LR, RR, YR and LA

AGENCY: Environmental Protection Agency.

ACTION: Notice of public comment period and external peer-review panel meeting.

SUMMARY: The U.S. Environmental Protection Agency (EPA) is announcing a forty-five day public comment period and an external peer-review panel meeting to review the external review draft documents entitled, “Toxicological Reviews of Cyanobacterial Toxins: Anatoxin-a, Cylindrospermopsin and Microcystins LR, RR, YR and LA” (NCEA–C–1743, NCEA–C–1763 and NCEA–C–1765). Cyanobacteria, commonly referred to as blue-green algae, are found in freshwater, estuarine and marine environments. Cyanobacteria, other freshwater algae, and their toxins are included as microbial contaminants on EPA’s Office of Water (OW) Contaminant Candidate List (CCL). These draft assessments discuss potential human health effects of exposure to these cyanobacterial toxins for four durations—acute, short-term, subchronic and chronic—focusing on noncancer effects due to oral exposure.

The public comment period and the external peer review are separate processes that provide opportunities for all interested parties to comment on these documents. These documents were prepared by EPA’s National Center for Environmental Assessment (NCEA) within EPA’s Office of Research and Development. EPA will use comments and recommendations from the public and the expert panel meeting to finalize the draft documents. EPA is releasing these draft documents solely for the purpose of pre-dissemination peer review under applicable information quality guidelines. These documents have not been formally disseminated by EPA. They do not represent and should not be construed to represent any Agency policy or determination.

DATES: The public comment period will begin on November 20, 2006 and continue until January 4, 2007. The public may submit comments via Regulations.gov (see **SUPPLEMENTARY INFORMATION** below). The peer-review panel meeting will begin on January 10, 2007, at 9 a.m. and will end at 5 p.m.

The public may attend the peer-review panel meeting and are invited to provide oral statements at the commencement of the meeting (for more information refer to the instructions for registration below).

ADDRESSES: Eastern Research Group, Inc., an EPA contractor for external scientific peer review, will convene an independent panel of experts and organize and conduct an external peer-review panel meeting to review these draft documents. The external peer-review panel meeting will be held at EPA's Andrew W. Breidenbach Environmental Research Center (AWBERC) located at 26 W. Martin Luther King Drive, Cincinnati, OH. Observers may attend the peer review meeting by filling out the form found on the Web site, <https://www2.ergweb.com/projects/conferences/ncea/toxin.htm>, by calling Eastern Research Group, Inc.'s conference line between the hours of 9 a.m. and 5:30 p.m. EST at (781) 674-7374 or toll free at (800) 803-2833, or by faxing a registration request to (781) 674-2906 (include full address and contact information). Pre-registration will begin December 15, 2006. Pre-registration is strongly recommended as space is limited, and registrations will be accepted on a first-come, first-served basis. The deadline for online pre-registration is January 3, 2007. Telephone and fax registrations will continue to be accepted after this date, as will on-site registration, if space allows. Public comments submitted to Regulations.gov by December 29, 2006, will be provided to the external peer review panel prior to the meeting.

The draft "Toxicological Reviews of Cyanobacterial Toxins: Anatoxin-a, Cylindrospermopsin and Microcystins LR, RR, YR and LA" are available primarily via the Internet on the National Center for Environmental Assessment's home page under the Recent Additions and the Data and Publications menus at <http://www.epa.gov/ncea>. Implementation of the Pilot Voluntary Children's Chemical Evaluation Program; Request for Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is requesting comment on the implementation of the pilot phase of the Voluntary Children's Chemical Evaluation Program (VCCEP). VCCEP was designed to collect health effects, exposure, and risk information on chemicals to which children are likely to be exposed, and to make that information available to the public so the public may better understand the potential health risks to children associated with certain chemical exposures. EPA announced the program in December 2000 and the pilot began in 2001 when companies volunteered to sponsor their chemicals under VCCEP. At what is approximately the midpoint in the implementation of the pilot phase of VCCEP, EPA is preparing to evaluate how well it is meeting its objectives for VCCEP. To this end, EPA is seeking comments from participants and observers about the operations and experience under the VCCEP pilot to this point. If requested, EPA will hold a public meeting to take comment on the implementation of the pilot phase of VCCEP.
