

year. Lynnhaven Municipal marina is located along the north side of Long Creek between the West Great Neck Road Bridge and the Lesner Bridge (3211 Lynnhaven Drive, Virginia Beach). The marina currently operates a Chesapeake Bay Marine pump-out system at the building face with a hose that reaches the dock accessible to all boaters. There is a sign for the pump-out posted on the dock and on the building face. The marina also has a dump station at the building face adjacent to the dock for portable toilets. The marina's sewage disposal hours of operation are 8 a.m.–4 p.m., 7 days a week, 12 months per year. Lynnhaven Seafood marina is located along the north side of Long Creek between the West Great Neck Road Bridge and the Lesner Bridge (3311 Shore Drive, Virginia Beach). The marina currently operates a SaniSailor pump-out system on the fuel dock accessible to all boaters. There is a sign on the pump station. The marina also has a dump station adjacent to the dock for portable toilets. The marina's sewage disposal hours of operation are 6:30 a.m.–11 p.m., 7 days a week, 12 months per year. Marina Shores marina is located on the north side of Long Creek just east of the North Great Neck Road Bridge over the creek (2100 Marina Shores Drive, Virginia Beach). The marina currently operates an Edson pump-out system on the fuel dock accessible to all boaters. There is a sign posted on the pump station. The marina also has a dump station adjacent to the dock for portable toilets. The marina's sewage disposal hours of operation are 7 a.m.–8 p.m. weekends, 8 a.m.–7 p.m. weekdays, May through September, and, 8 a.m.–5 p.m. October through June. Cavalier Golf & Yacht Club marina is located at the north end of the Bird Neck Point Neighborhood at Bird Neck Point where Little Neck Creek meets Linkhorn Bay (1052 Cardinal Road, Virginia Beach). The marina currently operates a KECO diaphragm pump-out system on the dock accessible to club members only. They also have a dump station adjacent to the dock for portable toilets. The club currently serves approximately one hundred-fifty (150) vessels at this facility. The marina's sewage disposal hours of operation are 8 a.m.–6 p.m., 7 days a week, 12 months per year.

There are no draught limitations for vessels at pump-out facilities and dump stations in the Lynnhaven River. All vessels using the facilities have sufficient water to dock at the marinas. There are two bridges within the Lynnhaven River as well as the Lesner Bridge located at Lynnhaven Inlet.

Pump-out facility locations as well as the bridge heights (35 feet) do not restrict accessibility to marinas or pump-out facilities. The facilities are generally concentrated near Lynnhaven Inlet because the watershed becomes dominated by private residences as one travels further away from the inlet. However, transient boats enter the watershed at the inlet and most local boats travel to the inlet facilities for fuel, so the grouping of facility locations does not appear to be an inconvenience.

The Commonwealth of Virginia Sanitary Regulations for Marinas and Boat Moorings specifies requirements for facility design and operation. Routine health department inspections and performance tests are performed to ensure that facilities are available and functioning properly. Broken pump-out stations can be reported to the Virginia Department of Health (VDH) by calling 1-800-ASK-FISH. These regulations also address treatment of collected vessel sewage from pump-outs and dump stations. In compliance with these regulations, all wastes from marinas within the Lynnhaven River are collected in and transported through the City of Virginia Beach's sanitary sewer collection system to the Hampton Roads Sanitation District for ultimate treatment and disposal.

According to Virginia's application there are approximately 11,253 vessels operating in the Lynnhaven River on any given day based on Virginia Beach boater registrations, and estimates of the transient boat population, minus the estimated number of registered boats operating in other Virginia Beach watersheds. The VDH marina inspection slip counts indicate only four out of 535 wet slips at commercial marinas with pump-outs in the Lynnhaven River are designated as transient vessel slips. Based on this information, it is assumed that most transient boats are brought in by trailer.

Most of these boats would not be of a size expected to have a holding tank. Transient boat counts have been estimated based on boat information given by the operators of the three public boat ramps in the Lynnhaven River.

The vessel population based on length is 2,883 vessels less than 16 feet in length, 7,272 vessels between 16 feet and 26 feet in length, 899 vessels between 27 feet and 40 feet in length, and 199 vessels greater than 40 feet in length. Based on the number and size of vessels and EPA guidance for State and local officials to estimate the number of vessels with holding tanks, two pump-outs and four dump stations are needed for the Lynnhaven River. As described

above, there are currently six pump-out facilities and six dump stations in the Lynnhaven River.

EPA hereby makes a tentative affirmative determination that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the Lynnhaven River, Virginia Beach, Virginia. A final determination on this matter will be made following the 30 day period for public comment and may result in a Virginia State prohibition of any sewage discharges from vessels in the Lynnhaven River. Comments and views regarding this application and EPA's tentative determination may be filed on or before December 21, 2006.

Comments or requests for information or copies of the application should be addressed to Edward Ambrogio, EPA Region III, Office of State and Watershed Partnerships, 1650 Arch Street, Philadelphia, PA 19103. Telephone: (215) 814-2758. Fax: (215) 814-2301. E-mail: ambrogio.edward@epa.gov.

Dated: November 13, 2006.

Donald S. Welsh,

Regional Administrator, Region III.

BILLING CODE 6560-50-P

FEDERAL RESERVE SYSTEM

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR Part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The application also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise

noted, nonbanking activities will be conducted throughout the United States. Additional information on all bank holding companies may be obtained from the National Information Center website at www.ffiec.gov/nic/.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than December 15, 2006.

A. Federal Reserve Bank of Atlanta (Andre Anderson, Vice President) 1000 Peachtree Street, N.E., Atlanta, Georgia 30309:

1. *Hancock Holding Company*, Gulfport, Mississippi; to acquire 100 percent of the voting shares of Hancock Bank of Alabama, Mobile, Alabama (in organization).

Board of Governors of the Federal Reserve System, November 16, 2006.

Robert deV. Frierson,

Deputy Secretary of the Board.

BILLING CODE 6210-01-S

GENERAL SERVICES ADMINISTRATION

Office of Small Business Utilization; Small Business Advisory Committee;

Notification of a Public Meeting of the Small Business Advisory Committee

AGENCY: Office of Small Business Utilization, GSA.

ACTION: Notice.

SUMMARY: The General Services Administration (GSA) is announcing a public meeting of the GSA Small Business Advisory Committee (the Committee).

DATES: The meeting will take place December 6 and 7, 2006. The meeting will begin on December 6, 2006 at 10 a.m. and conclude no later than 5 p.m. that day. The meeting will reconvene on December 7 at 9 a.m. and conclude no later than 1 p.m. The Committee will accept oral public comments at this meeting and has reserved a total of thirty minutes for this purpose. Members of the public wishing to reserve speaking time must contact Aaron Collmann in writing via e-mail at sbac@gsa.gov or by fax at (202) 501-2590, no later than one week prior to the meeting.

MEETING ADDRESS: Thomas P. O'Neill Jr. Federal Building, 10 Causeway Street, Boston, MA

FOR FURTHER INFORMATION CONTACT
Aaron Collmann, Room 6029, GSA

Building, 1800 F Street, NW., Washington, DC 20405 (202) 501-1021 or email at sbac@gsa.gov.

SUPPLEMENTARY INFORMATION: This notice is published in accordance with the provisions of the Federal Advisory Committee Act (FACA) (Pub. L. 92-463). The purpose of this meeting is to develop the topics generated during the previous meetings; to receive briefings from small business topical experts, and to hear from interested members of the public on proposals to improve GSA's small business contracting performance. Information from previous meetings and topics to be discussed can be found listed in the agenda posted online at <http://www.gsa.gov/sbac>.

Dated: November 14, 2006.

Felipe Mendoza,

Associate Administrator, Office of Small Business Utilization, General Services Administration.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-07-0696]

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404-639-5960 and send comments to Seleda Perryman, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an email to omb@cdc.gov.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the

use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

Proposed Project

HIV Prevention Program Evaluation and Monitoring System for Health Departments and Community-Based Organizations (PEMS)—Reinstatement (0920-0696)—National Center for HIV, STD, and TB Prevention (NCHSTP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

This is an extension of a data collection that is being incrementally implemented. The initial PEMS OMB request was approved October 6, 2005 for one year. However, delays in the development of the data collection software and requests by grantees for additional time to modify their data collection procedures have prevented the initial data collection originally anticipated for 2006.

The purpose of this data collection is to collect HIV prevention evaluation data from health department and community-based organization (CBO) grantees using the electronic Program Evaluation and Monitoring System (PEMS). This data collection incorporates data elements from two previously approved data collections: Evaluating CDC Funded Health Department HIV Prevention Programs, OMB No. 0920-0497 (discontinued 4/31/2006); and Assessing the Effectiveness of CBOs for the Delivery of HIV Prevention Programs, OMB No. 0920-0525 (discontinued 12/17/2004).

Per HIV prevention cooperative agreements, CDC requires non-identifying, client-level, standardized evaluation data from health department and CBO grantees to: (1) More accurately determine the extent to which HIV prevention efforts have been carried out, what types of agencies are providing services, what resources are allocated to those services, to whom services are being provided, and how these efforts have contributed to a reduction in HIV transmission; (2) improve ease of reporting to better meet these data needs; and (3) be accountable to stakeholders by informing them of efforts made and use of funds in HIV prevention nationwide.

Although CDC receives evaluation data from grantees, the data received to date is insufficient for evaluation and accountability. Furthermore, there has not been standardization of required evaluation data from both health departments and CBOs. Changes to the
